## Zachary Chan - Red Class

### Part 1: Comprehension

- 1.) The difference between *apprehensive* and *frightened* as used in Chapter One is that when Jonas says *apprehensive* he means that he feels anxious and nervous about something, while when he says *frightened* Jonas means a deep feeling of freaked-out fear that comes from something unexpected and terrifying. (Lowry 1 and 5)
- 2.) The rules of this community shapes the characters in the story, by forcing onto them a lack of creativity and uniqueness and coercing them to comply to the laws of conformity and simplicity. One example of this is the “rule of perfection.” Each “newchild” must meet certain standards set by the Elders or they will be released. Another example of this is the “rule of formal speaking.” Everyone must speak correctly and formally or they will receive a whipping from the discipline wand. (Lowry 7, 54, and 55)
- 3.) Jonas is different, in that he has different colored eyes as almost everybody else. Also, he believes that he is the only one that sees changes in an apple that he and Asher are throwing around. Jonas feels ashamed and depressed about his differences, and refuses to mention them to others.

*Technology in Interlanguage Pragmatics: Research and Teaching* Naoko Taguchi, Julie M. Sykes, 2013-06-20. Technology informed approaches to L2 research and teaching have prompted great interest by both researchers and practitioners alike. This book highlights the relationship between digitally mediated technologies and second language pragmatics by presenting exemplary applications of technology for both research and pedagogy. Part I presents technology informed research practices that range from measuring response times when processing conversational implicature to studies examining systematic pragmatic learning via online activities and multiuser virtual environments as well as analyzing features of pragmatic language use in social networking and longitudinal learner corpora. Part II surveys a variety of technology assisted tools for teaching pragmatics including place based mobile games, blogging, web based testing, and automated text analysis software. The volume will be of interest for those interested in technological tools to expand the scope of traditional methods of data collection, analysis, and teaching, and critically examining how technology can best be leveraged as a solution to existing barriers to pragmatics.
