Give A Little How Your Small Donations Can Transform Our World:

Give a Little Wendy Smith, 2009-11-03 With open hearts and open hands we gave what we could and a little became a lot from Give a Little Dimes destroyed polio Five bucks can beat malaria Give a Little How Your Small Donations Can Transform Our World not only contains remarkable inspiring stories of how small donations are making an extraordinary difference in the lives of millions both here in the United States and around the world but also lays out where and how to start giving today Together ordinary Americans have far more transformational power than any government or big foundation In 2007 giving by American individuals amounted to 229 billion that is 82 times the amount the Gates Foundation gave that same year Simple inexpensive things a water filter a bike an irrigation pump a bed net a goat cause a ripple effect that lifts a whole family a town and astonishingly even a nation out of poverty Inspired by Smith's twenty years in the nonprofit sector Give a Little shows how easily we can dip into our pockets and with just a few dollars change the world **Compassion, Inc.** Mara Einstein, 2012-04-26 Pink ribbons red dresses and greenwashing American corporations are scrambling to tug at consumer heartstrings through cause related marketing corporate social responsibility and ethical branding tactics that can increase sales by as much as 74 per cent Harmless Marketing insider Mara Einstein demonstrates in this penetrating analysis why the answer is a resounding No In Compassion Inc she outlines how cause related marketing desensitizes the public by putting a pleasant face on complex problems She takes us through the unseen ways in which large sums of consumer dollars go into corporate coffers rather than helping the less fortunate She also discusses companies that truly do make the world a better place and those that just pretend to **The Rotarian, vol. 190, no. 5**, 2011-11-01 *Reinventing Philanthropy* Eric Friedman, 2013-09-30 Several years ago Eric Friedman decided to donate a substantial percentage of his income to charity As many people do when making a big decision he researched the best path he should take to accomplish his goal After speaking with foundations consultants and nonprofit staff members he found that few could adequately respond to his basic questions How should donors choose the causes they support How can donors maximize the impact of their giving In *Reinventing Philanthropy* Friedman shares the answers he found when exploring the world of charitable giving What he discovered will help readers combine their business acumen with their compassion soul searching and self awareness so they can become highly effective donors While many donors choose to direct their giving based on personal interests and passions Friedman reinvents the best practices in philanthropic giving and demonstrates how the selection of donation recipients can be based more on maximizing a donation's benefits to those in need He also provides specific strategies for effective giving including the best ways to identify high performance nonprofit organizations and the most important criteria for selecting causes to support The Publishers Weekly, 2009 **Reducing Armed Violence with NGO Governance** Rodney Bruce Hall, 2013-10-01 NGOs have proliferated in number and become increasingly influential players in world politics in the past three decades From the 1970s with the access of social movements and private NGOs to local and international institutions

NGOs have enjoyed an opening to bring impact global policy debates Yet NGOs find themselves highly constrained in bringing their material and epistemic resources to bear in the security arena where their activities normally must be authorized by states or international organizations acting with authority delegated from states They also find their activities particularly in the security arena come frequently under attack as lacking accountability or lacking legitimacy as NGOs are self appointed private actors often representing only themselves they are seen by many as self appointed meddlers in transnational affairs This book provides a comprehensive and accessible analysis whether or the extent to which NGOs can contribute as private actors to authoritative governance outcomes in the security realm and thereby help mitigate armed violence by plugging governance gaps in this arena that state actors or international governmental organizations IGOs either neglect or can better address with NGO assistance This book examines the current and future issues surrounding this objective in four sections i a practitioner s perspective of the potentials of conflict governance NGOs ii global civil society and legitimation of conflict governance NGO activities iii conflict governance NGOs as norm entrepreneurs and norm diffusion in global governance iv conflict governance NGOs in action **Justice beyond 'Just Us'** Gregory W. Streich, 2016-04-22

Notions of justice and community in the United States are increasingly challenged by trends like immigration multiculturalism and economic inequality as well as historical legacies like Jim Crow era racial segregation These dynamics continually re shape the communities in which people live whether by generating new forms of interdependency and inequality creating new social cleavages or exacerbating existing ones or generating new spaces in which cross boundary contact conflict or cooperation is possible Revealing the ways in which notions of justice and community overlap in American politics and public discourse through concrete political questions which emerge when considering dimensions of time place and difference Gregory W Streich offers a fresh re examination of the normative ideas of justice and community He encourages Americans to move from a view of justice that applies only to people who are like us to a view of justice that applies to people beyond just us *Weaving a Malawi Sunrise* Roberta Laurie, 2015-11-23 When you educate a girl you educate a nation Malawian saying The women of Malawi like many other women in developing countries struggle to find their way out of poverty and build a better life for themselves and their families Weaving a Malawi Sunrise tells the story of Memory Chazeza s quest to get an education and to build a school for young women Roberta Laurie was one of many who helped Memory realize her vision of seeing young girls become strong and independent women who could care for themselves and their future families During her time in Malawi Laurie met several other women each of whom had a story of her own Laurie combines these personal accounts with detailed information about the country s underlying social and political context Readers interested in Africa global affairs women s studies development and international education will give high marks to Weaving a Malawi Sunrise **The Rotarian** , 2009-11 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments
