Harnessing the Bohemian Peter Skippington, 2016-12-13 **Harnessing the Bohemian** takes a fresh and interdisciplinary perspective on the intractable problem of shrinking populations and resources in remote rural communities. It challenges the conventional wisdom of community development theories and practices and envisages more central roles for the creative disciplines in revitalising futures planning. It argues that the evolution of technologies, the emergence of creative economies, the increasing demand for creative products and the emergence of new creative talent are continually changing community expectations and opportunities. Consequentially, fresh arguments and new ideas must be developed to stimulate more creative and innovative approaches to community development. Recognising that creativity and innovation exist across all community sectors, this book proposes practical new approaches that harness the creative capital of all community stakeholders

eBook: New Products Management 11e CRAWFORD, 2014-09-16 **eBook New Products Management 11e**

EBOOK: E-Learning Groups and Communities David McConnell, 2006-03-16 How can we design networked e learning courses to ensure students participate in them and engage in quality learning outcomes? What happens in an e learning course that is designed to foster group work and a sense of community? How can we research e learning practice in ways that will enhance the processes of learning and teaching? This book outlines approaches to networked e learning course design that are underpinned by a belief that students learn best in these contexts when they are organised in groups and communities. As such, the book is one of the first to provide a detailed analysis of what goes on in e learning groups and communities. But how do students react to working in e learning groups and communities? What determines their willingness to adopt new forms of learning in order to participate in these new courses? What actually happens in an e learning community and what impact does this have on students and tutors? This book examines these key questions through a variety of research approaches aimed at exploring the experience of e learners as they participate in successful e groups and communities. It also offers ways in which learning outcomes may be achieved in these communities and outlines the specific skills that students would develop through e learning. **E learning Groups and Communities** is essential reading for teachers, trainers, managers, researchers and students involved in e learning courses as well as people interested in improving the quality of the learning experience

Service Learning, Educational Innovation and Social Transformation

Bibiana Regueiro, Robert G. Bringle, Miguel A. Santos-Rego, 2022-02-15

Applications of Service Learning in Higher Education Watson, Sandy White, 2024-03-22 In higher education, a pressing issue has emerged: how to authentically connect academic pursuits with real world challenges. The last decade has witnessed an escalating call for heightened interaction between universities and the real world. Demands have grown for higher education institutions to instill democratic citizenship and address students' moral development. In response to this rise in demand, there has been a notable shift toward emphasizing service learning within academia. As educators grapple with the imperative to seamlessly integrate theory and

practice Applications of Service Learning in Higher Education steps into the forefront delving into the myriad applications of service learning to effectively address this critical issue Applications of Service Learning in Higher Education examines the complexities surrounding service learning in higher education At its core the book aims to showcase concrete examples of successful service learning applications acting as a catalyst for the integration of this transformative pedagogy into the academic fabric Beyond the surface the book delves into the intricate planning execution and assessment stages of service learning projects whether manifested within local communities or on an international scale It seeks to fill notable knowledge gaps particularly in less explored regions like Latin America and the Caribbean and underscores the significance of multidisciplinary experiences As the narrative unfolds the book addresses the symbiotic relationship between service learning and students programs of study transforming communities into vibrant classrooms where learning transcends traditional boundaries

EBOOK: Enhancing Learning, Teaching, Assessment and Curriculum in Higher Education

Veronica Bamber,Paul Trowler,Murray Saunders,Peter Knight,2009-03-16 Higher education is a particularly complex site for enhancement initiatives This book offers those involved in change a coherent conceptual overview of enhancement approaches of the change context and of the probable interactions between them The book sets enhancement within a particular type of change dynamic which focuses on social practices The aim is to base innovation and change on the probabilities of desired outcomes materializing rather than on the romanticism of policies that underestimate the sheer difficulty of making a difference Following a theoretical introduction to these ideas there are case studies from the UK Australia New Zealand South Africa and Norway at the national institutional departmental and individual levels illustrating the argument that enhancement is best achieved when it works with social practices in real institutional and organizational settings In a final section the authors link the case examples and theoretical frameworks inviting readers to consider their own enhancement situations and apply the frameworks for action offered in earlier sections of the book The book doesn't offer quick fix solutions but aims to support change with practical examples conceptual tools and reflexive questions for those involved in change at all levels It is key reading for higher education lecturers managers educational developers and policy makers
