Global Ethics And Global Common Goods:

Global Ethics and Global Common Goods Patrick Riordan, 2014-12-18 Patrick Riordan takes a different approach to the questions of global ethics by following the direction of questioning initially pioneered by Aristotle for him the most basic question of ethics is what is the good life So in the context of contemporary global ethics the Aristotelian questioner wonders about the good life on a global scale *Global Ethics and Global Common Goods* fills the gap in existing literature caused by the neglect of the topic of the good in global ethics Beginning by outlining answers to questions such as what is good and is there a highest good Riordan demonstrates the value of a common good perspective in matters of universal human rights and their institutions and practices the study of international relations and the construction of global institutions and debates about global justice between cosmopolitanism nationalism and economic globalization Philosophical questions provoked by these debates are identified and pursued such as the question of a common human nature which seems presupposed by the language of universal rights For experienced students of political philosophy and international relations this is a crucial text in the literature exploring the possibilities for politics on a world scale while the perspective of the common good adds a new and distinctive dimension to current debates on global security and the challenges of managing conflict **Governance**

Ethics: Global value creation, economic organization and normativity Josef Wieland, 2014-08-07 This book investigates the functioning and effects of moral rules and values as endogenous elements of governance structures when applied to economic and social transactions The point of departure and framework of this book is Josef Wieland's theory of Ethics of Governance Its focal point is the governance of the normative aspects of corporations The Ethics of Governance is a comparative research project on business and economic ethics which started 15 years ago Divided into five chapters the book provides a comprehensive insight into the theoretical foundation and application oriented results of the research project It covers theoretical conceptual and practical challenges in the global economy with regard to a sustainable economy the social responsibility of corporations and their transcultural and normative management By offering comprehensive insight into the research results of the Ethics of Governance project this book provides a unique scientific work on business and economic ethics

Solidarity Beyond Borders Janusz Salamon, 2015-09-24 *Solidarity Beyond Borders* is a collection on international ethics by a multidisciplinary team of scholars from four continents The volume explores ethical and political dimensions of transnational solidarity in the emerging multipolar world Analyzing global challenges of the world plagued by poverty diseases injustice inequality and environmental degradation the contributors rooted in diverse cultures and ethical traditions voice their support for solidarity beyond borders Bringing to light both universally shared ethical insights as well as the irreducible diversity of ethical perceptions of particular problems helps the reader to appreciate the chances and the challenges that the global community more interconnected and yet more ideologically fragmented than ever before faces in the coming decades *Solidarity Beyond Borders* exemplifies an innovative approach to the key issues of global ethics which

takes into account the processes of economic globalization leading to an ever deeper interdependence of peoples and states as well as the increasing cultural and ideological fragmentation which characterize the emerging multipolar world order

A Communitarian Theory of WTO Law Chios Carmody, 2023-12-21 Since 1995 there has been intense debate about whether the WTO Agreement is just. Many observers point to the association of the treaty with intensive interdependence and the disruptive effects of globalization to assert that it is unjust. Nevertheless, justice in sovereign terms is different from justice in human terms. This book puts forward a theory of WTO law to explain the difference and its implications for the international trading system. It details how economic interdependence gives rise to an interdependent view of the relationship between different forms of justice and to interdependent obligations in WTO law. It also suggests how the WTO dispute settlement system might have a residual value as a locus for transformative outcomes despite contemporary concerns about the system's political acceptability. Taken together, such insights may assist in identifying elements of a general theory of law.

Climate Change in Regional Perspective Andrea Ribeiro Hoffmann, Paula Sandrin, Yannis E. Doukas, 2024-03-06 This Open Access book addresses climate change in Europe and Latin America from a comparative regionalism studies CRS perspective. Written by an international team of scholars and experts, chapters critically analyze proposals for mitigating climate change while contributing to the mutual understanding about the issues at stake across regions. The book is divided into three main sections. In the first section, authors discuss EU and Latin American cooperation negotiations and perspectives on climate change, exploring their agendas, the interests and key challenges at the global, regional, and interregional levels. The second section focuses on the challenges to finance development and a greener economy. The third section explores new green solutions to climate change in the agriculture sector and initiatives such as nature-based solutions to climate change and best practices. Providing policy-oriented solutions for combatting regional climate change at a critical juncture, this volume will be of interest to researchers and students of international relations, international law, and environmental politics, as well as public officials and climate change activists.

