## **Car License Plate Template:**

**Advanced Computer and Communication Engineering Technology** Hamzah Asyrani Sulaiman, Mohd Azlishah Othman, Mohd Fairuz Iskandar Othman, Yahaya Abd Rahim, Naim Che Pee, 2014-11-01 This book covers diverse aspects of advanced computer and communication engineering focusing specifically on industrial and manufacturing theory and applications of electronics communications computing and information technology Experts in research industry and academia present the latest developments in technology describe applications involving cutting edge communication and computer systems and explore likely future directions In addition access is offered to numerous new algorithms that assist in solving computer and communication engineering problems The book is based on presentations delivered at ICOCOE 2014 the 1st International Conference on Communication and Computer Engineering It will appeal to a wide range of professionals in the field including telecommunication engineers computer engineers and scientists researchers academics and students

*Manifest Your Dreams* Toni Brody, 2016-04-08 *Manifest Your Dreams* is a pathway to your self discovery and inspiration Each art project has a theme to keep you focused positive and working toward your goal

**Image Technology** Jorge L.C. Sanz, 2012-12-06 Image processing and machine vision are fields of renewed interest in the commercial market People in industry managers and technical engineers are looking for new technologies to move into the market Many of the most promising developments are taking place in the field of image processing and its applications The book offers a broad coverage of advances in a range of topics in image processing and machine vision

*Car License Plate Recognition Using Template Matching Algorithm* Pramod S. Kapadia, California State University, Sacramento, 2010 License Plate Recognition or LPR is an image processing technology used to identify vehicles by their license plates This technology is used in various applications involving security traffic law enforcement public safety and transportation sectors It mainly uses software code that enables computer systems to read automatically the registration number license number of vehicles from digital pictures The project explains various algorithms that are exercised to recognize the characters present on the California Car License Plate One of them is Template Matching algorithm that has an ability to store the information of a particular size template in the form of four 16 bit vectors and apply it for recognizing the characters This feature of the algorithm mentioned above helped in achieving faster character recognition of the license plate This process of character recognition consists of steps like Image processing Defragmentation Resizing and Character localization that are required to be performed on the image in order for Template Matching to be done The final goal of the project was to simulate these algorithms initially on Microsoft Visual Studio using Open CV libraries Once this was established the design was transferred on the TI s video development platform DM6437 DVDP for testing and performance analysis The earlier mentioned algorithmic steps were written in C programming language and demonstration of the project was successfully presented on the TI s DSP board EVM320DM6437

Computer Vision and Graphics Leonard Bolc, Ryszard Tadeusiewicz, Leszek J. Chmielewski, Konrad

Wojciechowski,2010-09-14 Annotation This book is part I of a two volume work that contains the refereed proceedings of the International Conference on Computer Vision and Graphics ICCVG 2010 held in Warsaw Poland in September 2010 The 95 revised full papers presented were carefully reviewed and selected from numerous submissions The papers are organized in three topical sections advances in pattern recognition machine vision and image understanding human motion analysis and synthesis and computer vision and graphics *Communication, Cloud and Big Data* Hiren Kumar Deva Sarma,Prativa

Rai,Samarjeet Borah,2014-12-31 Analysis of big data is becoming a hot stuff for engineers researchers and business enterprises now a days It refers to the process of collecting organizing and analyzing large sets of data to discover hidden patterns and other useful information Not solely can massive information analytics assist to know the knowledge contained inside the information however it will additionally facilitate to determine the information that is most significant to the business and future business choices Cloud computing is the type of computing that relies on sharing computing resources rather than having local servers or personal devices to handle applications Cloud computing aims at applying traditional supercomputing or high performance computing power to perform tens of trillions of computations per second in consumer oriented applications such as financial portfolios to deliver personalized information to provide data storage etc Since big data places on networks storage and servers requirements arise to analyse this huge amount data on the cloud Even cloud providers also welcome this new business opportunity of supporting big data analysis in the cloud But in the same time they are facing various architectural and technical hurdles Therefore big data analysis in cloud attracting many researchers now a days The National Conference on Communication Cloud and Big Data CCB 2014 organized by Department of Information Technology SMIT has received keen response from researchers across the country Each paper went through reviews process and finally 30 papers were selected for presentation The papers are an even mix of research topics from the fields of Communication Cloud and Big Data and its applications in various fields of engineering and science **Cognitively**

