*Handbook on Teaching Social Issues* Ronald W. Evans, 2021-05-01 The Handbook on Teaching Social Issues 2nd edition provides teachers and teacher educators with a comprehensive guide to teaching social issues in the classroom. This second edition re frames the teaching of social issues with a dedicated emphasis on issues of social justice. It raises the potential for a new and stronger focus on social issues instruction in schools. Contributors include many of the leading experts in the field of social studies education. Issues centered social studies is an approach to teaching history, government, geography, economics and other subject related courses through a focus on persistent social issues. The emphasis is on problematic questions that need to be addressed and investigated in depth to increase social understanding, active participation and social progress. Questions or issues may address problems of the past, present or future and involve disagreement over facts, definitions, values and beliefs arising in the study of any of the social studies disciplines or other aspects of human affairs. The authors and editor believe that this approach should be at the heart of social studies instruction in schools.

**ENDORSEMENTS**

At a time when even the world's most stable democracies are backsliding towards autocratic rule, Ronald Evans has pulled together an essential guide for teachers who want to do something about it. The 2nd edition of the *Handbook on Teaching Social Issues* is a brilliant and timely collection that should be the constant companion for teachers across the disciplines. Joel Westheimer, University Research Chair in Democracy and Education, University of Ottawa. The *Handbook on Teaching Social Issues* 2nd edition is a fantastic resource for teachers, teacher educators and professional development specialists who are interested in ensuring that social issues are at the center of the curriculum. The chapters are focused on the most important contemporary thinking about what social issues are, why they are so important for young people to learn about and what research indicates are the most effective pedagogical approaches. The wide ranging theoretical and practical expertise of the editor and all of the chapter authors account for why this handbook makes such an exceptional contribution to our understanding of how and why the social issues approach is so important and stimulating.

Diana Hess, Dean, UW Madison School of Education; Karen A. Falk, Distinguished Chair of Education, Democracy both as a form of governance and a reservoir of principles and practices faces an existential threat. The *Handbook on Teaching Social Issues* is a perfectly timed and wonderfully engaging exploration of what lies at the heart of social studies curriculum social inquiry for democratic life. The authors provide conceptual frames, classroom strategies and deep insights about the complex and utterly crucial work of education for democratic citizenship. Education like that conceptualized and described in this volume is a curative so needed at this critical moment. Ron Evans and his colleagues have delivered assembling an outstanding set of contributions to the field. The *Handbook* underscores John Dewey's now haunting invocation that democracy must be renewed with each generation and an education worthy of its name is the handmaiden of democratic rebirth. William Gaudelli, Dean and Professor, Lehigh University. This volume is so timely and relevant for democratic education. Instead of retreating to separate

Global South Voice Agency and Citizenship explores the spatial relational affective and material dimensions of adolescents and young people's civic engagement and political participation in lower and middle income contexts. This textbook questions how the everyday politics of exercising voice and agency is experienced at different scales from the interpersonal to the global. It explores how structural inequalities and marginalisation as well as social norms and attitudes shape how voice, agency and participation are expressed by diverse young people in particular contexts with unique histories. Contributing authors focus on the experiences of young people who are marginalised based on age, gender, sexuality, disability, citizenship status and geographical location. Together they show how ageing through adolescence enables or constrains agency and voice. Textbook features include case studies on Africa, Asia, the Middle East and Latin America as well as reflective accounts authored by adolescents and young people themselves and discussion questions. Filling a key gap in the knowledge about the concerns and experiences of young people in contexts beyond the Global North, this textbook will be of interest to academics, students and practitioners in the fields of childhood and youth studies, international development, social movements, human geography, sociology and comparative politics.
