Robot Investigator Vincent Stall, 2002 **A Murder in 2079** Mehmet Ali Yazan, 2021-03-11 A robotic murderer A planet in chaos And the one detective to uncover the truth behind it all In 2079 humanity has spread through space and with them they bring robots All regulated All overseen All in strict compliance with UN standards and the three robotic laws of Isaac Asimov The first law of robotics is clear A robot may not injure a human being or through inaction allow a human being to come to harm Everyone knows it s impossible but when senior detective Harry Mortimer is sent to Icarus B it s to seek the impossible Has a rogue artificial intelligence discovered a loophole Is a human playing puppet master Are these the right questions With only his wits Mortimer his assistant Scott Yvensen and an increasingly bogged down police department must find answers all while under assault by mysterious assassins and threats against humankind itself As the mystery begins to unravel Mortimer faces a new enemy who carries him on a chase across the stars and a strange new threat But this is only the beginning **Murder by Elf and Robot** Greg Kerr, 2016-12-08 A security guard on the graveyard shift took an elevator down into the cavernous chambers below a massive theme park complex What s going on down here the guard called out when he saw someone lurking in the shadows A short man unshaven rough looking who had a pointy green cap on his head And then the bullets flew The next morning reporters and TV news crews converged on the rural NY town after the guard s dead body had been found near the entrance to the mega mall theme park resort The press conference went live across the country on the 24 7 cable news networks Our private eye took a seat with the reporters He looked around at the TV cameras and shook his head These media people thought it was an everyday crime But he knew it was much bigger How big He couldn t guess A murder mystery And a thriller A small child stumbled over the body Excerpt Reprinted by permission All rights reserved There he is the little 4 year old girl pointed Across the atrium the theme park s Santa Claus was sitting down on a big golden throne surrounded by eight helpers Some were elves dressed mostly in green and others were just Santa s regular North Pole assistants dressed in red velvet outfits with white furry fringes Soft Christmas melodies were wafting through the air The little girl broke away from her mother s hand and dashed towards the Santa outpost But as she veered around the Christmas tree a beautifully decorated 30 foot high pine tree she tripped over something sticking out from under its branches Stop running the mother shouted The little girl picked herself up dusted herself off and replied I m okay mommy She turned around to see what she had tripped over And screamed It was a high pitched bloodcurdling shriek that rang out through the building echoing through the rafters like someone falling over a cliff Loud enough so that everyone within a hundred yards spun around to see what was happening The little girl was standing next to the dead body of Frank Bollard the night security guard Nothing is scarier than the gentle psychopaths living amongst us Note This book ships fast The current cover art is the jazzy green laserium style sunrise as shown on this web page NOT last December s Christmas tree one that pops up when you click the Look inside feature From the author of Hollywood Intern Love Lust and Laughs in the Film
