Bebbington, 2004 In studying the relationship between Canada and its trading partners students in Grade 6 identify the United States as Canada s major trading partner They investigate how the United States affects Canada through trade media immigration culture technology tourism history and geography They also describe Canada s connections to at least one other trading partner through an in depth investigation of a country from one of the following regions Europe Pacific Rim Central America or South America **Canada, the Pacific and Global Trade** Institute for Research on Public Policy, 1989 This volume reports the proceedings of the Institute conference which examines Canada s stake in expanding economic ties across the Pacific The main conclusion emerging from the conference is that recent proposals for Pacific economic cooperation are widely perceived as motivated by desires for a new trade bloc Instead however the current focus of Pacific economic cooperation is directed toward promoting progress in the Uruguay Round of GATT negotiations In light of common concerns about unilateral trade actions by the U S and the European Community strengthening the multilateral trading system is a key priority shared by Canada and other Pacific economies Canada Among Nations, 1993-94 Fen Osler Hampson, Christopher J. Maule, 1993-05-15 This year s volume of Canada Among Nations addresses the following key issues Canada s role in international peacekeeping The aftermath of the United Nations Conference on the Environment and Sustainable Development Canada and the Pacific International migration and refugees International security Canada and the Arctic The consequences of the defeat of the Charlottetown Accord for Canada s foreign and international economic relations The future of NAFTA with a new Democratic president in the White House Contributors include Andrew Cohen on international security and NATO Michael Hart on trade policy Albert Legault on peacekeeping and the United Nations Geoffrey Pearson and Nancy Gordon on the demise of the advisory councils David Runnalls on the Rio Conference Clyde Sanger on environment and development Michael Shenstone on immigration and refugee policy **The Economic Role of International Trade in Canada's Future** Caroline Mutuku, 2018-07-18 Document from the year 2018 in the subject Economics Foreign Trade Theory Trade Policy grade 1 language English abstract In the past decade the Canadian economy experienced stagnation owing to the existence of unfavorable economic trends in the regional and global economy It is argued that Canadian economy slipped into a recession because of the challenges faced in building its competitiveness in the

international trade network For instance Canada has been relying on regional trade especially with the United States which accounts for the highest portion of international exports and this aspect is linked to the crippling of the Canadian economy Therefore internationalization of trade activities appears to be one of the most reliable approaches for aligning the country's economy with the 21st century global economy This approach will enable the country to increase its export levels which will in turn increase the Gross Domestic Product of Canada This is probably why Laurin 2013 remarks There is a growing perception that Canadian businesses need to turn their attention to overseas markets and shift their business strategies to adapt a new global environment As such the current approach by Canadian premiers to establish trade agreements with international trade partners seem to be an amicable answer to economic tantrums in the Canadian economy The new approach bears significant economic roles in the Canadian economic prospects in the future According to the Council of the Federation it is apparent that strengthening Canada's trade and investment linkages with the global economy will mean addressing challenges and taking advantage of new opportunities This aspect is reaffirmed by Passaris 2013 who observes International trade is both the heartbeat and the lifeblood of the Canadian economy In fact international trade has empowered Canada to side step economic theory Therefore this paper will give an overview on the economic role of international trade in Canada's future