Global Ethics Heather Widdows, 2014-12-05 Global ethics addresses some of the most pressing ethical concerns today, including rogue states, torture, scarce resources, poverty, migration, consumption, global trade, medical tourism, and humanitarian intervention. It is both topical and important. How we resolve or fail to resolve the dilemmas of global ethics shapes how we understand ourselves, our relationships with each other, and the social and political frameworks of governance now and into the future. This is seen most clearly in the case of climate change, where our actions now determine the environment our grandchildren will inherit, but it is also the case in other areas, as our decisions about what it is permissible for humans to do to each other determines the type of beings we are. This book is suitable for course use; it introduces students to the theory and practice of global ethics, ranging over issues in global governance and citizenship, poverty and development, war and terrorism, bioethics, environmental and climate ethics, and gender justice.

Connecting Ecologies Patrick Riordan, Gavin Flood, 2024-06-03

Connecting Ecologies focuses on the environmental aspects of Pope Francis encyclical *Laudato Si* and the challenge to care for our common home. It considers how best to devise and implement the new societal models needed to tackle the ecological problems facing the world today. The book addresses the need for and complexity of an integral ecology one that looks not only at physical and biological processes but also allows for the contributions of theology philosophy spirituality and psychology including the implications for the human and social sciences. The contributions document four categories of resonances resources requirements and responses evoked by a reading of *Laudato Si* and include consideration of other faith traditions. They reflect on how care for our common home motivates people in different places cultures and professions to cooperate for myriad goods in common. The volume is particularly relevant for scholars working in religious studies and theology with an interest in ecology the environment and the Anthropocene.

Rhetoric at the Non-Substantialistic Turn Therese Boos Dykeman, 2018-05-04 *Rhetoric at the Non Substantialistic Turn* The East West Coin presents a unique theory of rhetoric that encompasses both Eastern and Western approaches. Based on the Field Being philosophy founded by Lik Kuen Tong this theory gives an account of the ontological foundations of both kinds of rhetoric. Beginning with an exposition of the nature of Field Being rhetoric as Eastern and Western this book presents chapters on Eastern and Western rhetoric over history as power ethics art creativity politics and communication. It acknowledges the thinking of many philosophers and rhetoricians who have contributed to East West comparative studies in both fields and argues that both understandings of rhetoric are necessary for global communication.

The Church in Pluralist Society Cornelius J. Casey, Fáinche Ryan, 2019-11-30 Vatican II opened new pathways to engagement with societies shaped by modernity. Its project could be read as an attempt to interpret the stance of the church in relation to the whole project of modernity. The fundamental presumption of this collection of essays is that it is timely indeed imperative to keep alive the question of the church's self understanding in its journey alongside the complex often rebellious always restless mind of the modern world. Cornelius J. Casey and F. inche Ryan have assembled some of the most prominent commentators on ecclesiastical and social political engagements from the fields of theology political philosophy social theory and cultural criticism. The contributors present differing perspectives on the role of the church. Some argue that pluralism is here to stay. Others point out that the liberal pluralism of contemporary society is aggressively powered by global corporate consumerism. This book with its variety of voices explores these issues largely from within the Catholic tradition. The role of the church in a pluralist society is a narrative that is being written by many people at many different levels of the church. Contributors: J. Bryan Hehir, Terry Eagleton, Patrick J. Deneen, Hans Joas, William T. Cavanaugh, Massimo Faggioli, F. inche Ryan, Patrick Riordan, and Cornelius J. Casey.

