cinema of ideas showing how it takes pleasure in the telling of a story and ultimately revolts against all binding ideological and commercial codes The author explores the rich visual language in which Cavani expresses thought and the cultural icons that constitute her style and images This approach affords powerful insights into the intricate interlacing of narrated events We also come to understand the importance assigned to the gaze in the genesis of desire and the acquisition of knowledge The films come to life in this book as the classical tragedies Cavani intended where rebels and madmen experience conflict between historical and spiritual reality the present and the past Offering intertextual analyses within such fields as psychology history and cultural studies along with production information gleaned from Cavani s personal archives Marrone boldly advances our understanding of an intriguing important body of cinematic work Francis Bacon Ronald Alley,1964
