Justice in Young Adult Speculative Fiction Marek C. Oziewicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziewicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziewicz explains how poetic retributive restorative environmental social and global types of justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children s and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres It demonstrates that the justice imperative is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges

of this book here Brill Nijhoff Lawcast *Comparative Law* Mathias Siems, 2018-04-12 *Comparative Law* offers a thorough grounding in the subject for students and scholars of comparative law alike critically debating both traditional and modern approaches to the subject and using examples from a range of legal systems gives the reader a truly global perspective Covering essential academic debates and comparative law methodology its contextualised approach draws on examples from politics economics and development studies to provide an original contribution to topics of comparative law This new edition is fully revised and updated throughout to reflect contemporary research contains more examples from many areas of law and there is also an increased discussion of the relevance of regional international transnational and global laws for comparative law Suitable for students taking courses in comparative law and related fields this book offers a fresh contextualised and cosmopolitan perspective on the subject **Comparative, International, and Global Justice** Cyndi Banks, James Baker, 2015-09-23 *Comparative International and Global Justice Perspectives from Criminology and Criminal Justice* presents and critically assesses a wide range of topics relevant to criminology criminal justice and global justice The text is divided into three parts comparative criminal justice international criminology and transnational and global criminology Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues Authors Cyndi Banks and James Baker address these complex global issues using a scholarly but accessible approach often using detailed case studies The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide and to prepare students for a future where fields of study like transnational crime are unexceptional **Uniform Civil Code for India** Shimon Shetreet, Hiram E. Chodosh, 2015-06-18 Article 44 of The Constitution of India provides that The State shall endeavour to secure for the citizens a Uniform Civil Code throughout the territory of India Even after more than six decades this anticipated code has not been developed or implemented This book provides a blueprint for alternative frameworks and courses of action drawing on lessons from comparative context to develop a Uniform Civil Code for India It explores the interplay between issues of law culture and religion in light of various intra community and inter community disputes The book proposes a series of guidelines and considerations to inform this process The first guideline urges that the process of preparing and implementing a Uniform Civil Code should be the function of the Legislature The Courts can resolve certain specific points but the comprehensive code is a legislative function and not for judicial resolution The second guideline suggests the parallel application of civil and religious law The securing of a Uniform Civil Code must not negate the possibility of citizens availing

themselves of religious law if they so wish The third guideline advises a gradual application of a Uniform Civil Code The development of the code should be done topic by topic chapter by chapter The fourth guideline is to deploy tools of mediation in both the formation of the code and its implementation This mediation should take on two forms intercommunity mediation and individual mediation The first of these two relates to a dialogue between the communities of India to advance an agreement upon the substantive provisions of the Uniform Civil Code The second relates to mediation between individuals in occasions where dispute arises in the realm of personal law

Global Justice and International Economic Law Chi Carmody, Frank J. Garcia, John Linarelli, 2012-01-09 Since the beginnings of the GATT and

the Bretton Woods institutions and on to the creation of the WTO states have continued to develop institutions and legal infrastructure to promote global interdependence International lawyers are experts in understanding how these institutions operate in practice but they tend to uncritically accept comparative advantage as the principal normative criterion to justify these institutions In contrast moral and political philosophers have developed accounts of global justice but these accounts have had relatively little influence on international legal scholarship and on institutional design This volume reflects the results of a symposium held at Tillar House the American Society of International Law headquarters in Washington DC in November 2008 which brought together philosophers legal scholars and economists to discuss the problems of understanding international economic law from the standpoints of rights and justice in particular from the standpoint of distributive justice

Global Justice Sebastiano Maffettone, Aakash Singh Rathore, 2020-11-29 The global justice debate has been raging for forty years Not merely the terms and conditions but more deeply the epistemic existential and ethical grounds of the international relations of persons states and institutions are being determined debated and negotiated Yet the debate remains essentially a parochial one confined largely to Western intellectuals and institutional spaces An Introduction to the field is therefore still urgently required because it remains necessary to include more global voices into this debate of worldwide reach and significance The book addresses this need in two closely related ways In Part I it introduces the main contours of the debate by reproducing three of the most fundamental and influential essays that have been composed on the topic essays by Peter Singer Thomas Pogge and Thomas Nagel In Part II it makes a decisive critical intervention in the main stream of the debate through exposing the participation deficit afflicting the theorization of global justice This part begins with a well known essay by Amartya Sen who famously referred to the parochialism of the global justice debate in making a break with the Rawlsian paradigm that has dominated the field until now Finally a series of lively essays newly composed for this volume reflect on the possibilities for deparochializing global justice opened up by Sen's work in this area The book will be useful for students of international relations postcolonial studies political theory and social and political philosophy as well as for those engaged in studies of globalization or global studies

philosophical traditions including Confucianism Legalism Daoism and Buddhism consider issues related to global justice The essays in Part III adopt a cross cultural and or comparative perspective on justice enabling the readers to appreciate similarities and differences between the East Asian and Western perspectives on justice and to appreciate cultural variation Key applied issues in global justice such as epistemic injustice human rights women s rights nationalism religious pluralism coercion corruption and post colonial justice receive full consideration in the final section of this indispensable reference work for understandings of global justice in East Asia specifically and cross culturally Symposium ,2002 Michigan Law Review ,2004 *Textbook on Legal Methods, Legal Systems & Research* Tushar Kanti Saha,2010 **Proceedings of the ...
