

WHAT IS COLONIZATION?

Colonization is the process of establishing political and economic control over a foreign land, often through the use of military force.

It involves the settlement of people from the colonizing country into the colonized territory, the exploitation of its resources, and the imposition of the colonizers' language, culture, and political system. **Colonization** has been a major force throughout world history and has led to the establishment of empires, the displacement of indigenous peoples, and the exploitation of natural resources. The effects of colonization can still be felt today, shaping the political, economic, and social systems of many countries around the world.
