Introduction

Cerberus™ PRO — answer variable challenges with powerful protection.

Cerberus™ PRO is an intelligent fire protection system for fast, reliable fire detection, alarm signaling, and control. Its wide portfolio includes innovative products with intelligent technology — varied control panels, fire detectors, peripheral devices, and accessories — making it a comprehensive fire protection system.

New business opportunities, new streams of revenue

Fire safety is about protecting people and assets and securing business processes and continuity. The powerful fire protection Cerberus PRO offers makes it an excellent choice for a variety of applications, including telecommunications, data centers, small industrial facilities and commercial buildings. It provides a stand-alone control panel for smaller applications, and networkable panels for larger, more complex applications. Additionally, Cerberus PRO provides a broad range of detectors with more than 20 selectable detection profiles, allowing them to be used in clean or dirty

environments. This presents new opportunities in new applications, where we can offer a tailored detection solution.

- Advanced multi-criteria detection capabilities with AS-AS-Technology™ and CO detection for demanding environments
- Complete range of detectors for virtually any kind of fire phenomena which allows for potential up-selling
- Scalable solutions for larger applications

A winning formula for success

This guide equips you with the tools you need to effectively promote and sell this new product portfolio. With your developed customer relationships and local expertise, and our innovative and reliable technology, we can bolster your position as an industry leader in fire safety and enjoy exponential revenue growth.
