*Denmark and Europe in the Middle Ages, c.1000-1525* Kerstin Hundahl, Lars Kjær, Niels Lund, 2016-05-23 Where medieval Denmark and Scandinavia as a whole has often been seen as a cultural backwater that passively and belatedly received cultural and political impulses from Western Europe Professor Michael H Gelting and scholars inspired by him have shown that the intellectual religious and political elite of Denmark actively participated in the renaissance and reformation of the central and later medieval period This work has wide ramifications for understanding developments in medieval Europe but so far the discussion has taken place only in Danish language publications This anthology brings the latest research in Danish medieval history to a wider audience and integrates it with contemporary international discussions of the making of the European middle ages

**Handbook of Dutch Church History** Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments

**The Making of Medieval Antifraternalism** G. Geltner, 2012-04-05 A case study in opposition to religious authority in the pre modern period Geltner treats a phenomenon known as antifraternalism from a fresh methodological and documentary perspective He challenges many assumptions made about the early history of the mendicant orders and the origins scale and scope of resistance to them

[Between Saint James and Erasmus: Studies in Late-Medieval Religious Life – Devotion and Pilgrimage in the Netherlands](#) Jan van Herwaarden, 2021-10-25 This volume is divided into four sections late medieval devotion in the Netherlands medieval Christian pilgrimage the medieval cult of St James the Great and Erasmiana Variety and coherence sound the keynote in the title and the contents of the book

Religious concepts and expressions of religious faith such as pilgrimages and indulgences are representative of late medieval Christianity In this book they refer specifically to the medieval cult of St James the Great while for Erasmus they were an object of his critical consideration The whole book can be read in the light of the debate about the tension between an appreciation for outward signs of faith and the inward experience of religious belief which Erasmus considered an absolute necessity

*Franciscan Organisation in the Mendicant Context* Michael J. P. Robson, Jens Röhrkasten, 2010 Emanating from the tradition of the Italian hermit communities the Franciscans developed organisational structures already early in their history allowing them to offer pastoral care on a wide scale This process of transition led firstly to constitutional structures as defined in the order's early legislation but it also occurred within relationship networks at different levels in the context of Church and papacy within the different European regions and before the background of the emerging Canon Law The term organisation has been given a wide definition in the articles published in this volume They offer a survey of general issues related to the structuring and running of religious orders as well as a number of case studies Comparisons with other mendicant orders offer an analysis of the issues in a wider context

**Edelen in Zeeland** Arie van Steensel, 2010 Het beeld van een adel in verval in de laatmiddeleeuwse Nederlanden is niet langer houdbaar maar het is onduidelijk welke positie edelen dan wel hadden in de samenleving In *Edelen in Zeeland* worden de contouren van de adellijke populatie in het graafschap Zeeland tussen 1400 en 1550 geschetst De centrale vraag is hoe de macht rijkdom en status van de adel als groep en hoe de reproductiestrategieën van de individuele edelen zich ontwikkelden in een periode die werd gekenmerkt door staatsvorming verstedelijking en commercialisering De politieke geschiedenis en sociale instituties van Zeeland drukten een belangrijk stempel op het karakter van de adel De diversiteit in politieke en economische profielen tussen de edelen was groot maar zij behielden gemeenschappelijke sociale netwerken De adellijke identiteit en levensstijl kwamen in de zestiende eeuw meer in het teken te staan van staatsdienst dan van ridderschap

*Stadswording in de Nederlanden* Reinout Rutte, Hildo Engen, 2008 Dit boek gaat over de wording van steden in de Nederlanden gedurende de

Middeleeuwen Bijna alle steden die wij tegenwoordig kennen zijn tussen de elfde en vijftiende eeuw ontstaan Dankzij het vele werk dat is verzet in bijvoorbeeld de archeologie de historische geografie de geschiedwetenschap en de architectuurgeschiedenis is de kennis van het stadswordingsproces de afgelopen decennia flink toegenomen Door het overwegend specialistische karakter van het recente onderzoek is een overzichtelijke kijk op de Nederlandse stedengeschiedenis echter ver te zoeken In dit boek wordt voor het eerst een handzaam overzicht gegeven Een keur aan specialisten uit de verschillende disciplines behandelt op toegankelijke wijze thema's zoals de stad in het landschap de interpretatie van archeologische vondsten de morfologie van de stad en de verlening van stadsrechten Bovendien wil dit boek duidelijk maken wat de diverse disciplines die zich bezighouden met de geschiedenis van de stad aan elkaar kunnen hebben en zo een stimulans zijn voor verder synthetiserend onderzoek naar de wordingsgeschiedenis van steden in de Nederlanden

P. van Oostrom, 1992 While being compared favorably to Johan Huizinga's *Waning of the Middle Ages* this is in fact a livelier more convincing analysis of the late fourteenth century Johan P. Snapper University of California Berkeley Sisters and Brothers of the Common Life John Van Engen, 2013-10-09 The *Devotio Moderna* or Modern Devout puzzled their contemporaries Beginning in the 1380s in market towns along the IJssel River of the east central Netherlands and in the county of Holland they formed households organized as communes and forged lives centered on private devotion They lived on city streets alongside their neighbors managed properties and rents in common and worked in the textile and book trades all the while refusing to profess vows as members of any religious order or to acquire spouses and personal property as lay citizens They defended their self designed style of life as exemplary and sustained it in the face of opposition their women labeled beguines and their men lollards both meant as derogatory terms Yet the movement grew drawing in women and schoolboys priests and laymen and spreading outward toward Münster Flanders and Cologne The Devout were arguably more culturally significant than the Lollards and Beguines yet they have commanded far less scholarly attention in English John Van Engen's magisterial book keeps the *Modern Devout* at its center and thinks through their story anew Few interpreters have read the Devout so insistently within their own time and space by looking to the social and religious conditions that marked towns and parishes in northern Europe during the fifteenth century and examining the widespread upheavals in cultural and religious life between the 1370s and the 1440s In *Sisters and Brothers of the Common Life* Van Engen grasps the Devout in their humanity communities and beliefs and places them firmly within the urban societies of the Low Countries and the cultures we call late medieval

**Print** Koen Goudriaan, 2016 The late Middle Ages provide us with a fascinating religious landscape The quest for new religious ideals and intense spirituality can be observed in movements such as the Modern Devotion and the Franciscan Observance marking the late fourteenth and fifteenth century with new institutional dynamics and the formation of a variety of religious communities The dissemination of these new religious ideas and ideals profited from the advent of the printing press It is these subjects that Koen Goudriaan professor of Medieval History at VU University Amsterdam has studied for decades This volume edited by Anna Dlabová and Ad Tervoort presents a collection of eleven of his best essays It focuses on three themes the institutional parameters of late medieval religious movements the cult of remembrance and the interaction between religious movements and the early printing press Together these essays provide a representative sample of Goudriaan's substantial contribution to scholarship on late medieval history