Searching for a Universal Ethic John Berkman, William C. Mattison, 2014-12-29 The best contemporary English language resource on pursuing a universal ethics. In this volume twenty three major scholars comment on and critically evaluate *In Search of a Universal Ethic* the 2009 document written by the International Theological Commission (ITC) of the

Catholic Church That historic document represents an official Church contribution both to a more adequate understanding of a universal ethic and to Catholicism's own tradition of reflection on natural law The essays in this book reflect the ITC document's complementary emphases of dialogue across traditions universal ethic and reflection on broadly applicable ethical guidance within the Christian tradition natural law Among other things the document situates the natural law ethical tradition within the larger search for a universal ethic Along with its insightful essays *Searching for a Universal Ethic* offers for the first time in published form the Vatican's official English translation of *In Search of a Universal Ethic* Contributors John Berkman Serge Thomas Bonino O P David Burrell C S C Lisa Sowle Cahill Joseph E Capizzi David Cloutier Anver M Emon Robert P George Sherif Girgis Jennifer A Herdt Russell Hittinger M Cathleen Kaveny Anthony J Kelly C Ss R Fergus Kerr O P Steven A Long William C Mattison III Gilbert Meilaender Livio Melina Michael S Northcott David Novak Jean Porter Martin Rhonheimer Tracey Rowland **Business Ethics** W. Moral Passion and Christian Ethics Robin Gill, 2017-03-06 In this book Robin Gill argues that moral passion and rational ethical deliberation are not enemies and that moral passion often lurks behind many apparently rational ethical commitments He also contends that though moral passion is a key component of truly selfless moral action without rational ethical deliberation it can also be extremely dangerous Gill maintains that a reanalysis of moral passion is overdue He inspects the gap between the purely rational accounts of ethics provided by some moral philosophers and the normative positions that they espouse and or the moral actions that they pursue He also contends that Christian ethicists have not been adept at identifying their own implicit moral passion or at explaining why it is that doctrinal positions generate passionately held moral conclusions Using a range of disciplines including cognitive science and moral psychology alongside the more usual disciplines of moral philosophy and religious ethics Gill also makes links with moral passion in other world faith traditions

Global Health and International Community John Coggon, Swati Gola, 2013-09-12 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Global health arguably represents the most pressing issues facing humanity Trends in international migration and transnational commerce render state boundaries increasingly porous Human activity in one part of the world can lead to health impacts elsewhere Animals viruses and bacteria as well as pandemics and environmental disasters do not recognize or respect political borders It is now widely accepted that a global perspective on the understanding of threats to health and how to respond to them is required but there are many practical problems in establishing such an approach This book offers a foundational study of these urgent and challenging problems combining critical analysis with practically focused policy contributions The contributors span the fields of ethics human rights international relations law philosophy and global politics They address normative questions relating to justice equity and inequality and practical questions regarding multi organizational cooperation global governance and international relations Moving from the theoretical to the practical Global Health and International Community is an essential resource for scholars students activists and policy makers across the globe

Sustainable Development and Global Ethics Carl-Henric Grenholm, Normunds Kamergrauzis, 2007 [Global Responsible Intergenerational Leadership](#) Julia M. Puaschunder, 2018-01-01 Today's grand policy dilemmas from climate change to over indebtedness to demographic shifts have momentous long term implications Future generations will be constrained by our present decisions to an extent that is without precedent in advanced capitalist democracies This book is an extensively researched and reasoned appeal in favor of intergenerational fairness the ability to provide to future generations an at least as favorable standard of living as that

