Ecology Community And Lifestyle Outline Of An Ecosophy:

Ecology, Community and Lifestyle Arne Naess, Arne Naess, 1990-10-26 The basic thesis of the work is that environmental problems are only to be solved by people people who will be required to make value judgements in conflicts that go beyond narrowly conceived human concerns Thus people require not only an ethical system but a way of conceiving the world and themselves such that the intrinsic value of life and nature is obvious a system based on deep ecological principles The book encourages readers to identify their own series of such parameters their own ecosophies Ecology Community and Lifestyle will appeal to philosophers specialists working on environmental issues and the more general reader who is interested in learning some of the foundational ideas of the rapidly expanding field of environmental philosophy **Ecology, Community and Lifestyle** Arne Naess, 1989 **Ecology, community and lifestyle : outline of an ecosophy** Arne Naess, 1993

Philosophical Dialogues Nina Witoszek, Andrew Brennan, 1999 This volume documents the progress of Arne Naess's ecophilosophy from its inception to the late 1990s It includes Naess's most crucial polemics with leading thinkers drawn from sources as diverse as scholarly articles correspondence TV interviews and unpublished exchanges The book testifies to the sceptical and self-correcting aspects of Naess's vision which has deepened and broadened to include third world and feminist perspectives **Ecoaesthetics and Ecosophy in China** Cheng Xiangzhan, 2023-10-09 Chinese ecoaesthetics which originated in 1994 has developed theoretically over the last 30 years This branch of aesthetics which is based on ecology and to transform aesthetically towards the era of ecological civilization uses ecological realism as its philosophical foundation and ecohumanism as its guiding principles Its central aesthetic paradigm is known as the body mind environment model Its main research object is ecological aesthetic appreciation an exploration of how to appreciate aesthetics and ecology through ecological beauty Additionally ecohumanism can be further improved by referring to principles of ecology and examining the aesthetic synergies between humans and the earth's ecosystem Ultimately ecohumanism is not only a method to aid in survival in an ecological crisis but to elevate the human condition through assuming ecological responsibilities and promoting ecological civilization leading to a more valuable and meaningful life The theme of this book Ecosophy C can be summarized as Moving toward the Aesthetics of Eternal Engendering Its key phrase Creating life corresponds to shengsheng in Chinese literally implying a continuous cycle of reproduction Philosophically this concept translates to eternal engendering In essence ecoaesthetics is the pursuit of the endless cycling of bio engendering which is the main goal of ecoaesthetics Cheng Xiangzhan is outstanding among Chinese environmental aestheticians in joining classical and contemporary Western environmental aesthetics with his original contributions to the more recent work by Chinese scholars Cheng's creative and integrative accomplishments are supported by a remarkable facility in English and reflected in his original and systematic consideration of the outstanding issues While much can be debated there is substantial material here and this book makes a signal contribution to carrying the discussion forward Arnold Berleant distinguished environmental aesthetician His latest

book *The Social Aesthetics of Human Environments* will appear in September 2023

In a Dark Wood Alston Chase, 2017-07-12 In a Dark Wood presents a history of debates among ecologists over what constitutes good forestry and a critique of the ecological reasoning behind contemporary strategies of preservation including the Endangered Species Act Chase argues that these strategies in many instances adopted for political rather than scientific reasons fail to promote biological diversity and may actually harm more creatures than they help At the same time Chase offers examples of conservation strategies that work but which are deemed politically incorrect and ignored In a Dark Wood provides the most thoughtful and complete account yet written of radical environmentalism And it challenges the fundamental but largely unexamined assumptions of preservationism such as those concerning whether there is a balance of nature whether all branches of ecology are really science and whether ecosystems exist In his new introduction Chase evaluates the response to his book and reports on recent developments in environmental science policy and politics In a Dark Wood was judged by a recent national poll to be one of the one hundred best nonfiction books written in the English language during the twentieth century A smashing good read this book will be of interest to environmentalists ecologists philosophers biologists and bio ethicists and anyone concerned about ecological issues **Ecocultures** Steffen
