**Fictive Orders and Feminine Religious Identities, 1200-1600** Alison More, 2018-03-01 Any visitor to Belgium or the Netherlands is immediately struck by the number of convents and beguinages begun in both major cities and small towns Their number and location in urban centres suggests that the women who inhabited them once held a prominent role Despite leaving a visible mark on cities in Europe much of the story of these women known variously as beguines tertiaries klopjes recluses and anchoresses remains to be told Instead of aspiring to live as traditional religious they transcended normative assumptions about religion and gender and had a very real impact on their religious and secular worlds The sources for their tale are often fragmentary and difficult to interpret However careful scrutiny allows their voices to be heard Drawing on an array of sources including religious rules sermons hagiographic vitae and raparia *Fictive Orders and Feminine Religious Identities* traces the story of pious laywomen between the thirteenth and sixteenth centuries It both emphasizes the innovative roles of women who transcended established forms of institutional religious life and reveals the ways in which historiographical habits have obscured the dynamic and fluid nature of their histories By highlighting the development of irregular and extraregular communities and tracing the threads of monasticisation that wove their way around pious laywomen this book draws attention to the vibrant and dynamic culture of feminine lay piety that persisted from the later middle ages onwards

**Social Catholicism for the Twenty-First Century?--Volume 1** William F. Murphy, 2024-09-12 This first of two volumes introduces the tradition of social Catholicism not only in its earlier realizations but regarding how a contemporary renewal might address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo-fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional

democracy quickly arises In this context some of the most influential voices among American Catholics are focused on criticizing liberal democracy on advocating a postliberal order and the establishment of a Catholic integralist state or on insisting that abortion should be the primary sociopolitical concern for Catholics treating these threats to democracy as largely irrelevant This volume shows the rich tradition of social Catholicism and how the Social Doctrine of the Church came to appreciate the key tenets of constitutional democracy As Pope Benedict XVI wrote this social doctrine leads us to take a stand for the common good to take the institutional or political path of charity to be solicitous for the institutions that give structure to the life of society juridically civilly politically and culturally It engages some of the most influential contemporary Catholic thinkers and argues that they too should recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy

**Beyond Our Lights and Shadows** Judith A. Merkle, 2016-07-14 Do not neglect the gift that is in you which was given to you through prophecy with the laying of hands by the council of elders 1Tim 4 14 Members of the church today can comprehend Paul's sentiment to Timothy While not all ordained all baptized Christians have experienced the laying on of hands in baptism They have been touched by that mysterious mix of charism initiated into the Body of Christ through the Holy Spirit as well as launched into life with Christ through the institution of the Church with all its concreteness ambiguity sinfulness and goodness Through the lens of Christian theology along with the sociology of Max Weber in his study of charism and institution in modern society Judith A Merkle analyzes the interaction and tautness between the concept of powerful grace through baptism and the institution in the life of the modern church Weber asserts that freedom and creativity in modern society only become manifest within social relations Since these highly valued modern experiences do
