The Learning Equation Pre-Algebra Acerra,2003-08 TLE is designed for learner focused computer classroom lab based and distance learning courses Adopting institutions receive and have license to install all TLE courses on their campus computers even if they only adopt and have students purchase TLE for one section of one course The pedagogical model employs a Guided Inquiry approach whereby students construct their own understanding of concepts Instead of passively being fed information students are actively involved in tasks requiring them to discover or apply mathematical concepts The browser based course management system that accompanies TLE allows for the easy creation of algorithmically generated

machine graded free response mathematics practice quizzes and tests giving instructors the power to assess student understanding of skills in a more meaningful way Because the testing and course management system is browser based it can be used on a stand alone or networked computer or any computer with Internet access giving instructors the power to access course management information such as student progress time on task and grades anytime anywhere Students working off campus can access TLE assignments using the Internet anytime Adopting institutions may use Cengage Learning servers for course management at no additional cost
