Chon,Friedrich Recknagel,2009-01-30 The book gives a comprehensive overview of all available types of ecological models It is the first book of its kind that gives an overview of different model types and will be of interest to all those involved in ecological and environmental modelling and ecological informatics *Ecological Informatics* Friedrich Recknagel,William K. Michener,2017-09-21 This book introduces readers to ecological informatics as an emerging discipline that takes into account the data intensive nature of ecology the valuable information to be found in ecological data and the need to communicate results and inform decisions including those related to research conservation and resource management At its core ecological informatics combines developments in information technology and ecological theory with applications that facilitate ecological research and the dissemination of results to scientists and the public Its conceptual framework links ecological entities genomes organisms populations communities ecosystems landscapes with data management analysis and synthesis and communicates new findings to inform decisions by following the course of a loop In comparison to the 2nd edition published in 2006 the 3rd edition of Ecological Informatics has been completely restructured on the basis of the generic conceptual f ramework provided in Figure 1 It reflects the significant advances in data management analysis and synthesis that have been made over the past 10 years including new remote and in situ sensing techniques the emergence of ecological and environmental observatories novel evolutionary computations for knowledge discovery and forecasting and new approaches to communicating results and informing decisions **Encyclopedia of Ecology** Brian D. Fath,2014-11-03 The groundbreaking Encyclopedia of Ecology provides an authoritative and comprehensive coverage of the complete field of ecology from general to applied It includes over 500 detailed entries structured to provide the user with complete coverage of the core knowledge accessed as intuitively as possible and heavily cross referenced Written by an international team of leading experts this revolutionary encyclopedia will serve as a one stop shop to concise stand alone articles to be used as a point of entry for undergraduate students or as a tool for active researchers looking for the latest information in the field Entries cover a range of topics including Behavioral Ecology Ecological Processes Ecological Modeling Ecological Engineering Ecological Indicators Ecological Informatics Ecosystems Ecotoxicology Evolutionary Ecology General Ecology Global Ecology Human Ecology System Ecology The first reference work to cover all aspects of ecology from basic to applied Over 500 concise stand alone articles are written by prominent

leaders in the field Article text is supported by full color photos drawings tables and other visual material Fully indexed and cross referenced with detailed references for further study Writing level is suited to both the expert and non expert Available electronically on ScienceDirect shortly upon publication   Fuzzy Logic and Mathematics Radim Belohlavek,Joseph W. Dauben,George J. Klir,2017-05-03 The term fuzzy logic as it is understood in this book stands for all aspects of representing and manipulating knowledge based on the rejection of the most fundamental principle of classical logic the principle of bivalence According to this principle each declarative sentence is required to be either true or false In fuzzy logic these classical truth values are not abandoned However additional intermediate truth values between true and false are allowed which are interpreted as degrees of truth This opens a new way of thinking thinking in terms of degrees rather than absolutes For example it leads to the definition of a new kind of sets referred to as fuzzy sets in which membership is a matter of degree The book examines the genesis and development of fuzzy logic It surveys the prehistory of fuzzy logic and inspects circumstances that eventually lead to the emergence of fuzzy logic The book explores in detail the development of propositional predicate and other calculi that admit degrees of truth which are known as fuzzy logic in the narrow sense Fuzzy logic in the broad sense whose primary aim is to utilize degrees of truth for emulating common sense human reasoning in natural language is scrutinized as well The book also examines principles for developing mathematics based on fuzzy logic and provides overviews of areas in which this has been done most effectively It also presents a detailed survey of established and prospective applications of fuzzy logic in various areas of human affairs and provides an assessment of the significance of fuzzy logic as a new paradigm   *Environmental and Sustainable Development Through Forestry and Other Resources* Arnab Banerjee,Manoj Kumar Jhariya,Dhiraj Kumar Yadav,Abhishek Raj,2020-01-06 This book looks at using forestry and several other innovative measures to facilitate environmental sustainability covering an important selection of research that focuses on scientific applications and trends Chapters discuss such diverse topics as using agroforestry for resource management employing legumes in agroforestry livestock management for climate change mitigation introducing higher plants for air pollution mitigation in urban industrial areas the uses and benefits of sludge technological assessment of sewage treatment plants and much more This book will be a helpful and informative reference for those in the disciplines of forestry agriculture ecology and environmental science and will also be a pathway to addressing new concepts for a sustainable world   Encyclopedia of Ecology: D-F Sven Erik Jørgensen,2008   **Computational Intelligence in Archaeology** Barcelo, Juan A.,2008-07-31 Provides analytical theories offered by innovative artificial intelligence computing methods in the archaeological domain   *The British National Bibliography* Arthur James Wells,2006   Information Technologies in Environmental Engineering Paulina Golinska,Marek Fertsch,Jorge Marx-Gómez,2011-06-23 This monograph contains recent studies in eco informatics promising ideas and new challenges in information management for supporting sustainability in companies and other organization The scope of this book includes sets of solutions which show different

stakeholders viewpoints on sustainability In individual chapters authors discuss the role which Environmental Information Systems EIS play in the environmental conscious functioning of enterprise New models methods and tools supporting sustainability are presented Emphasis is placed on the innovative approach to eco friendly organization and coordination of transport logistics processes and operations management The information management and decision making in manufacturing and service organizations is highlighted The scope of this monograph also encompasses topics related to the modeling and monitoring of climate change *Cloud Computing for Geospatial Big Data Analytics* Himansu Das,Rabindra K. Barik,Harishchandra Dubey,Diptendu Sinha Roy,2018-12-11 This book introduces the latest research findings in cloud edge fog and mist computing and their applications in various fields using geospatial data It solves a number of problems of cloud computing and big data such as scheduling security issues using different techniques which researchers from industry and academia have been attempting to solve in virtual environments Some of these problems are of an intractable nature and so efficient technologies like fog edge and mist computing play an important role in addressing these issues By exploring emerging advances in cloud computing and big data analytics and their engineering applications the book enables researchers to understand the mechanisms needed to implement cloud edge fog and mist computing in their own endeavours and motivates them to examine their own research findings and developments Gaia: ecological perspectives for science and society ,2006 **Information and Communication Technologies for Agriculture—Theme III: Decision** Dionysis D. Bochtis,Claus Grøn Sørensen,Spyros Fountas,Vasileios Moysiadis,Panos M. Pardalos,2022-04-27 This volume is the third III of four under the main themes of Digitizing Agriculture and Information and Communication Technologies ICT The four volumes cover rapidly developing processes including Sensors I Data II Decision III and Actions IV Volumes are related to digital transformation within agricultural production and provision systems and in the context of Smart Farming Technology and Knowledge based Agriculture Content spans broadly from data mining and visualization to big data analytics and decision making alongside with the sustainability aspects stemming from the digital transformation of farming The four volumes comprise the outcome of the 12th EFITA Congress also incorporating chapters that originated from select presentations of the Congress The focus of this book III is on the transformation of collected information into valuable decisions and aims to shed light on how best to use digital technologies to reduce cost inputs and time toward becoming more efficient and transparent Fourteen chapters are grouped into 3 Sections The first section of is dedicated to decisions in the value chain of agricultural products The next section titled Primary Production elaborates on decision making for the improvement of processes taking place with the farm under the implementation of ICT The last section is devoted to the development of innovative decision applications that also consider the protection of the environment recognizing its importance in the preservation and considerate use of resources as well as the mitigation of adverse impacts that are related to agricultural production Planning and modeling the assessment of agricultural practices can provide farmers with valuable
