Global Corruption Report 2006 Special Focus Corruption And Health:

Global Corruption Report 2006 Transparency International, 2005-12-20 TI has once again shown its ability to combine research and policy analysis not just to shine a light on the deeply embedded problems of corruption but to propose progressive solutions Former World Bank President James Wolfensohn on the Global Corruption Report In the health sector corruption is a matter of life or death It can take many forms from medical professionals who sell medicines or services that should be freely available to high level government officials who embezzle money from health budgets to pharmaceutical companies that buy influence over research agendas The impact of corruption is always felt by the end user the sick person who is forced to pay over the odds or who is given unsafe counterfeit medicines The 2006 edition of Transparency International's Global Corruption Report shows the impact that corruption has on health care in rich and poor countries From high level bribery in Costa Rica to informal payments in Hungary case studies from around the world explore the characteristics of the health sector that make it so prone to corruption In a special section dedicated to corruption in HIV AIDS the report warns that the large sums being poured into fighting the world's deadliest diseases need to be safeguarded against abuse There is also a detailed analysis of the problems of the pharmaceutical system The report also offers an annual round up of worldwide developments and tracks major trends in more than 40 countries The Global Corruption Report 2006 is the only report of its kind and is an essential reference source for anyone who wants the latest research on how corruption affects everything from health to education and the oil and gas industries

Corruption in the Global Era Lorenzo Pasculli, Nicholas Ryder, 2019-03-05 Corruption is a globalising phenomenon Not only is it rapidly expanding globally but more significantly its causes its means and forms of perpetration and its effects are more and more rooted in the many developments of globalisation The Panama Papers the FIFA scandals and the Petrobras case in Brazil are just a few examples of the rapid and alarming globalisation of corrupt practices in recent years The lack of empirical evidence on corrupt schemes and a still imperfect dialogue between different disciplinary areas and between academic and practitioners hinder our knowledge of corruption as a global phenomenon and slow down the adoption of appropriate policy responses Corruption in the Global Era seeks to establish an interdisciplinary dialogue between theory and practice and between different disciplines and to provide a better understanding of the multifaceted aspects of corruption as a global phenomenon This book gathers top experts across various fields of both the academic and the professional world including criminology economics finance journalism law legal ethics and philosophy of law to analyze the causes and the forms of manifestation of corruption in the global context and in various sectors sports health care finance the press etc from the most disparate perspectives The theoretical frameworks elaborated by academics are here complemented by precious insider accounts on corruption in different areas such as banking and finance and the press The expanding links between corrupt practices and other global crimes such as money laundering fraud and human trafficking are also explored This book is an important resource to

