David,2020-09-21

This book addresses one of the most urgent issues in contemporary American law namely the logic and limits of extending free exercise rights to corporate entities Pointing to the polarization that surrounds disputes like *Burwell v Hobby Lobby* David argues that such cases need not involve pitting flesh and blood individuals against the rights of so called corporate moral persons Instead David proposes that such disputes should be resolved by attending to the moral quality of group actions This approach shifts attention away from polarizing rights talk and towards the virtues required for thriving civic communities More radically however this approach suggests that groups themselves should not be viewed as things or persons in the first instance but rather as occasions of coordinated activity Discerned in the writings of Saint Thomas Aquinas this reconceptualization helps illuminate the moral stakes of a novel and controversial form of religious freedom
