Dulles Corridor Rapid Transit Project ,2004 *Trusted Source* David M. Poole,2025-08-26 How the Virginia Public Access Project revolutionized political transparency and won public trust In 1997 journalist David Poole launched a one employee nonprofit to shine light on a blind spot in Virginia s lax campaign finance system Over the next quarter century the Virginia Public Access Project VPAP assumed an increasingly larger role in state politics by addressing two crises in American democracy the decline of newspapers and the tribalization of politics VPAP built a sustainable business model that provided paywall free insights into state politics Most important VPAP adhered to a fiercely independent fact based approach that won the trust of Republicans and Democrats alike Trusted Source written by VPAP s founder tells the unlikely story of how his organization revolutionized political transparency in Virginia It describes the precarious early days when VPAP was financially dependent upon the same powerful interests it was shining a light on Reflecting on VPAP s first twenty five years Poole brings a unique perspective to some of the most vexing issues of our time money in politics the crisis of American newspapers the fracturing of information sources and the precipitous erosion of confidence in our institutions His account provides a blueprint for plucky nonprofits and offers hope that bipartisan trust is still possible even in times as troubled as ours

Ubering: the “Rideshare” Story Rafael Fermoselle,2019-12-22 There are a few creations that have become products because they became dominant in the market and synonymous with an entire product category Genericized names include Frigidaire which became synonymous with refrigerator Xerox which became synonymous with photocopying and Kleenex which became synonymous with tissues That has been the case with Uber which has become identical with rideshare Despite rapid growth since 2010 Uber has not become profitable is carrying a cumulative loss of over 15 billion as of November 2019 and it is doubtful if it will ever become profitable Despite becoming an eponym a key component of the gig economy and inspiring numerous copycats there is no guarantee that Uber will be able to generate an adequate return on investment and remain in business The concept has fatal flaws that impair its legal soundness In the end consumers and society determine if any business succeeds or fails Government regulations are largely non partisan and exist to protect society the general welfare and the free enterprise system Uber and the ride share concept may be plowed under by regulations that exist to protect the public interest However regulations sometimes backfire and cause unintended consequences
