Capital The Eruption Of Delhi:

Capital Rana Dasgupta, 2014-05-15 In *Capital* Commonwealth Prize winning author Rana Dasgupta examines one of the great trends of our time the expansion of the global elite *Capital* is an intimate portrait of the city of Delhi which bears witness to the extraordinary transmogrification of India's capital But it also offers a glimpse of what capitalism will become in the coming post Western world The story of Delhi is a parable for where we are all headed The boom following the opening up of India's economy plunged Delhi into a tumult of destruction and creation slums and markets were ripped down and shopping malls and apartment blocks erupted from the ruins Many fortunes were made and in the glassy stores nestled among the new highways customers paid for global luxury with bags of cash But the transformation was stern abrupt and fantastically unequal and it gave rise to strange and bewildering feelings The city brimmed with ambition and rage Violent crimes stole the headlines In the style of V S Naipaul's now classic personal journeys Dasgupta shows us this city through the eyes of its people With the lyricism and empathy of a novelist Dasgupta takes us through a series of encounters with billionaires and bureaucrats drug dealers and metal traders slum dwellers and psychoanalysts which plunge us into Delhi's intoxicating and sometimes terrifying story of capitalist transformation Together these people comprise a generation on the cusp like that of Gilded Age New York who they are and what they want says a tremendous amount about what the world will look like in the rest of the twenty first century Interweaving over a century of history with his personal journey Dasgupta presents us with the first literary portrait of one of the twenty first century's fastest growing megalopolises a dark and uncanny portrait that gives us insights too as to the nature of our own everyone's shared global future

Capital Rana Dasgupta, 2016-07-29 The boom following the opening up of India's economy in the early 1990s plunged Delhi the capital city into a tumult of destruction and creation slums and markets were bulldozed or burnt down and shopping malls and apartment blocks erupted from the ruins or upon agricultural land taken over in the interests of business and modernization Immense fortunes were made and in the glassy stores lining the new highways customers paid for global luxury with bags of cash Meanwhile hundreds of thousands of people from the rural hinterland streamed into the newly formed National Capital Region looking for work which they often found constructing cleaning or guarding the homes of the increasingly affluent middle class The transformation of the city was stern abrupt and unequal and it gave rise to new and bewildering feelings Delhi brimmed with ambition and rage In his first work of non fiction Rana Dasgupta shows us this new Delhi through the eyes of its people

Space, Planning and Everyday Contestations in Delhi Surajit Chakravarty, Rohit Negi, 2016-04-04 This insightful volume examines the politics and contestations around urban space in India's national capital Delhi Moving beyond spectacular megaprojects and sites of consumption this book engages with ordinary space and everyday life Sites and communities analysed in this volume reveal the processes relations and logics through which the city's grand plans are executed The contributors argue that urbanization is negotiated and muddled particularly in the spaces occupied by informal

labour resettled communities and small scale investors The critical analyses in this volume shed light on the disjunctures between planning and ideology narratives of growth and realities of immobility and facades of modernity and the spaces and practices produced in its pursuit The book is organized in four parts I Dis locating Bodies II Claims at the Urban Frontier III Informalization and Investment and IV Gendered Mobility The studies report current empirical work from a variety of sites investigating the dynamics of capital investment state planning and citizen response in these spaces These studies set in ordinary spaces in Delhi reveal a subliminal disarray of thought and action stemming from the impetus to make the city attractive to capital while having to manage marginality and reorganize welfare functions The volume provides fresh insights into the nature of urban planning and governance in an Indian megacity two decades after the neoliberal shift **Delhi:**
