**The Mariner's Library of Voyager's Companion**, 1834      *From Captives to Consuls* Brett Goodin, 2020-10-13 How three white non elite American sailors turned their experiences of captivity into diverse career opportunities and influenced America's physical commercial ideological and diplomatic development Winner of the John Lyman Book Award by the North American Society for Oceanic History From 1784 to 1815 hundreds of American sailors were held as white slaves in the North African Barbary States In *From Captives to Consuls* Brett Goodin vividly traces the lives of three of these men Richard O'Brien James Cathcart and James Riley from the Atlantic coast during the American Revolution to North Africa from Philadelphia to the Louisiana Territories and finally to the western frontier This first scholarly biography of American captives in Barbary sifts through their highly curated writings to reveal how ordinary individuals in extraordinary circumstances could maneuver through and contribute to nation building in early America all the while advancing their own interests The three subjects of this collective biography both reflected and helped refine evolving American concepts of liberty identity race masculinity and nationhood Time and again Goodin reveals O'Brien Cathcart and Riley uncovered opportunities in their adversity They variously found advantage first in the Revolution as privateers then in captivity by writing bestselling captivity narratives and successfully framing their ordeal as a qualification for coveted government employment They even used their modest fame as ex captives to become diplomats get elected to state legislatures and survey the nation's territorial expansions in the South and West Their successful self interested pursuit of opportunities offered by the expanding American empire Goodin argues constitutes what he calls the invisible hand of American nation building Goodin shows how these ordinary men lacking the genius of a Benjamin Franklin or Alexander Hamilton depended on sheer luck and adaptability in their quest for financial independence and public recognition Drawing on archival collections newspapers private correspondence and government documents *From Captives to Consuls* sheds new light on the significance of ordinary individuals in guiding early American ideas of science international relations and what it meant to be a self made man

*White Slaves, African Masters* Paul Baepler, 1999-05-15 Some of the most popular stories in nineteenth century America were sensational tales of whites captured and enslaved in North Africa *White Slaves African Masters* for the first time gathers together a selection of these Barbary captivity narratives which significantly influenced early American attitudes toward race slavery and nationalism Though Barbary privateers began to seize North American colonists as early as 1625 Barbary captivity narratives did not begin to flourish until after the American Revolution During these years stories of Barbary captivity forced the U.S. government to pay humiliating tributes to African rulers stimulated the drive to create the U.S. Navy and brought on America's first post revolutionary war These tales also were used both to justify and to vilify slavery The accounts collected here range from the 1798 tale of John Foss who was ransomed by Thomas Jefferson's administration for tribute totaling a sixth of the annual federal budget to the story of Ion Perdicaris whose probably staged abduction in

Tangier in 1904 prompted Theodore Roosevelt to send warships to Morocco and inspired the 1975 film *The Wind and the Lion*. Also included is the unusual story of Robert Adams, a light-skinned African American who was abducted by Arabs and used by them to hunt negro slaves captured by black villagers who presumed he was white; then he was sold back to a group of Arabs from whom he was ransomed by a British diplomat. Long out of print and never before anthologized, these fascinating tales open an entirely new chapter of early American literary history and shed new light on the more familiar genres of Indian captivity narrative and American slave narrative. Baepler has done American literary and cultural historians a service by collecting these long out of print Barbary captivity narratives. Baepler's excellent introduction and full bibliography of primary and secondary sources greatly enhance our knowledge of this fascinating genre. *Library Journal* *The Book of Shipwrecks, and Narratives of Maritime Discoveries and the Most Popular Voyages*, 1840 *Tales about Europe, Asia, Africa, and America* Samuel Griswold Goodrich, 1842 *The Cyclopædia of Wit and Humor* William Evans Burton, 1875
