Glasgow 1955 Through The Lens:

Glasgow 1955 Fiona Hayes, Peter Douglas, Martin Bellamy, 2008 Step back in time with this book to the days of the trams and tenements and see how the people of Glasgow worked played and lived in 1955 **The British National Bibliography** Arthur James Wells, 2009 *America Through a British Lens* James D. Stone, 2017-10-20 As the British watched their empire crumble and the United States became the dominant world power many British films warned of the dangers posed by American culture Americans were frequently portrayed as disconcertingly ambitious reckless and irreverent Yet the same films that depicted the U S as an agent of chaos also suggested Britons might do well to embrace American style energy and egalitarianism Movies like *Love Actually* *The Quatermass Experiment* *28 Weeks Later* *Local Hero* and Alfred Hitchcock's *Secret Agent* have delved into the storied special relationship between the U S and U K These films and many more examined in this first book length study of British movies about America reveal much about British attitudes regarding power gender class sexuality and emotion **Official Gazette of the United States Patent Office** United States. Patent Office, 1958

The Art Newspaper, 2006 *AQA Poetry Anthology - Power and Conflict: York Notes for GCSE (9-1) ebook edition* Beth Kemp, 2018-09-06 Find everything you need to achieve your full potential with York Notes for GCSE Study Guides now updated for GCSE 9 1 **Glasgow Trams** Martin Jenkins, Geoff Price, 2022-09-15 This book has been commissioned to mark the 60th anniversary of the closure of Glasgow's remarkable tram system when over 250 000 people lined the city streets on 4 September 1962 to watch a final procession of some 20 trams representing different periods in the history of the undertaking Using a wealth of previously unpublished photographs the book shows as many areas and aspects of the city as possible The trams are once again back where they belong right in the heart of the city and its suburbs with people period buses cars and lorries shops churches theatres cinemas parks shipyards factories and even steam and electric locos running on the tram tracks Furthermore the coverage goes way beyond the city boundary to encompass Airdrie Coatbridge Cambuslang Rutherglen Barrhead Paisley Renfrew Clydebank and Milngavie Over the years many locations have changed beyond recognition while others remain instantly recognisable There are scores of photographs of the long lasting Standards some even in Glasgow's legendary colored route bands trams acquired from Paisley including those cut down to single deckers Kilmarnock bogies modern Coronations and Cunarders ex Liverpool cars one offs and also works cars For those who still remember the trams we hope you enjoy looking back as much as we have and for those who have no memory of wires and rails in the street we hope this will recapture a lost way of life when services were frequent and fares relatively inexpensive Widener Library Shelflist: British history Harvard University. Library, 1975 Affirming Methodologies Camille Nakhid, Margaret Nakhid-Chatoor, Anabel Fernández Santana, Shakeisha Wilson-Scott, 2022-07-29 Affirming Methodologies Research and Education in the Caribbean centres local and indigenous ways of knowing in research and education praxis in the Caribbean The research methodologies and pedagogies are presented in this book within an Affirming

Methodologies framework They bring forward localized epistemologies whereby Caribbean ways of being and knowing are affirmed and the expected western hierarchies between researcher and researched are removed The chapters present approaches to knowledge construction and knowledge sharing based on practices lived experiences traditions language patterns and rituals of Caribbean communities The importance of an Affirming Methodologies approach is demonstrated and the characteristics of culturally affirming research methodologies and pedagogies in diverse environments including Cuba Trinidad and Tobago Jamaica and the Caribbean diaspora in Aotearoa New Zealand and Canada are explored and presented Grounded on an understanding of the authors Caribbean positionality ontological distinctions within the Caribbean research context are considered This book moves forward from a decolonizing methodology approach and as such the chapters are written not in opposition to or tested against Eurocentric approaches to research but deeply rooted in a Caribbean ethos This book will engage researchers both qualitative and quantitative postgraduate students academics practitioners policymakers community workers and lay persons who seek to employ culturally relevant local and indigenous research approaches in their work Each chapter offers practical suggestions on the how of research practice making them accessible relevant and flexible for novice and seasoned researchers alike

The Modern Scot Tom Normand, 2017-11-22 This title was first published in 2000 An investigation of Scottish art between 1928 and 1955 to bring into focus the multifaceted project that was Scottish modernism At the core of this work lies the contention that Scottish modernism was underpinned by a desire to express a national consciousness It was this ambition which became the defining feature of radical Scottish art setting the parameters of its relationship with the idea of a coherent and international modern movement With the foundation of the National Party of Scotland in 1928 Scottish intellectuals began to consider the nature of national identity and the characteristics of a national art The Scottish Renaissance Movement under the voluble leadership of Hugh MacDiarmid set out to articulate these interests developing a vernacular poetry and literature For Scottish artists the way forward was harder to identify as they fought to reconcile the demands for a Scottish national art with the stylistic revolution of international modernism Tom Normand examines the competing claims of nationalism and modernism as they affected Scottish art This in depth analysis of a dynamic episode in Scottish visual culture looks at the work of among others William Johnstone William McCance and John Duncan Fergusson