enjoyed today Intergenerational equity is an essential consideration in finding lasting solutions to the multifaceted crises of our time As an implicit contract and transfer between living and future generations intergenerational equity avoids discriminating against future generations The book aims to theoretically define intergenerational equity and to frame it as a natural behavioral law capturing human ethicality bounds It follows a long and distinguished tradition of scholarly discourse in turning to natural law for solutions to major social predicaments Outlining some of the causes of the current intergenerational imbalances regarding climate change and over indebtedness it sets the basis for understanding their drivers and implications A central proposition is that the natural human drive towards intergenerational fairness can be the basis for the necessary behavioral responses the human imbued moral compass of natural law can be a useful complement if not alternative to public policy This book fills an important gap Despite a resurgence of literature the economic and social dimensions of intergenerational equity remain underexplored Existing literature misses a holistic ethical framework of decision making failures that addresses intergenerational concerns Whilst evolutionary grounded intergenerational fairness has not been recognized as a natural behavioral law a human imbued drive being bound by human fallibility Practical implications and recommendations in advancing an agenda for the advancement of intergenerational equity are provided Attention is drawn to the problem of providing the required leadership to promote the idea of intergenerational equity as a guiding principle in corporate social and policy action This book contributes both theoretical and practical insights and will be of interest to economists sociologists public policy makers and corporate executives tasked with tackling the most pressing contemporary challenges of mankind [A Global Ethic for Global Politics and Economics](#) Hans Küng,1998-04-16

For anyone concerned about the world we are creating this book written by one of the most important living theologians offers a cautionary look at the coming global society *Climate Justice and Collective Action* Angela Kallhoff,2021-05-20 This book develops a theory of climate cooperation designed for concerted action which emphasises the role and function of collectives in achieving shared climate goals In debates on climate change action research focuses on three major goals on mitigation on adaptation and on transformation Even though these goals are accepted concerted action is still difficult to realize Climate Justice and Collective Action provides an analysis of why this is the case and develops a theory of climate cooperation designed to overcome the existing roadblocks Angela Kallhoff starts with a thorough analysis of failures of collective action in the context of climate change action Taking inspiration from theories of water cooperation she then establishes a theory of joint action that reframes climate goals as shared goals and highlights the importance of adhering to principles of fairness This also includes an exploration of the normative claims working in the background of climate cooperation Finally Kallhoff puts forward proposals for a fair allocation of duties to cooperate with respect to climate goals This book will be of great interest to students and scholars of climate action climate justice environmental sociology and environmental philosophy and ethics more broadly **The Global Ethic and Law** Bradley Shingleton,Eberhard

Stilz, 2016-10-20 As a fundamental institution of human societies law is a deeply influential factor in individual and social activity Yet its normative status is controversial particularly in pluralistic secularized societies Is law essentially the result of legislative creation and juridical interpretation or can and should it reflect ethical values and imperatives If it can what are the sources of those imperatives and how do they achieve the necessary degree of social consensus in religiously diverse societies that are increasingly globalized and globalizing as a consequence of culture commerce communication and immigration The Global Ethic and Law Intersections and Interactions contributes to the consideration of these questions Its contributors include academics from the U S A and Europe as well Hans Kueng the author of the 1993 Declaration Towards a Global Ethic adopted by the Parliament of World Religions and Stephan Schlenz General Secretary of the Global Ethic Foundation of Tuebingen Germany

Institutional Cosmopolitanism Luis Cabrera, 2018-09-25 Is a global institutional order composed of sovereign states fit for cosmopolitan moral purpose Cosmopolitan political theorists challenge claims that states nations or other collectives have ultimate moral significance They focus instead on individuals on what they share and on what each may owe to all the others They see principles of distributive justice and increasingly political justice applying with force in a global system in which billions continue to suffer from severe poverty and deprivation political repression interstate violence and other ills Cosmopolitans diverge widely however on the institutional implications of their shared moral view Some argue that the current system of competing sovereign states tends to promote unjust outcomes and stands in need of deep structural reform Others reject such claims and contend that justice can be pursued through transforming the orientations and conduct of individual and collective agents especially states This volume brings together prominent political theorists and International Relations scholars including some skeptics of cosmopolitanism in a far ranging dialogue about the institutional implications of the cosmopolitan approach Contributors offer penetrating analyses of both continuing and emerging issues around state sovereignty democratic autonomy and accountability and the promotion and protection of human rights They also debate potential reforms of the current global system from the transformation of cities and states to the creation of some encompassing world government capable of effectively promoting cosmopolitan aims
