Consumerism in Medicine Marie R. Haug, Bebe Lavin, Doctors have long been regarded as figures of power by their patients The doctor who possesses mysterious and specialized skills is in a position of authority over the patient an authority which is legitimized

by the state through its restrictions on who can practise medicine This book charts the rise of the consumerist movement in medicine The movement is a challenge to the traditional doctor patient role in that it questions the authority of the doctor to dispense cures and the duty of patients to accept those cures without question The consumerist movement sees that there is a bargain being struck between patient and doctor and that it is the right of the patient as buyer to question the claims of the doctor as seller The authors attempt to gauge the size and strength of this movement through a national survey of health care consumers and of physicians The causes and manifestations of the consumerist movement are reviewed as are the reactions of doctors to it and its effect on the overall utilization of health care facilities The book will be of immense value to those interested in changes in health care and to professionals and administrators in health care services

Curing Consumers: How the Patient Became a Consumer in Modern American Medicine Nancy Stark Lee, 2007 This dissertation addresses the widespread practice of calling the patient a consumer in contemporary discourses about health and medicine in the United States Despite its common usage little is known of the historical origins of this construct how it entered popular discourse and the symbolic and social significance of conceptualizing the patient as a consumer to current health care debates Through historical research that spans the years 1930 to 2006 this study traces the patient consumer metaphor to the patients rights movement of the 1960s Ideas about patient empowerment and rights emerged only after that decade s social and cultural transformations reduced the public s trust in traditionally authoritative and paternalistic institutions such as medicine Calling the patient a consumer was a rhetorical tactic first popularized by the 1960s social movements involved in expanding patients rights including the consumer movement led by Ralph Nader This periodization is supported by findings from a historical textual analysis of mainstream magazine articles on health and medicine from 1930 to 1969 that indicate the patient as an empowered health care consumer was not part of normative expectations of patienthood before the 1960s Textual analysis of self help literature magazine and newspaper articles since the 1970s show how the patient consumer metaphor s connotations of empowerment and personal autonomy in health decisions were co opted and reduced to simple messages about consumer sovereignty by the 1980s as the US health care sector became increasingly corporatized under successive neoliberalist administrations This dissertation s findings contributes to a more nuanced historically based understanding of the ramifications of patient consumerism to better enable and support critiques of the American health care system

Medicine for Consumers (Preliminary Edition) Gregory Billy, 2017-12-31

Patient No Longer: How YOU Can Lead the Consumer Revolution in Healthcare, Second Edition Ryan Donohue, Stephen K.

Klasko,2025-03-28 Patient No Longer delves into the next phase of healthcare's evolution: consumer-centric care. The authors challenge the status quo and explore how we can build a truly consumer-driven healthcare system, one that is data-informed, compassionate, and ultimately meaningful for patients by answering a critical question: What can we do now to transform our healthcare model into one that puts consumers at the center of the experience? Drawing on new research and real-world case studies, the book analyzes long-term effects of COVID-19 on healthcare, revealing how the pandemic accelerated the shift toward patient-centered care. The book offers a fresh look at the progress and the work yet to be done in achieving a system in which providers partner with patients to create healthier communities. This extensively revised edition features new content throughout, including information regarding potential for artificial intelligence (AI) to transform healthcare, ideas for improving patient experience to remove barriers to care, and actionable insights and a forward-thinking framework that equips organizations to deliver the compassionate, human-centered care patients deserve. *Consumerism in Medicine*

Marie R. Haug, Bebe Lavin, 1983-12-01 The consumerist movement in medicine is challenging the traditional doctor-patient role. Doctors are no longer seen as all-powerful dispensers of good health but as partners in a bargain for which the buyer has the right to question the seller. The authors describe the history and manifestations of the movement and gauge its effect through a national survey of consumers and physicians. *The Customer Revolution in Healthcare: Delivering Kinder, Smarter, Affordable Care for All*

David W. Johnson, 2019-09-02 Customer-centric, market-driven solutions for fixing America's broken healthcare system from one of the industry's most innovative thought leaders. Healthcare accounts for nearly a fifth of the U.S. economy. Everyone agrees that the current system is broken and in desperate need of repair. It should cost less, tackle chronic disease, and promote health. It requires a massive shift in resources from acute services to better care management, behavioral health, and primary care services. The question isn't what to do; it's how to do it. The revolution starts by meeting and supporting consumers' real health needs. It's time for American healthcare to serve the people. This is The Customer Revolution in Healthcare. Written by leading healthcare strategist and commentator David W. Johnson, this groundbreaking book is more than a wake-up call; it's a point-by-point action plan to blow up the Healthcare Industrial Complex, liberate data, and empower consumers with technology. Promote agile, innovative, and customer-centric platform companies. Reduce costs, improve service, and generate superior outcomes. Deliver personalized care with precision and compassion. Explain and address America's self-created opioid crisis. Provide affordable and accessible health insurance for all. Turbocharge the U.S. economy. Foster healthier communities. Revolutionary healthcare empowers patients and providers alike. Competitive healthcare companies reconfigure inefficient business models to deliver appropriate, accessible, holistic, and reliable care at lower costs. Caregivers engage patients with insight and compassion informed by real-time data and analytics. Payers reward health companies that deliver great outcomes and great service at competitive prices while keeping members as healthy as possible. Investors fund innovative companies whose products and services delight customers. And consumers receive
