categories that Raul Hilberg developed in his analysis of the Holocaust perpetrators victims and bystanders it is the last that is the broadest and most difficult to pinpoint Described by Hilberg as those who were once a part of this history bystanders present unique challenges for those seeking to understand the decisions attitudes and self understanding of historical actors who were neither obviously the instigators nor the targets of Nazi crimes Combining historiographical conceptual and empirical perspectives on the bystander the case studies in this book provide powerful insights into the complex social

processes that accompany state sponsored genocidal violence *Enterprise in the Period of Fascism in Europe* Harold James, Jakob Tanner, 2017-07-05 The essays in this volume consider the involvement of business corporations and of individual businessmen in the politics of the 1930s and 1940s in the move away from the market and also from democracy towards state control and authoritarianism including the massive intervention of the state in property rights How far did businesses attempt to guide this intervention for their own purposes and to what extent did they succeed This debate deals centrally with the role of German business of banks of industrial corporations and of small tradesmen in the Nazi regime An older discussion of how they may have facilitated the Nazi takeover has been supplemented here by an investigation into how they made the regime's policies possible and the extent to which the profit motive drove them to participate with sometimes more sometimes less enthusiasm in the politics of inhumanity Such discussion has been given further impetus by legal action initially in the United States in the form of class action suits on behalf of the victims of Nazism What do such legal and political debates mean for business history What are the current responsibilities of business facing the consequences of historical action And what lessons should be learned concerning the ethics of business behaviour The contributions to this volume were originally presented as papers at a conference organised by the Society for European Business History in Paris in November 1998 *De Kebar 1855-1980* J. Miedema, 2022-07-18 The author studied the culture particularly social life of a tribal society of the Kebar plain in the inland area of the Kepala Burung Vogelkop in Irian Jaya The focus was on constants variants and changes in the field of kinship and religion Ch 1 gives a historical survey of the Kebar plain Ch 2 pays attention to environment and demographic data To determine the influences of processes of state formation in the East Indonesian archipelago on the Kebar chapters 3 and 4 look at the intra and intertribal kinship relations including changes occurring in them and the Kebar man and worldview Ch 5 discusses the connection between social historical and ecological influences on the culture of the Kebar in particular in the fields of kinship and religion **The Sorrows of Belgium** Martin Conway, 2012-01-12 The liberation of Belgium by Allied troops in September 1944 marked the end of a harsh German Occupation but also the beginning of a turbulent and decisive period in the history of the country There would be no easy transition to peace Instead the rival political forces of King Leopold III and his supporters the former government in exile in London and the Resistance movements which had emerged during the Occupation confronted each other in a bitter struggle for political ascendancy The subsequent few years were dominated by an almost continual air of political and social crisis as Resistance demonstrations strikes and protests for and against the King appeared to threaten civil war and the institutional dissolution of the country And yet by 1947 a certain stability had been achieved the Resistance groups had been marginalised the Communist Party was excluded from government the King languished in unwilling exile in Switzerland and most tangibly the pre war political parties and the parliamentary political regime had been restored In this substantial contribution to the history of the liberation era in Europe Martin Conway provides the first account based on substantial new archival material

of this process of political normalisation which provided the basis for the integration of Belgium into the post war West European political order That success however came at a cost the absence of any substantial political reform after the Second World War exacerbated the tensions between the different social classes linguistic communities and regions within Belgium providing the basis for the gradual unravelling of the Belgian nation state which occurred over the second half of the twentieth century

The Dutch East Indies Red Cross, 1870-1950 Leo van Bergen, 2019-01-29 The Dutch East Indies Red Cross NIRK took action in 1873 when the Aceh War broke out which lasted several decades In this war the organization's neutrality was tested but it turned out not to be an issue Neutrality was a concept for European wars between civilized countries not applicable in colonial wars As a consequence aid was tailored to the needs of the Dutch East Indian Army This also showed itself in a statutory change making aid not only possible during war but also in case of uprising After the war ended several decades of peace if peace is a proper term in colonial circumstances followed They were used to be prepared in case of an attack by a foreign enemy For this peace work societal work of the Red Cross was deemed important This means that it was not an aim in itself but seen as practice for the war task It also had to avoid the Red Cross becoming invisible and lose popularity for only with enough women active the war task could be fulfilled When war came preparation turned out to have been in vain Japan quickly conquered the archipelago It forbade the organization only making use of some local branches when this came in handy However it proved not to be the end of the NIRK When after the war independence was declared by Indonesian nationalists the Netherlands send an army to restore law and order In the war that followed Red Cross work became part of military carrot and stick strategy trying to get the population back on Dutch side and hoping that patients would inform the doctor with military information The Red Cross not only had a humanitarian but a national task to fulfill
