*Stretching the Federation* Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 1999 There are strong movements in Canada to decentralize the design and delivery of many programs and to clarify federal and provincial responsibilities. This book presents contributions from practitioners and observers of this trend.

Rethinking Subnational Taxes Mr. Richard Miller Bird, 1999-12-01 The assignment of revenues in most developing and transitional countries to the central government has arguably facilitated irresponsible behavior by some subnational governments. One way to relieve this problem is to strengthen subnational tax regimes. The paper proposes two approaches to accomplish such strengthening in developing countries. The first most applicable to large countries with important regional governments is to establish subnational value added taxes VATs the second is to replace the various unsatisfactory state and local taxes imposed on business by a low rate value added tax levied on the basis of income production origin rather than consumption destination.

**Toward a New Mission Statement for Canadian Fiscal Federalism** Harvey Lazar, 2000 Canada State of the Federation 1999-2000 identifies and explains major

threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization

Hueglin,2021 Federalism in Canada tells the turbulent story of shared sovereignty and divided governance from Confederation to the present time It does so with three main objectives in mind The first objective is to convince readers that federalism is the primary animating force in Canadian politics and that it is therefore worth engaging with its complex nature and dynamic The second objective is to bring into closer focus the contested concepts about the meaning and operation of federalism that all along have been at the root of the divide between English Canada and Quebec in particular The third objective is to give recognition to the trajectory of Canada s Indigenous peoples in the context of Canadian federalism from years of abusive neglect to belated efforts of inclusion The book focuses on the constitution with its ambiguous allocation of divided powers the pivotal role of the courts in balancing these powers and the political leaders whose interactions oscillate between intergovernmental conflict and cooperation This focus on executive leadership and judicial supervision is framed by considerations of Canada s regionalized political economy and cultural diversity giving students an interesting and nuanced view of federalism in Canada
