

## Midterm I Cheat Sheet

### Chapter 1 [Nature of Ecology]

- **Ecology:**
  - understanding our impact on the environment and our role in environmental change
  - means the "study of the household"
  - studies the interactions between organisms and their environment
  - understanding the effect of disease on environment and the interaction of organisms and the spread of disease (ex: bats and Ebola)
  - interdisciplinary field
- **Ecologists:**
  - Investigate nature using the scientific method (observation, question, hypothesis, prediction, hypothesis testing) to study organism interactions at different levels of organization (hierarchies)
- **Sub-disciplines of Ecology:**
  - **Physiological (Individual) Ecology:**
    - response of individual organisms to environment
    - physiological traits impact an organism's fitness and success
    - ex: plant leaf shape affects fitness
  - **Behavioral (Individual → Population) Ecology:**
    - study of evolutionary basis for animal behavior due to ecological pressures
    - interaction between organisms and their behavior and how it depends on species density and competition
    - ex: penguins and eggs in Antarctica winter
  - **Population Ecology:**
    - The study of changes in species populations over time and space
    - birth and death rate
    - How to characterize populations in term of births and deaths
    - How characterizations can be used to infer future populations
    - Population ecology was one of the 1st forms of ecology (by Thomas Malthus)
  - **Evolutionary (Population → Community) Ecology:**
    - Natural selection, adaptations, speciation
    - Focuses on how competition and interaction affects the evolution of species
    - Transition from population to community focuses on competition between species (Charles Darwin finches)
  - **Community Ecology:**
    - Species interactions and community assembly
    - Interactions of many species influencing diversity of the community and energy flow from trophic levels from plants to animals to predators
    - Ex: Wetland community
