Economic & Philosophic Manuscripts of 1844 Karl Marx,Sankar Srinivasan,Martin Milligan,2015-03-05 While preparing it for publication the intermingling of criticism directed only against

speculation with criticism of the various subjects themselves proved utterly unsuitable hampering the development of the argument and rendering comprehension difficult. Moreover the wealth and diversity of the subjects to be treated could have been compressed into one work only in a purely aphoristic style whilst an aphoristic presentation of this kind for its part would have given the impression of arbitrary systematism.

Classical and Contemporary Sociological Theory Scott Appelrouth, Laura Desfor Edles, 2008. A unique hybrid of text and readings this book combines the major writings of sociology's core classical and contemporary theorists with an historical as well as theoretical framework for understanding them. Laura Desfor Edles and Scott A Appelrouth provide not just a biographical and theoretical summary of each theorist's reading but an overarching scaffolding which students can use to examine, compare and contrast each theorist's major themes and concepts. No other theory text combines such student friendly explanation and analysis with original theoretical works. Key features include pedagogical devices and visual aids: charts, figures and photographs to help summarize key concepts, illuminate complex ideas and provoke student interest. Chapters on well known figures such as Marx, Weber, Durkheim, Parsons and Foucault as well as an in depth discussion of lesser known voices such as Charlotte Perkins Gilman, WEB Du Bois and Leslie Sklair. Photos of not only the theorists but of the historical milieu from which the theories arose as well as a glossary at the back.

Marx's Economic and Philosophic Manuscripts of 1844. Marx's early humanism and human flourishing under capitalism Leon Maack, 2022-04-19. Essay from the year 2020 in the subject Philosophy Miscellaneous grade 1.0. Leuphana Universität Lüneburg. Language: English. Abstract: This essay aims to explore the chapters 'Estranged Labor' and 'Private Property and Communism' in Karl Marx's *Economic and Philosophic Manuscripts of 1844*. It examines the concept of 'alienated labor' and how it relates to the human condition. Marx's theory of 'species-being' is discussed, along with his critique of capitalism. The essay argues that Marx's early humanism is a form of 'species-being' that is alienated from itself. It concludes that the only way to achieve human flourishing is through the abolition of capitalism and the establishment of a communist society.