20th Century Painters and Sculptors Frances Spalding, Judith Collins, 1991 Covering the most prolific period of British art and bringing together a huge range of ideas schools styles and media this dictionary of 7 000 artists many not listed elsewhere provides a unique and invaluable reference for anyone interested in the British art of this century

Science in Translation Maeve Olohan, Myriam Salama-Carr, 2014-04-08 Despite the crucial role played by translation in the history of scientific ideas and the transmission of knowledge historians of science have seldom been interested in the translation activity which enabled the spread of those ideas and exerted influence on structures and systems of knowledge Translation

scholars too have traditionally shown little interest in theorizing scientific translation. Recent conceptualizations of science as public culture institution narrative and rhetorical practice open the way for research on the translation of science to take conceptual and methodological inspiration from studies of discourse rhetoric the sociology of science the history of science the philosophy of science and other related fields. This special issue of *The Translator* foregrounds the work of researchers within or on the periphery of translation studies who have begun to interrogate the representation of scientific knowledge through translation. Drawing on a wide range of disciplines and models contributors engage with different perspectives and approaches to help promote the visibility of scientific translation and shed light on its complex relationship with power and the construction of knowledge.

Advances in Imaging and Electron Physics Peter W. Hawkes, 2004-12-18

A special volume devoted principally to the role of the late Sir Charles Oatley in the development of the scanning electron microscope. It contains historical articles and reminiscences by most of the scientists who have worked on the scanning electron microscope in Oatley's laboratory. Emphasizes broad and in depth article collaborations between world renowned scientists in the field of image and electron physics. Although the scanning electron microscope had a prehistory in Germany and the USA its real champion was Charles Oatley who launched his project in the Cambridge University Engineering Department shortly after the end of World War II. A first microscope was built successfully by D McMullan one of the Guest Editors of this volume and a succession of progressively improved instruments followed. One in particular built by K C A Smith was commissioned specially for the Canadian Pulp and Paper Research Institute for use in their Montreal laboratories. All these efforts culminated in the commercial model built by the Cambridge Instrument Company and marketed in 1965 under the trade name Stereoscan. Although this story has been told on several occasions in particular in these *Advances* it seemed appropriate in the centenary year of the birth of Sir Charles Oatley that more details should be published to celebrate these achievements. This volume is the result. It contains not only historical articles and reminiscences by most of the scientists who have worked on the scanning electron microscope in Oatley's laboratory but also full or partial reproductions of many of the key publications beginning with McMullan's early paper of 1953 and including Oatley's own *Early history of the scanning electron microscope* 1982. A website has been created in which supplementary material is collected. This volume is a tribute to a bold pioneering scientist and a vivid record of the creation of the first commercial scanning electron microscopes and of subsequent developments. The Irish parliament, 1613-89 Coleman A. Dennehy, 2019-05-16 The Irish parliament was both the scene of frequent political battles and an important administrative and legal element of the state machinery of early modern Ireland. This institutional study looks at how parliament dispatched its business on a day to day basis. It takes in major areas of responsibility such as creating law, delivering justice, conversing with the executive and administering parliamentary privilege. Its ultimate aim is to present the Irish parliament as one of many such representative assemblies emerging from the feudal state and into the modern world with a changing set of responsibilities that would inevitably transform the institution and how it saw both itself and the other political assemblies of the day

Systems Approaches to Managing Change: A Practical Guide Martin Reynolds, Sue Holwell, 2010-03-10 In a world of increasing complexity, instant information availability and constant flux, systems approaches provide the opportunity of a tangible anchor of purpose and iterative learning. The five approaches outlined in the book offer a range of interchangeable tools with rigorous frameworks of application tried and tested in the real world. The frameworks of each approach form a powerful toolkit to explore the dynamics of how societies emerge, how organisations create viability, how to facilitate chains of argument through causal mapping, how to embrace a multiplicity of perspectives, identifying purposeful activity and how to look for the bigger picture across multiple disciplines.

Systems Approaches offers an excellent first introduction for those seeking to understand what systems thinking is all about as well as why the tools discussed herein should be applied to management and professional practice. This book provides a practical guide and the chapters stand alone in explaining and developing each approach.

Adopting the Melody of Appearance: An Emotional Symphony within **Glasgow 1955 Through The Lens**

In a global eaten by monitors and the ceaseless chatter of fast interaction, the melodic splendor and psychological symphony produced by the prepared term usually fade in to the back ground, eclipsed by the relentless sound and disruptions that permeate our lives. Nevertheless, situated within the pages of **Glasgow 1955 Through The Lens** a marvelous fictional treasure overflowing with natural emotions, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, that interesting masterpiece conducts readers on a mental journey, well unraveling the concealed melodies and profound affect resonating within each carefully crafted phrase. Within the depths of the moving analysis, we can discover the book is central harmonies, analyze its enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
