K. Mazibuko, 2018-05-03 The prerequisite for being a Bah is to attempt to live a life that is in accordance with the teachings of that faith In the human condition one must have a logical explanation for a principle that lends itself to being lived This is an attempt at stating thoughts in relation to an exalted theme in terms of what one might perceive given that one has to have logic to the effort of endeavoring to live the ideal These explanations are not conclusive and may apply for a certain period and a certain kind of person and they constitute the writers desire to extend his belief to that which can actually be practiced Spirituality is not imaginary thought but a practicality The writer acknowledges that the Creator gave us minds to investigate phenomena because they are understandable and did not createpard the expression for the mere purpose of confusing the minds It is a perception and a belief that He wants us to know and worship Him As He is eternal we must strive to advance eternally toward a fuller understanding of all lessons admitting that we are human and can do only what is humanly possible at any time
