Galliher, 2012 The death penalty has largely disappeared as a national legislative issue and the Supreme Court has mainly bowed out leaving the states at the cutting edge of abolition politics This essential guide presents and explains the changing political and cultural challenges to capital punishment at the state level As with their previous volume America Without the Death Penalty Northeastern 2002 the authors of this completely new volume concentrate on the local and regional relationships between death penalty abolition and numerous empirical factors such as economic conditions public sentiment the roles of social political and economic elites the mass media and population diversity They highlight the recent abolition of the practice in New York New Jersey New Mexico and Illinois the near misses in New Hampshire Connecticut Maryland and Nebraska the Kansas rollercoaster rides and the surprising recent decline of the death penalty even in the deep South Abolition of the death penalty in the United States is a piecemeal process with one state after another peeling off from the pack until none is left and the tragic institution finally is no more This book tells you how and why that will likely happen *In Defense of the World's Most Despised Species* Ernest Small, 2023-10-05 Some animals and plants injure or kill millions of people annually others cause trillions of dollars in property damage and loss Such harmful species are understandably hated However the vast majority of the planet s millions of species are disliked simply because of how they look and act This bias is endangering numerous species that play important roles in maintaining both the natural ecosystems and the human economies of the world In Defense of the World s Most Despised Species examines the psychological motivations that lead people to make judgments about the attractiveness of species noting the overwhelming importance of visual cues It describes in considerable detail the physical and behavioral traits of species that lead us to love or hate them Full color illustrations throughout present beautiful charming animals and plants species that seem loathsome

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes

The Death Penalty Louis P. Pojman, Jeffrey Reiman, 2000-01-01 Two distinguished social and political philosophers take opposing positions in this highly engaging work Louis P Pojman justifies the practice of execution by appealing to the principle of retribution we deserve to be rewarded and punished according to the virtue or viciousness of our actions He asserts that the death penalty does deter some potential murderers and that we risk the lives of innocent people who might otherwise live if we refuse to execute those deserving that punishment Jeffrey Reiman argues that although the death penalty is a just punishment for murder we are not morally obliged to execute murderers Since we lack conclusive evidence that executing murderers is an effective deterrent and because we can foster the advance of civilization by demonstrating our intolerance for cruelty in our unwillingness to kill those who kill others

Reiman concludes that it is good in principle to avoid the death penalty and bad in practice to impose it Where Do You Stand? Gregory C. Higgins,1995 This book offers a way of reflecting on eight life issues ranging from sex to capital punishment It doesn't give answers It does ask questions Each issue is explored by a process that offers mature arguments from proponents of different views yet that leads the reader to make a personal commitment to one course or another The process consists of concrete situations that put the moral issue in the real life perspective a detailed examination of the underlying questions with arguments supporting each side discussion questions for group interaction or personal reflection and suggested readings resources for those who wish to pursue the questions in more depth **Problem-Based Ethics** Samuel Kahn,2024-11-19 As a broad critique and invitation to reframe the study of ethics Problem Based Ethics welcomes scholars and students across disciplines to engage with ethics as a way to explore pervasive questions of our society and human existence Stepping back from the intricacies of theory and from heated political debates Samuel Kahn's synthesis of the study of ethics asks readers to consider even the most contentious of topics like abortion capital punishment and euthanasia from their most basic questions This approach reveals opportunities for more nuanced and evolving ethical positions It also promotes a culture of civility too often destroyed in politicized debates in scholarly and popular forums The book covers standard issues in metaethics normative ethics and applied ethics such as the objectivism subjectivism debate the consequentialism deontology virtue ethics ethics of care debate and the abortion debate It also introduces more advanced issues such as distributive justice and environmental ethics as well as less standard questions often of interest to laypeople and students such as whether crime can be eliminated The Leviathan's Choice James Michael Martinez,William D. Richardson,William Donald Richardson,D. Brandon Hornsby,2002 One of the broadest and most balanced accounts of the capital punishment debate The Leviathan's Choice explores the death penalty from four distinct perspectives philosophical theological social science and legal and includes scholarly essays on both sides of the debate An ideal reader for students and policy makers this book is essential for everyone following the arguments surrounding the death penalty Legal Rights Terry Johnson,2009 Explores the legal rights of American citizens including the right against unreasonable searches and seizures the right to a fair trial and fair treatment and legal rights in the future **Applying Ethics** Jeffrey Olen,Vincent E. Barry,1999 This best selling text reader and casebook provides an outstanding introduction to moral philosophy engaging students in the most perplexing issues of our time without sacrificing philosophical integrity Numerous readings by philosophers and writers and contemporary case studies make chapter topics lively centerpieces for discussions For each chapter original readings follow the authors introduction to the concepts of each issue which are then followed by cases Each reading includes a brief introduction and follows with Questions for Analysis Cases are also followed by Questions for Analysis **Imagining the American Death Penalty** Birte Christ,2025-04-29 Imagining the American Death Penalty traces the US American cultural imaginary of capital punishment through popular visual representations from the 1890s to

the twenty first century The book focuses on three generic and historical clusters of representations early film from the 1890s through *Intolerance* 1916 crime film noir of the 1950s and 1960s and legal TV series from the 1990s through the early 2000s The book makes two central arguments First it demonstrates that an increased concern with the death penalty in popular media does not mean that these texts promote an abolitionist agenda their cultural work is ambiguous at best This ambiguity is always contingent upon both the affordances of the particular genre and medium in question and on political legal discursive context The book explores both in detail Early film is enchanted with its own representational possibilities due to the progress of technology and in analogy with the progress in execution technique specifically the electric chair In film noir genre conventions and the legal back and forth before and after Furman predicate ambiguity In legal TV series the genre's ensemble casts and its focus on conversational exchange invite open debate The second argument is that popular visual representations consistently whitewash the death penalty The book demonstrates that this is the case because the most common narrative around executions in film and TV is to cast the condemned man as a hero who defies the violence of the state gains dignity by accepting his fate and faults and in some ways triumphs over death The American imaginary until very recently did or could not imagine Black men to possess that measure of agency that it attributed to its white heroes

Constitutional Law and the Criminal Justice System J. Scott Harr, Kären M. Hess, 2002 This constitutional law book focuses primarily on the Fourth Amendment reasonable search and seizure and the Fifth Amendment double jeopardy testifying against oneself since they are the most relevant to criminal justice issues Harr and Hess authors of several successful books in the areas of criminal procedure criminal justice employment and policing issues have taken the most complex of material and made it into a reader oriented manageable book that covers the key issues related to our Constitution and the criminal justice system
