Chu,2010-01-13 In Chinese Capitalisms experts examine the rise of capitalism on China and Taiwan analyzing impacts exerted by global capitalism Chinese civilization and remnants of socialist practice In focusing on these they also address longstanding issues such as Weber s China Thesis state business relationships and China s civil society among others *Market in State* Yongnian Zheng,Yanjie Huang,2018-09-06 Focusing on the evolving relations between the state and market in the post Mao reform era Yongnian Zheng and Yanjie Huang present a theory of Chinese capitalism by identifying and analyzing three layers of the market system in the contemporary Chinese economy These are namely a free market economy at the bottom state capitalism at the top and a middle ground in between By examining Chinese economic practices against the dominant schools of Western political economy and classical Chinese economic thoughts the authors set out the analytical framework of market in state to conceptualize the market not as an autonomous self regulating order but part and parcel of a state centered order Zheng and Huang show how state political principles are dominant over market economic principles in China s economy As the Chinese economy continues to grow and globalize its internal balance will likely have a large impact upon economies across the world

through acquisitions and absorptions of existing corporations in particular industries especially in steel automobiles and textiles In China state owned corporations have been dominant In India though state owned enterprises have been powerful since 1951 it has been private capitalists with an established stronghold since the colonial period and even under the Socialist period from 1951 1991 who have been the more productive main actors both in India and abroad Chinese Politics Daniel Lynch, Stanley Rosen, 2010-01-28 Written by a team of leading China scholars this text interrogates the dynamics of state power and legitimation in 21st Century China Despite the continuing economic successes and rising international prestige of China there has been increasing social protests over corruption land seizures environmental concerns and homeowner movements Such political contestation presents an opportunity to explore the changes occurring in China today what are the goals of political contestation how are Chinese Communist Party leaders legitimizing their rule who are the specific actors involved in contesting state legitimacy today and what are the implications of changing state society relations for the future viability of the People's Republic Key subjects covered include the legitimacy of the Communist Party internet censorship ethnic resistance rural and urban contention nationalism youth culture labour relations Chinese Politics is an essential read for all students and scholars of contemporary China as well as those interested in the dynamics of political and social change

Mutant Neoliberalism William Callison, Zachary Manfredi, 2019-11-05 Tales of neoliberalism's death are serially overstated Following the financial crisis of 2008 neoliberalism was proclaimed a zombie a disgraced ideology that staggered on like an undead monster After the political ruptures of 2016 commentators were quick to announce the end of neoliberalism yet again pointing to both the global rise of far right forces and the reinvigoration of democratic socialist politics But do new political forces sound neoliberalism's death knell or will they instead catalyze new mutations in its dynamic development Mutant Neoliberalism brings together leading scholars of neoliberalism political theorists historians philosophers anthropologists and sociologists to rethink transformations in market rule and their relation to ongoing political ruptures The chapters show how years of neoliberal governance policy and depoliticization created the conditions for thriving reactionary forces while also reflecting on whether recent trends will challenge reconfigure or extend neoliberalism's reach The contributors reconsider neoliberalism's relationship with its assumed adversaries and map mutations in financialized capitalism and governance across time and space from Europe and the United States to China and India Taken together the volume recasts the stakes of contemporary debate and reorients critique and resistance within a rapidly changing landscape Contributors: Étienne Balibar, Sren Brandes, Wendy Brown, Melinda Cooper, Julia Elyachar, Michel Feher, Megan Moodie, Christopher Newfield, Dieter Plehwe, Lisa Rofel, Leslie Salzinger, Quinn Slobodian

This book analyzes the phenomenally profitable Red Tourism industry in China in which visitors make pilgrimages to sites of historical significance to the Communist Party of China and the Chinese Revolution. The book examines Red Tourism in connection with the transforming power relations between the state and the private communication in the socialist past and the current round of capitalization against the backdrop of the world's second largest economy. By re-evaluating the conventional notion of propaganda through the lens of neutral xuanchuan propaganda, the book presents a nuanced look at the social space of Red Tourism, revealing that propaganda should be conceived as a commodity, an industry or even a media system similar to the news media. Dancing with the Devil Yi-min Lin,2017-05-01 From 1978 through the turn of the century China was transformed from a state owned economy into a predominantly private economy This fundamental change took place under the Chinese Communist Party CCP which has been ideologically and politically predisposed to suppress private ownership In *Dancing with the Devil* Yi min Lin explains how and why such a paradoxical reality came about He shows that private ownership became a necessary evil for the CCP because the public sector was increasingly unable to address two essential concerns for regime survival employment and revenue Focusing on political actors as major change agents Lin examines how their self interested behavior led to the decline of public ownership in the context of China's evolving demographics and fiscal system The constraints and incentives associated with these factors help explain CCP leaders initial decision to allow limited private economic activities at the outset of reform They also shed light on the

ballooning opportunism among lower officials which undermined the vitality of public enterprises Furthermore they hold a key to understanding the timing of the massive privatization in the late 1990s as well as its tempo and spread thereafter *Dancing with the Devil* illustrates how the driving forces developed and played out in these intertwined episodes of the story In so doing it offers new insights into the mechanisms of China's economic transformation and enriches theories of institutional change
