 - What do families share together?

What understandings are desired?

Students will understand that...

- Friends and family are part of our lives, community, and identity.
- Each letter makes a sound
- Using context clues, picture clues and classification can help to understand vocabulary
- Determining important information, making inferences and comparing and contrasting can help to comprehend text

What key knowledge and skills will students acquire as a result of this unit?

Students will know...

- Key terms—different, problems, connected, members, grin
- The characteristics of friends and families
- How to use comprehension strategies and skills
- How to spell short vowel words

Students will be able to...

- Make text to text, text to self and text to world connections in relation to friends and family
- Read using different comprehension skills and strategies
- Use vocabulary in reading and daily talk
- Use short vowel words in daily writing and spelling

Stage 2: Determine Acceptable Evidence

What Evidence will show that students understand?

Performance Tasks:

Friend Picture Book--Students will create a picture book answering the question "What are the different ways friends help you?" They will brainstorm ideas in a small group setting and share their final projects with the whole group.

Family and Friends Collage- Students will work in a small group to cut pages from magazines and newspapers to create a collage of friends and families. Students will share their final project with the whole group.

this book extended case studies of two veteran teachers and their students are combined with the extant research literature to explore current issues of teaching learning and testing U S history It is among the first to examine these issues together and in interaction While the two teachers share several similarities the teaching practices they construct could not be more different To explore these differences the author asks what their teaching practices look like how their instruction influences their students understandings of history and what role statewide exams play in their classroom decisions History Lessons

Teaching Learning and Testing in U S High School Classrooms is a major contribution to the emerging body of empirical research in the field of social studies education chiefly in the subject area of history which asks how U S students make sense of history and how teachers construct their classroom practices Three case study chapters are paired with three essay review chapters intended to help readers analyze the cases by looking at them in the context of the current research literature Two concluding chapters extend the cases and analyses the first looks at how and why the teachers profiled in this book construct their individual teaching practices in terms of three distinct but interacting sets of influences personal organizational and policy factors the second explores the prospects for promoting what the author defines as ambitious teaching and learning Many policymakers assume that standards based reforms support the efforts of ambitious teachers but until we better understand how they and the students in their classes think and act that assumption is hollow at best This book is a must have for faculty and students in the field of social studies education and broadly relevant across the fields of curriculum studies and educational policy