researchers academics and students in the fields of law criminology sociology economics and ethics as well as professionals particularly solicitors barristers businessmen and public servants **Global Health and Human Rights** John Harrington, Maria Stuttaford, 2010-06-10 Interrogates the development of rights based approaches to health This title integrates discussions of the right to health at a theoretical and practical level and engages with the systems of global health governance *The Internationalisation of Corruption* Clare Fletcher, Daniela Herrmann, 2016-03-03 Corruption scandals hit the headlines all around the world across a diverse range of institutional organisational and cultural settings Corruption is a major obstacle to political social and economic development its internationalisation has had profound implications for counter corruption efforts The Internationalisation of Corruption provides readers with an analytical framework with which to approach the issue of corruption in international affairs from the perspective of international studies as an interdisciplinary space in the social sciences The authors also examine the implications of corruption in world politics international business and global finance how corruption is linked to transnational crime networks and the consequences of corruption for international development and world health The Internationalisation of Corruption addresses the following questions Crossing the Global Quality Chasm National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Board on Global Health, Committee on Improving the Quality of Health Care Globally, 2018-12-27 In 2015 building on the advances of the Millennium Development Goals the United Nations adopted Sustainable Development Goals that include an explicit commitment to achieve universal health coverage by 2030 However enormous gaps remain between what is achievable in human health and where global health stands today and progress has been both incomplete and unevenly distributed In order to meet this goal a deliberate and comprehensive effort is needed to improve the quality of health care services globally Crossing the Global Quality Chasm Improving Health Care Worldwide focuses on one particular shortfall in health care affecting global populations defects in the quality of care This study reviews the available evidence on the quality of care worldwide and makes recommendations to improve health care quality globally while expanding access to preventive and therapeutic services with a focus in low resource areas Crossing the Global Quality Chasm emphasizes the organization and delivery of safe and effective care at the patient provider interface This study explores issues of access to services and commodities effectiveness safety efficiency and equity Focusing on front line service delivery that can directly impact health outcomes for individuals and populations this book will be an essential guide for key stakeholders governments donors health systems and others involved in health care Perez, Brady, Halperin, and Wazer's Principles and Practice of Radiation Oncology Edward C. The Conundrum of Corruption Michael Johnston,Scott Fritzen,2020-12-30 This book argues that it is time to step back and reassess the anti corruption movement which despite its many opportunities and great resources has ended up with a track record that is indifferent at best Drawing on many years of experience and research the authors critique many of the major strategies and tactics employed by anti corruption actors arguing that they have made the mistake of holding on to problematical assumptions ideas and strategies rather than addressing the power imbalances that enable and sustain corruption The book argues that progress against corruption is still possible but requires a focus on justice and fairness considerable tolerance for political contention and a willingness to stick with the reform cause over a very long process of thoroughgoing sometimes discontinuous political change Ultimately the purpose of the book is not to tell people that they are doing things all wrong Instead the authors present new ways of thinking about familiar dilemmas of corruption politics contention and reform These valuable insights from two of the top thinkers in the field will be useful for policymakers reform groups grant awarding bodies academic researchers NGO officers and students

The Political Economy of Health and

Healthcare Joan Costa-Font,Gilberto Turati,Alberto Batinti,2020-05-28 The healthcare sector is one of the fastest growing areas of social and public spending worldwide and it is expected to increase its government shares of GDP in the near future Truly global in its scope this book presents a unified structured understanding of how the design of a country s health institutions influence its healthcare activities and outcomes Building on the public choice tradition in political economy the authors explore how patient citizens interact with their country s political institutions to determine the organisation of the health system The book discusses a number of institutional influences of a health system such as federalism the nature of collective action electoral competition constitutional designs political ideologies the welfare effects of corruption and lobbying and more generally the dynamics of change Whilst drawing on the theoretical concepts of political economy this book describes an institution grounded analysis of health systems in an accessible way We hope it will appeal to both undergraduate and graduate students studying health economics health policy and public policy More generally it can help health policy community to structure ideas about policy and institutional reform **Transitional Justice and**

Socio-Economic Rights in Zimbabwe Prosper Maguchu,2019-07-26 This book addresses the issue of corruption as a socio economic rights concern at a national level Zimbabwe s widespread corruption inhibited its development in all aspects It weakened institutions especially those called upon to arbitrate political and economic contests leading to potential human rights violations However Zimbabwe saw a change of government in November 2017 Due to this there seemed to be an opening to work towards reform in relation to the anti corruption architecture Specifically the new era provides an opportunity to review how accountability mechanisms including but not limited to amnesties truth commissions institutional reforms and prosecutions can address corruption as a socio economic rights violation As the new government still tries to address competing priorities many moving parts and various matrixes this volume in the International Criminal Justice Series provides a timely frame for revisiting the debate and developing the strategic thinking regarding transitional justice options in Zimbabwe It will be of great interest to practitioners policy makers scholars and students in the fields of anti corruption socio economic and human rights and transitional justice Prosper Maguchu is Visiting Assistant Professor at the Centre for the Politics of Transnational Law of the Vrije Universiteit Amsterdam The Netherlands Transition, European Integration and Foreign Direct Investment in Central and East European Countries Yōji Koyama,2008
