**Towards a General Theory of Deep Downturns** Joseph E. Stiglitz, 2015 This paper an extension of the Presidential Address to the International Economic Association evaluates alternative strands of macro economics in terms of the three basic questions posed by deep downturns What is the source of large perturbations How can we explain the magnitude of volatility How do we explain persistence The paper argues that while real business cycles and New Keynesian theories with nominal rigidities may help explain certain historical episodes alternative strands of New Keynesian economics focusing on financial market imperfections credit and real rigidities provides a more convincing interpretation of deep downturns such as the Great Depression and the Great Recession giving a more plausible explanation of the origins of downturns their depth and duration Since excessive credit expansions have preceded many deep downturns particularly important is an understanding of finance the credit creation process and banking which in a modern economy are markedly different from the way envisioned in more traditional models

**Bulletin of the Atomic Scientists**, 1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

**Towards a General Theory of Deep Downturns** Joseph E. Stiglitz, 2016-01-26 Joseph Stiglitz examines the theory behind the economic downturns that have plagued our world in recent times This fascinating three part lecture acknowledges the failure of economic models to successfully predict the 2008 crisis and explores alternative models which if adopted could potentially restore a stable and prosperous economy
