*The Rulers of German Africa, 1884-1914* Lewis H. **Luzac's Oriental List and Book Review**, 1904 **Do Not Disturb** Michela Wrong, 2021-03-30 A powerful investigation into a grisly political murder and the authoritarian regime behind it Do Not Disturb upends the narrative that Rwanda sold the world after one of the deadliest genocides of the twentieth century We think we know the story of Africa's Great Lakes region Following the Rwandan genocide an idealistic group of young rebels overthrew the brutal regime in Kigali ushering in an era of peace and stability that made Rwanda the donor darling of the West winning comparisons with Switzerland and Singapore But the truth was considerably more sinister Vividly sourcing her story with direct testimony from key participants Wrong uses the story of the murder of Patrick Karegeya once Rwanda's head of external intelligence and a quicksilver operator of supple charm to paint the portrait of a modern African dictatorship created in the chilling likeness of Paul Kagame the president who sanctioned his former friend's assassination

**Societies in Transition** Martin Leiner, Maria Palme, Peggy Stoeckner, Benoît Bourguine, Francois Dermange, Dennis Doyle, Matthias Gockel, Makoto Mizutani, Arie Nadler, David Tombs, 2014-07-16 The second volume of the trans disciplinary series Research in Peace and Reconciliation looks at ways of dealing with the past in Sub Saharan Africa in recent decades and highlights the variety of peaceful strategies and processes It asks to what extent this variety fosters the development of alternative methods for the transformation of violent conflict The contributions focus on different African countries and regions as Chad Nigeria Rwanda Uganda Namibia Zimbabwe and South Africa They take into account the influence of particular cultural contexts on processes of reconciliation In doing so they emphasize the importance of religions rites and tribal customs as well as the

complex legacy of colonialism They also look at the presentation of the topic in Western media Many thanks go to the Ernst Abbe Foundation Jena for its generous support of the publication

**Violent Intermediaries** Michelle R. Moyd, 2014-07-01

The askari African soldiers recruited in the 1890s to fill the ranks of the German East African colonial army occupy a unique space at the intersection of East African history German colonial history and military history Lauded by Germans for their loyalty during the East Africa campaign of World War I but reviled by Tanzanians for the violence they committed during the making of the colonial state between 1890 and 1918 the askari have been poorly understood as historical agents Violent Intermediaries situates them in their everyday household community military and constabulary roles as men who helped make colonialism in German East Africa By linking microhistories with wider nineteenth century African historical processes Michelle Moyd shows how as soldiers and colonial intermediaries the askari built the colonial state while simultaneously carving out paths to respectability becoming men of influence within their local contexts Through its focus on the making of empire from the ground up Violent Intermediaries offers a fresh perspective on African colonial troops as state making agents and critiques the mythologies surrounding the askari by focusing on the nature of colonial violence

**Historical Dictionary of Rwanda** Aimable Twagilimana, 2015-11-06

Blessed with natural beauty and rich vegetation Rwanda is often called the land of a thousand hills le pays des mille collines a reference to its many lush and green rolling hills Moreover for many Rwandans at least in the past Rwanda in spite of its small size is vast in fact it means the universe This idyllic view however sharply contrasts with the sad history of ethnic strife that unfolded since the 1950s the 1959 Hutu Revolution followed by years of anti Tutsi pogroms undemocratic regimes the civil war of 1990 1994 and more significantly the April July 1994 genocide against the Tutsi and the killing of Hutu who opposed the killings The 1994 genocide against the Tutsi remains the most defining single event in contemporary Rwanda and many people in the world today know of this central African nation from the prism of extreme mass violence that sullied the end of the 20th century amid international indifference and has since haunted the world s conscience This second edition of Historical Dictionary of Rwanda contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Rwanda

**A History of Rwandan Identity and Trauma** Randall Fegley, 2016-03-18

Few societies have faced the difficulties of identity building experienced by Rwanda This book s introduction reviews literature on the concepts of myth and trauma and then introduces basic information on Rwanda and how it has been viewed by the outside world Chapter One describes early Rwanda s political and cultural development traditional narratives group migrations the effects of German and later Belgian colonialism and the introduction of Christianity It concludes with a look at how this early history has been interpreted and reinterpreted The second chapter discusses the end of Tutsi dominance and the 1959 Hutu Revolution It details Hutu Power ideology Belgian domestic politics

early acts of genocide refugee movements and economic and political stagnation The text documents the development of the Rwandan Patriotic Front its 1990 invasion and the Arusha peace process An account of the 1994 genocide follows However as this has been covered in numerous other works descriptions are limited to key events and general patterns The chapter ends with a review of films books and other publications that brought Rwanda's plight to a worldwide audience but that also created new myths Chapter Three examines the country's post genocide reconstruction and attempts to bring justice and reconciliation through the International Criminal Tribunal for Rwanda in Tanzania and gacaca courts domestically Rwanda's impressive record of economic progress over the last two decades is detailed However prospects for democracy have diminished as its leaders have become increasingly sensitive to criticism and fearful of renewed divisions Descriptions of the process of developing school curriculums to explain past atrocities the new myths it created and their possible consequences comprise most of Chapter Four The final chapter offers conclusions on the effects of past mythologies and the trauma they have wrought It draws comparisons with other divided societies and their approaches to dealing with the past These include Burundi Ethiopia South Africa the United States Taiwan Canada Belgium Switzerland and Singapore An extensive bibliography of books theses conference papers official documents articles periodicals journals films websites other media and interviews includes translations of titles in Kinyarwanda French Dutch and German

*The Rwanda Crisis* Gérard Prunier, 1997 In the spring of 1994 the tiny African nation of Rwanda exploded onto the international media stage as internal strife reached genocidal proportions But the horror that unfolded before our eyes had been building steadily for years before it captured the attention of the world In *The Rwanda Crisis* journalist and Africa scholar Gérard Prunier provides a historical perspective that Western readers need to understand how and why the brutal massacres of 800 000 Rwandese came to pass Prunier shows how the events in Rwanda were part of a deadly logic a plan that served central political and economic interests rather than a result of ancient tribal hatreds a notion often invoked by the media to dramatize the fighting *The Rwanda Crisis* makes great strides in dispelling the

racist cultural myths surrounding the people of Rwanda views propagated by European colonialists in the nineteenth century and carved into history by Western influence Prunier demonstrates how the struggle for cultural dominance and subjugation among the Hutu and Tutsi the central players in the recent massacres was exploited by racially obsessed Europeans He shows how Western colonialists helped to construct a Tutsi identity as a superior racial type because of their distinctly non Negro features in order to facilitate greater control over the Rwandese Expertly leading readers on a journey through the troubled history of the country and its surroundings Prunier moves from the pre colonial Kingdom of Rwanda through German and Belgian colonial regimes to the 1973 coup The book chronicles the developing refugee crisis in Rwanda and neighboring Uganda in the 1970s and 1980s and offers the most comprehensive account available of the manipulations of popular sentiment that led to the genocide and the events that have followed In the aftermath of this devastating tragedy The Rwanda Crisis is the first clear eyed analysis available to American readers From the massacres to the subsequent cholera epidemic and emerging refugee crisis Prunier details the horrifying events of recent years and considers prospects for the future of Rwanda
