Ebook Uniformity Customs Administration European Studies:

Uniformity of Customs Administration in the European Union Kathrin Limbach, 2015-11-19 Uniform customs administration is of great importance for the EU and the competitiveness of EU businesses in global trade. However, the EU's so-called executive federalism raises the potential for the non-uniform application of EU customs law. This problem has already arisen in the European Communities Selected Customs Matters WTO dispute settlement. Therefore, the central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO. It also examines those safeguard measures for uniform customs administration which are in operation. Valuable empirical analysis of the decision-making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration. An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union's strategies to enhance uniform customs administration. That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved. Scholarly rigorous and timely, this important study will be required reading for all scholars of EU customs law.

Intercultural Conflict and Harmony in the Central European Borderlands Mihai I. Spărișu, 2017-05-15 This crossdisciplinary collection of essays combines qualitative and quantitative approaches to re-examine the most influential contemporary theories of intercultural relations and their application in various domains including historiography, sociology, and cultural studies. A particular focus lies on Central Europe, historical Banat and Transylvania, but also on the current public policies toward ethnic and religious minorities as well as recent immigrants. It argues that much more complex approaches are needed, both historically and conceptually, in exploring intercultural relations. Thus, the political decision-making in East Central European countries and the European Union as a whole could benefit from a well-informed historical perspective by learning from the successes and errors of their predecessors.

Customs Sanctions Harmonization in Europe : why the Commission is Taking the Wrong Approach A.R. Willems, 2016 Uniform customs administration remains difficult in the European Union. EU Since 1979 the European Commission has been trying to reduce variability and uncertainty. Most recently the Commission introduced a proposed Directive defining customs infringements and sanctions. Unfortunately, the proposed Directive seeks too much convergence too soon. It would lead to more infringements and sanctions while imposing unfair or unclear standards and procedures in determining liability, calculating fines, classifying infringements, and sentencing. A recent draft report from the European Parliament addresses only some of these concerns. The Commission would do better to seek gradual approximation of customs administration rather than aggressive harmonization.
