Cengage Advantage Books: Child Development Danuta Bukatko, Marvin W. Daehler, 2011-03 Bukatko Daehler's CHILD DEVELOPMENT A THEMATIC APPROACH provides a comprehensive topically organized up to date picture of development from conception to adolescence. Most important it draws students attention to the themes that replay themselves throughout the course of development fundamental issues that resurface continually and that provide coherence to sometimes seemingly disparate research. The themes can serve as frameworks to help students further understand and remember the multitude of facts about child development. Bukatko Daehler's sixth edition text draws on five themes: Nature and Nurture, Sociocultural Influence, Continuity/Discontinuity, Interaction among Domains, and Risk/Resilience. By drawing on these themes the authors hope to stimulate readers to think about the process of development or why it proceeds as it does. Through new For Your Review and Reflection sections the authors also hope students will engage with the text and become more adept critical thinkers who are more likely to appreciate the ramifications of theory and research for applied issues such as parenting practices, education, and social policy for children which are ultimately concerns for us all. *Child Development* Danuta Bukatko, Marvin W. Daehler, 2004. Child Development covers all ages through adolescence focusing on a distinct domain of developmental psychology in every chapter and emphasizing theory and research. In order to help students think like researchers the authors present a thematic approach that consistently ties findings to the six themes underlying the study of human development: the role of nature and nurture, the influence of sociocultural context, the active role of the child, continuous vs stage like development, the interaction of various domains of development, and the prominence of individual differences in development.
