

ECERS-3

ACCESSIBILITY

"Accessible" means that materials, equipment, and furniture are within children's reach and children can use them. This is commonly known as "free play."

Have more questions about accessibility? Check page 10 of ECERS-3 for more information.

NO BARRIERS

Children shouldn't have any barriers when trying to access materials. Teachers can be barriers if they prevent children from using materials. Examples of common barriers to accessing materials:

- Centers are "closed"
- Materials are in bins with lids children can't open or stored up high where children can't reach
- Children have to ask permission to use materials
- Children are in group activities where they are required to participate (circle time, whole group art or music activities, etc.)
- Centers/materials are pre-selected for children

ALL CHILDREN MUST HAVE ACCESS

During the observation, time counted toward accessibility starts when all children have reasonable access. For an observation, free play should take place during a time of day when all of the children are present (not very early morning or late afternoon.) Time is only counted toward accessibility when the last child starts free play.

1 HOUR REQUIRED

For a program that is open for three hours or more, one hour of accessibility is required during an ECERS-3 observation. It does not have to all take place in one continuous block. Accessibility is pre-rated for programs that are open fewer than three hours.

TIP

Time your own accessibility! Start a timer when every child has free access to materials and stop as soon as free play ends (typically when clean up begins). Do this daily to make sure you are regularly offering one hour of free play. You can also do this during an ECERS-3 observation.
