Classic Christianity A Systematic Theology By Thomas C Oden:

Classic Christianity Thomas C. Oden, 2009-08-04 For the first time Thomas Oden's Systematic Theology classic series individually titled *The Living God*, *The Word of Life* and *Life in the Spirit* is available in one complete volume. A renowned theologian, Oden provides a consensus view of the Christian faith, delving deeply into ancient Christian tradition and bringing to the contemporary church the best wisdom from its past. In this magisterial work, Oden tackles the central questions of Christian belief and the nature of the Trinity. Written for clergy, Christian educators, religious scholars, and lay readers alike, *Classic Christianity* provides the best synthesis of the whole history of Christian thought. Part one explores the most intriguing questions of the study of God: Does God exist? Does Jesus reveal God? Is God personal, compassionate, free, and presents answers that reflect the broad consensus culled from the breadth of the church's teachers. It is rooted deeply and deliberately in Scripture but confronts the contemporary mind with the vitality of the Christian tradition. Part two addresses the perplexing Christological issues of whether God became flesh, whether God became Christ, and whether Christ is the source of salvation. Oden details the core beliefs concerning Jesus Christ that have been handed down for the last two hundred decades, namely who he was, what he did, and what that means for us today. Part three examines how the work of God in creation and redemption is being brought to consummation by the Holy Spirit in persons, through communities, and in the fullness of human destiny. Oden's magisterial study not only treats the traditional elements of systematical theology but also highlights the foundational exegeses throughout history. Covering the ecumenical councils and early synods, the great teachers of the Eastern church tradition including Athanasius and John Chrysostom, and the prominent Western figures such as Augustine, Ambrose, Thomas Aquinas, Martin Luther, and John Calvin, this book offers the reader the fullest understanding of the Christian faith available.

Systematic Theology Thomas C. Oden, 1998 My basic purpose is to set forth an ordered view of the faith of the Christian community upon which there has generally been substantial agreement between the traditions of East and West, including Catholic, Protestant, and Orthodox. My purpose is not to present the views of a particular branch of modern Christian teaching such as Roman Catholic or Baptist or Episcopal. Rather, it is to listen, single-mindedly, for the voice of that deeper ecumenical consensus that has been gratefully celebrated as received teaching by believers of vastly different cultural settings, whether African or European, Eastern or Western, sixth or sixteenth century. Preface

After Modernity-- What? Thomas C. Oden, 1992 This vigorous and incisive critique of modernity lights the path to recovering the revitalizing heritage of classical Christianity.

Abraham's Dice Karl W. Giberson, 2016-04-18 Most of us believe everything happens for a reason Whether it is God's will karma or fate we want to believe that nothing in the world especially disasters and tragedies is a random meaningless event But now as never before confident scientific assertions that the world embodies a profound contingency are challenging theological claims that God acts providentially in the world The random and meandering path of evolution is widely used as an argument that God did not create life Abraham's Dice explores the interplay between chance and providence in the monotheistic religious traditions looking at how their interaction has been conceptualized as our understanding of the workings of nature has changed This lively historical conversation has generated intense ongoing theological debates and provocative responses from science what are we to make of the history of our universe where chance and law have played out in complex ways Or the evolution of life where random mutations have challenged attempts to find purpose within evolution and convinced many that human beings are but a glorious accident The enduring belief that everything happens for a reason is examined through a conversation with major scholars among them holders of prestigious chairs at Oxford and Cambridge Universities and the University of Basel as well as several Gifford lecturers and two Templeton prize winners Organized historically Abraham's Dice provides a wide ranging scientific theological and biblical foundation to address the question of providence and divine action in a world shot through with contingency
