

Echtscheiding Een Regenboog Van Ervaringen

C. J. Weeda

Echtscheiding Een Regenboog Van Ervaringen:

Biological Rhythms Vinod Kumar, 2002-05-01 Chapters 11 to 14 summarise important features of the biological clock at the level of whole animal covering all vertebrate classes fish to mammal Chapters 15 and 16 are on long term seasonal rhythms in plants and higher vertebrates Short term rhythms ultradian rhythms the significance of having a clock system in animals living in extreme arctic environments and the diversity of circadian responses to melatonin the key endocrine element involved in regulation of biological rhythms have been discussed in Chapters 17 to 19 Finally a chapter on sensitivity to light of the photoperiodic clock is added which using vertebrate examples illustrates the importance of wavelength and intensity of light on circadian and non circadian functions A well known expert writes each chapter When presenting information the text provides consistent thematic coverage and feeling for the methods of investigation Reference citation within the body of the text adequately reflects the literature as subject is developed A chapter begins with an abstract that enables a reader to know at the first glance the important points covered in that chapter The chapter concludes with a full citation of references included in the text which could be useful for further reading The book ends with a comprehensive subject index that may be useful for quick searches

Marginalization Misunderstood Cees Leeuwis, 1989

Cohabitation, an alternative to marriage? G.E. Wiersma, 2012-12-06 1 BACKGROUND In the last ten years there has been much popular discussion and also a great scholarly interest in the so called alternative lifestyles 1 Especially since the late 1960s a diversity of lifestyles other than the nuclear family began to emerge according to demographic changes in household compositions during the past decade US Bureau of Census 1979 Centraal Bureau voor de Statistiek 1930 One lifestyle non marital cohabitation has increased most dramatically during the last ten years and is the subject of this study The term cohabitation will be used exclusively throughout the remainder of this study to refer to heterosexual couples who are living together without being married legally Despite its recent rapid increase one should not overlook the fact that cohabitation in comparison with legal marriage remains an alternative practiced by a minority of the couples at any point in time For the Netherlands it is estimated that 7 percent of all couples are living together unmarried and 93 percent are married Straver 1981 This cohabitation rate is about twice as low when compared to rates in countries like Sweden and Denmark where they are 16 percent the highest rate in Europe and 13 percent Trost 1979 but still about twice as high when compared to the 3 percent estimate for the United States Macklin 1980

Socioeconomic Causes and Consequences of Divorce Anne-Rigt Poortman, 2002 The present study examines the socioeconomic causes and consequences of divorce in the Netherlands during the second half of the twentieth century Are women with a better labour market position at a higher risk of divorce and are men who are unemployed or have an unstable career more likely to divorce The study also seeks to explain the influence of spouses socioeconomic positions on divorce In addition it takes into account the changes surrounding women's work and the changing sex roles Met een Nederlandse samenvatting

 Lawrence,2018-12-19 In De regenboog volgen we drie generaties van de Engelse familie Brangwen van halverwege de
 negentiende tot het begin van de twintigste eeuw In deze periode zien we de familie veranderen van een klassiek
 boerengezin tot een moderne familie met dochters die gaan studeren en op vele fronten een grotere vrijheid genieten De
 regenboog was in de tijd dat het verscheen erg omstreden vanwege de liberale omgang met het thema seksualiteit Lawrence
 schrijft openhartig over lust en beschrijft zelfs een lesbische romance Hierdoor was het boek in Engeland geruime tijd
 verboden Lawrence schreef later nog een vervolg op De Regenboog getiteld Women in Love D H Lawrence 1885 1930 was
 een Britse romanschrijver die erom bekend stond controversiële onderwerpen in zijn romans niet uit de weg te gaan Om die
 reden werd zijn werk met regelmaat verboden Zijn bekendste werk Lady Chatterley's lover is in die zin geen uitzondering
 Vanwege zijn liberale opvattingen over erotiek en seksualiteit werd het werk van Lawrence pas lang na zijn dood op waarde
 geschat