**Inspired Video Text Processing** Palaiahnakote Shivakumara,Umapada Pal,2021-11-16 As technologies are fast advancing the importance of text detection and recognition is receiving special attention from the researchers Thus one can see several real time applications of video text processing which requires cognitive based methods to find a solution The main applications are 1 retrieving and indexing video based on semantic of the content of the video 2 machine translation to assist foreigners 3 assisting blind people to walk on the road freely without aid 4 automatic vehicle driving 5 license plate tracing to catch vehicles which violate the traffic signals 6 monitoring the images posted on social media based on text and content of the images 7 identifying the location based on the address of the street and shops etc 8 tracing players in the sports based on the jersey bib number or text and 9 in the same way tracing the bib number in case of marathon and other events For the above mentioned applications text detection and recognition in video and natural scene images is an integral part of the system **Recent Trends in Mechatronics Towards Industry 4.0** Ahmad Fakhri Ab. Nasir,Ahmad Najmuddin

Ibrahim, Ismayuzri Ishak, Nafriuzan Mat Yahya, Muhammad Aizzat Zakaria, Anwar P. P. Abdul Majeed, 2021-07-15 This book presents part of the iM3F 2020 proceedings from the Mechatronics track It highlights key challenges and recent trends in mechatronics engineering and technology that are non trivial in the age of Industry 4.0 It discusses traditional as well as modern solutions that are employed in the multitude spectra of mechatronics based applications The readers are expected to gain an insightful view on the current trends issues mitigating factors as well as solutions from this book Proceedings of the International Conference on Big Data, IoT, and Machine Learning Mohammad Shamsul Arefin, M. Shamim Kaiser, Anirban Bandyopadhyay, Md. Atiqur Rahman Ahad, Kanad Ray, 2021-12-03 This book gathers a collection of high quality peer reviewed research papers presented at the International Conference on Big Data IoT and Machine Learning BIM 2021 held in Cox's Bazar Bangladesh during 23-25 September 2021 The book covers research papers in the field of big data IoT and machine learning The book will be helpful for active researchers and practitioners in the field *Advances in Communication Systems and Networks* J. Jayakumari, George K. Karagiannidis, Maode Ma, Syed Akhter Hossain, 2020-06-13 This book presents the selected peer reviewed papers from the International Conference on Communication Systems and Networks ComNet 2019 Highlighting the latest findings ideas developments and applications in all areas of advanced communication systems and networking it covers a variety of topics including next generation wireless technologies such as 5G new hardware platforms antenna design applications of artificial intelligence AI signal processing and optimization techniques Given its scope this book can be useful for beginners researchers and professionals working in wireless communication and networks and other allied fields *Advances in Data Science, Cyber Security and IT Applications* Auhood Alfaries, Hanan Mengash, Ansar Yasar, Elhadi Shakshuki, 2019-12-21 This book constitutes the refereed proceedings of the First International Conference on Intelligent Cloud Computing ICC 2019 held in Riyadh Saudi Arabia in December 2019 The two volume set presents 53 full papers which were carefully reviewed and selected from 174 submissions The papers are organized in topical sections on Cyber Security Data Science Information Technology and Applications Network and IoT Toward an Optimized Neutrosophic k-Means With Genetic Algorithm for Automatic Vehicle License Plate Recognition (ONKM-AVLPR) BEDIR BEDIR YOUSIF, MOHAMED MAHER ATA, NEHAL FAWZY, MARWA OBAYA, The present paper proposes a new methodology for license plate LP recognition in the state of the art of image processing algorithms and an optimized neutrosophic set NS based on genetic algorithm GA First of all we have performed some image processing techniques such as edge detection and morphological operations in order to utilize the LP localization **Neural Information Processing** Tingwen Huang, Zhigang Zeng, Chuandong Li, Chi Sing Leung, 2012-11-05 The five volume set LNCS 7663 LNCS 7664 LNCS 7665 LNCS 7666 and LNCS 7667 constitutes the proceedings of the 19th International Conference on Neural Information Processing ICONIP 2012 held in Doha Qatar in November 2012 The 423 regular session papers presented were carefully reviewed and selected from numerous submissions These papers cover all major topics of theoretical research empirical

