Global Monitoring Report 2010 World Bank, International Monetary Fund, 2010-05-04 *Global Monitoring Report 2010 The MDGs after the Crisis* examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable

Global Monitoring Report, 2010 International Monetary Fund, 2010-04-22 What is the human cost of the global economic crisis This year's *Global Monitoring Report The MDGs after the Crisis* examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable The impressive precrisis progress in poverty reduction will slow particularly in low income countries in Africa No household in developing countries is immune Gaps will persist to 2020 In 2015 20 million more people in Sub Saharan Africa will be in extreme poverty and 53 million more people globally Even households above the 1 25 a day poverty line in higher income developing countries are coping by buying cheaper food delaying other purchases reducing visits to doctors working longer hours or taking multiple jobs The crisis will also have serious costs on human development indicators 1 2 million more children under age five and 265 000 more infants will die between 2009 and 2015 350 000 more students will not complete primary education in 2015 100 million fewer people will have access to safe drinking water in 2015 because of the crisis History tells us that if we let the recovery slide and allow the crisis to lead to widespread domestic policy failures and institutional breakdowns in poor countries the negative impact on human development outcomes especially on children and women will be disastrous The international financial institutions and international community responded strongly and quickly to the crisis but more is needed to sustain the recovery and regain the momentum in achieving the Millennium Development Goals MDGs Developing countries will also need to implement significant policy reforms and strengthen institutions to improve the efficiency of service delivery in the face of fiscal constraints Unlike previous crises however this one was not caused by domestic policy failure in developing countries So better development outcomes will also hinge on a rapid global economic recovery that improves export conditions terms of trade and affordable capital flows as well as meeting aid commitments to low income countries *Global Monitoring Report 2010* seventh in this annual series is prepared jointly by the World Bank and the International Monetary Fund It provides a development perspective on the global economic crisis and assesses the impact on developing countries their growth poverty reduction and other MDGs Finally it sets out priorities for policy responses both by developing countries and by the international community

Report 2013 World Bank,International Monetary Fund,2013-05-02 Global Monitoring Report GMR 2013 provides an annual assessment of progress towards the Millennium Development Goals MDGs and addresses this year s theme of rural urban dynamics and the MDGs *Global Monitoring Report 2008* World Bank,2008-04-14 Global Monitoring Report 2008 the fifth in an annual series is essential reading for those who wish to follow the global development agenda and debate in 2008 The year marks the midpoint toward the 2015 deadline for achieving the Millennium Development Goals MDGs It is also an important year to work toward a consensus on how the world is going to respond to the challenge of climate change building on the foundation laid at the Bali climate change conference in December 2007 The report spans this agenda It provides a comprehensive assessment of progress toward the MDGs and related policies and actions It addresses the challenge of climate change and environmental sustainability and assesses its implications for development The report s assessment of MDGs at midpoint presents a mixed picture one of both significant progress and formidable challenges The first MDG reducing extreme poverty by half is likely to be met at the global level thanks to a remarkable surge in global economic growth over the past decade But on current trends the human development MDGs are unlikely to be met Prospects are gravest for the goals of reducing child and maternal mortality but shortfalls are also likely in the primary school completion nutrition and sanitation MDGs The potential effects of climate change compound the challenge of achieving the development goals and sustaining progress The report s messages are clear urgent action is needed to help the world get back on track to achieve the MDGs and urgent action is also needed to combat climate change that threatens the well being of all countries but particularly of poor countries and poor people The goals of development and environmental sustainability are closely related and the paths to those goals have important synergies **The Millennium Development Goals and the Road to**

2015 ,2010 This book draws on two of the World Bank s flagship publications the Global Monitoring Report and the World Development Indicators It analyzes the international statistical record and the findings of researchers around the world to report on the progress toward the Millennium Development Goals over the past decade The book s online companion the World Bank eAtlas of the MDGs features worldwide mapping timeline graphing and ranking tables allowing users to map the progress of goals targets and indicators compare data and export and share graphics **Global Monitoring Report, 2007: Confronting the Challenges of Gender Equality and Fragile States** ,2007-04-18 The 2007 Global Monitoring Report on

the Millennium Development Goals MDGs assesses the contributions of developing countries, developed countries and international financial institutions toward meeting universally agreed development commitments. Fourth in a series of annual reports leading up to 2015, this year's report reviews key developments of the past year, emerging priorities and provides a detailed region-by-region picture of performance in the developing regions of the world, drawing on indicators for poverty, education, gender equality, health and other goals. Subtitled *Confronting the Challenges of Gender Equality and Fragile States*, this year's report highlights two key thematic areas: gender equality and empowerment of women, the third MDG, and the special problems of fragile states where extreme poverty is increasingly concentrated. The report, which is jointly issued by the World Bank and the International Monetary Fund, argues that gender equality and the empowerment of women are central to the development agenda. This is because gender equality makes good economic sense and because it helps advance the other development goals, including education, nutrition and reducing child mortality. Rapid progress has been made in some areas, such as achieving educational parity for girls in primary and secondary school in most countries. But in many other dimensions, including political representation and participation in nonagricultural employment, performance still falls short. Better monitoring and efforts at mainstreaming gender equality requires realistic goals, strong leadership, technical expertise and financing.

Did the Millennium Development Goals Work? Manmohan Agarwal, Hany Besada, Leah McMillan Polonenko, 2017-09-20. With the target date for the Millennium Development Goals MDGs behind us, this book asks: did they work? And what happens next? Arguing that to effectively look forward, we must first look back, the editors of this insightful book gather leading scholars and practitioners from a range of backgrounds and regions to provide an in-depth exploration of the MDG project and its impact. Contributors use region-specific case studies to explore the effectiveness of the MDGs in addressing the root causes of poverty, including resource geographies, early childhood development and education, women's rights and disability rights, as well as the impact of the global financial crisis and Arab Spring on MDG attainment. Providing a critical assessment that seeks to inform future policy decisions, the book will be valuable to those working in the development community as well as to academics and students of international development, international relations and development economics.
