A missing link in the analysis of global value chains: cross-border flows of intangible assets, taxation and related measurement implications World Intellectual Property Organization, Thomas S. Neubig, Sacha Wunsch-Vincent, 2017 Understanding cross border flows of disembodied knowledge often associated with intellectual property IP is essential to analyzing how modern economies operate This paper documents how available data to document these IP flows are distorted by various factors including tax planning by multinational enterprises It finds that tax induced mismeasurement could be more than 35% and greater for individual countries particularly high tax rate countries