study and applications of neural information processing research The 5 volumes represent 5 topical sections containing articles on theoretical analysis neural modeling algorithms applications as well as simulation and synthesis     *Computer Vision and Imaging in Intelligent Transportation Systems* Robert P. Loce,Raja Bala,Mohan Trivedi,2017-11-08 Acts as single source reference providing readers with an overview of how computer vision can contribute to the different applications in the field of road transportation This book presents a survey of computer vision techniques related to three key broad problems in the roadway transportation domain safety efficiency and law enforcement The individual chapters present significant applications within those problem domains each presented in a tutorial manner describing the motivation for and benefits of the application and a description of the state of the art Key features Surveys the applications of computer vision techniques to road transportation system for the purposes of improving safety and efficiency and to assist law enforcement Offers a timely discussion as computer vision is reaching a point of being useful in the field of transportation systems Available as an enhanced eBook with video demonstrations to further explain the concepts discussed in the book as well as links to publically available software and data sets for testing and algorithm development The book will benefit the many researchers engineers and practitioners of computer vision digital imaging automotive and civil engineering working in intelligent transportation systems Given the breadth of topics covered the text will present the reader with new and yet unconceived possibilities for application within their communities     **Deep Learning: Theory, Architectures and Applications in Speech, Image and Language Processing** Gyanendra Verma,Rajesh Doriya,2023-08-21 This book is a detailed reference guide on deep learning and its applications It aims to provide a basic understanding of deep learning and its different architectures that are applied to process images speech and natural language It explains basic concepts and many modern use cases through fifteen chapters contributed by computer science academics and researchers By the end of the book the reader will become familiar with different deep learning approaches and models and understand how to implement various deep learning algorithms using multiple frameworks and libraries This book is divided into three parts The first part explains the basic operating understanding history evolution and challenges associated with deep learning The basic concepts of mathematics and the hardware requirements for deep learning implementation and some of its popular frameworks for medical applications are also covered The second part is dedicated to sentiment analysis using deep learning and machine learning techniques This book section covers the experimentation and application of deep learning techniques and architectures in real world applications It details the salient approaches issues and challenges in building ethically aligned machines An approach inspired by traditional Eastern thought and wisdom is also presented The final part covers artificial intelligence approaches used to explain the machine learning models that enhance transparency for the benefit of users A review and detailed description of the use of knowledge graphs in generating explanations for black box recommender systems and a review of ethical system design and a model for sustainable education is included in this section

An additional chapter demonstrates how a semi supervised machine learning technique can be used for cryptocurrency portfolio management The book is a timely reference for academicians professionals researchers and students at engineering and medical institutions working on artificial intelligence applications

**Knowledge-Based Intelligent Techniques in Character Recognition** Lakhmi C. Jain, Beatrice Lazzerini, 2020-12-17 Knowledge Based Intelligent Techniques in Character Recognition presents research results on intelligent character recognition techniques reflecting the tremendous worldwide interest in the applications of knowledge based techniques in this challenging field This resource will interest anyone involved in computer science computer engineering applied mathematics or related fields It will also be of use to researchers application engineers and students who wish to develop successful character recognition systems such as those used in reading addresses in a postal routing system or processing bank checks Features

*Image Analysis and Processing -- ICIAP 2009* Carlo Sansone, 2009-09-03 This book constitutes the refereed proceedings of the 15th International Conference on Image Analysis and Processing ICIAP 2009 held in Vietri sul Mare Italy in September 2009 The 107 revised full papers presented together with 3 invited papers were carefully reviewed and selected from 168 submissions The papers are organized in topical sections on computer graphics and image processing low and middle level processing 2D and 3D segmentation feature extraction and image analysis object detection and recognition video analysis and processing pattern analysis and classification learning graphs and trees applications shape analysis face analysis medical imaging and image analysis and pattern recognition

*Smart Data Intelligence* R. Asokan, Diego P. Ruiz, Zubair A. Baig, Selwyn Piramuthu, 2022-08-17 This book presents high quality research papers presented at 2nd International Conference on Smart Data Intelligence ICSMDI 2022 organized by Kongunadu College of Engineering and Technology at Trichy Tamil Nadu India during April 2022 This book brings out the new advances and research results in the fields of algorithmic design data analysis and implementation on various real time applications It discusses many emerging related fields like big data data science artificial intelligence machine learning and deep learning which have deployed a paradigm shift in various data driven approaches that tends to evolve new data driven research opportunities in various influential domains like social networks healthcare information and communication applications

Computation of Artificial Intelligence and Machine Learning Amit Kumar Bairwa, Varun Tiwari, Santosh Kumar Vishwakarma, Milan Tuba, Thittaporn Ganokratanaa, 2024-10-22 The two volume set CCIS 2184 2185 constitutes the refereed proceedings of the First International Conference on Computation of Artificial Intelligence and Machine Learning ICCAIML 2024 held in Jaipur India in January 18 19 2024 The 60 papers included in these volumes were carefully reviewed and selected from 645 submissions These papers focus on various subject areas within the field of Artificial Intelligence and Machine Learning such as Neural Networks and Deep Learning Natural Language Processing Computer Vision Reinforcement Learning Data Mining and Big Data Analytics AI in Healthcare and Biomedical Applications Autonomous Systems and Robotics AI Ethics and Fairness AI in Finance and Economics
