## **Global Testing Culture Perceptions Comparative:**

**The Global Testing Culture** William C. Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences

**The SAGE Handbook of Comparative Studies in Education** Larry E. Suter, Emma Smith, Brian D. Denman, 2019-05-27 Educational practices have rapidly changed in the last few decades especially in how exchanges of information and learning are delivered and processed Yet while the field of international comparative studies has grown there has not been an extensive study on the relationship between educational practices students and how practitioners are prepared and trained This handbook explores international educational practices and behaviours through new research and a review of existing research with chapters spread across six parts Part I Introduction to Research Practices in Comparative Studies of Education Part II Research Methods Part III Policy Transfer Research through International Comparisons Part IV Use of Student time in Formal and Informal Settings Part V School Practices from Early Childhood through Secondary School Part VI Conclusion Lessons from Large Scale Studies

*International Handbook of Comparative Large-Scale Studies in Education* Trude Nilsen, Agnes Stancel-Piątak, Jan-Eric Gustafsson, 2022-09-21 This handbook is the first of its kind to provide a general and comprehensive overview of virtually every aspect of International Large Scale Assessment ILSA It includes historical economic and policy perspectives theoretical foundations methodology and reviews of findings from analyses of ILSA data After decades during which ILSAs have

generated knowledge within central areas of education research and gained increased and substantial impact on educational policy practice and research such a broad overview for a wide ranging audience is much needed With contributions from authors and editors from all continents this handbook appeals to an international audience and keeps a neutral perspective not favoring one ILSA over another The handbook is suitable to be read by politicians researchers and stakeholders who are seeking an overview of ILSAs their history and development and both potential benefits and limitations with regard to policy implications The reviews of findings from studies analyzing ILSA data will be of interest to stakeholders teachers researchers and policymakers Considering that the reviews extend to all fields pertaining to educational research the book will be valuable to all researchers interested in education Students may use the book to learn about ILSAs in the context of policy theoretical underpinnings or research Moreover the methodology section is written in a manner that is understandable and accessible for students stakeholders or researchers not familiar with these data This methodology part however is also a valuable resource for researchers who are familiar with ILSA data as it provides overviews of the design and sampling procedures of several ILSAs and includes advice on methods of analysis Even the owners of the ILSAs may find the book valuable as it contains overviews and insights into a number of ILSAs provides information how the data is used by the research community and includes recommendations for future instruments Handbook on Comparative Education

Alexander W. Wiseman, Emily W. Anderson, Lisa Damaschke-Deitrick, Ericka Galegher, Nino Dzotsenidze, Maureen Park, 2025-04-09 Compiling insights from leading scholars across the globe this cutting edge Handbook presents an overview of comparative education It crucially distinguishes the field from other subdisciplines of educational studies addressing key areas of debate within both scholarship and professional practice **Comparing Post-Socialist Transformations** Maia Chankseliani, Iveta Silova, 2018-11-05 This volume revisits the book edited by David Phillips and Michael Kaser in 1992 entitled Education and Economic Change in Eastern Europe and the Former Soviet Union <https://doi.org/10.15730/books.42> Two and a half decades later this volume reflects on how post socialist countries have engaged with what Phillips Kaser called the flush of educational freedom Spanning diverse geopolitical settings that range from Southeast and Central Europe to the Caucasus and Central Asia the chapters in this volume offer analyses of education policies and practices that the countries in this region have pursued since the fall of the Berlin Wall and the dissolution of the Soviet Union This book explores three interrelated questions First it seeks to capture complex reconfigurations of education purposes during post socialist transformations noting the emergence of neoliberal education imaginaries in post socialist spaces and their effects on policy discussions about education quality and equity across the region Second it examines the ongoing tensions inherent in post socialist transformations suggesting that beneath the surface of dominant neoliberal narratives there are always powerful countercurrents ranging from the persisting socialist legacies to other alternative conceptualizations of education futures highlighting the diverse trajectories of post socialist education transformations And finally the book engages with the

question of comparison prompting both the contributing authors and readers to reflect on how research on post socialist education transformations can contribute to rethinking comparative methods in education across space and time *Third International Handbook of Globalisation, Education and Policy Research* Joseph Zajda, 2021-09-17 This handbook presents a global overview of current research in education and education policy reforms during the last decade It provides an accessible practical and comparative source of current research that examines the intersecting and diverse discourses of this important issue It first examines globalisation education and policy research and reforms in higher education including coverage of main trends in education and policy reforms globally as well as specific policy issues such as gender equity minorities and human rights Next the handbook offers a comparative perspective that evaluates the ambivalent and problematic relationship between globalisation the state and education reforms globally It features coverage on curricula issues and education reforms in schools around the world the curriculum in the global culture as well as globalisation and education futures with respect to social justice and human rights The handbook contributes to a better and a more holistic understanding of the education reforms and research nexus offering possible strategies for the effective and pragmatic policy planning and implementation at the local regional and national levels It will serve as a vital sourcebook of ideas for researchers practitioners and policy makers in education Researching Global Education Policy D. Brent Edwards

Jr., Antoni Verger, Marcia McKenzie, Keita Takayama, 2024-07-30 The movement of policy is a core feature of contemporary education reform Many different concepts including policy transfer borrowing and lending travelling diffusion and mobility have been deployed to study how and why policy moves across jurisdictions scales of governance policy sectors or organisations However the underlying theoretical perspectives and the foundational assumptions of different approaches to policy movement remain insufficiently discussed To address this gap this book places front and center questions of theory ontology epistemology and method related to policy movement It explores a wide diversity of approaches to help understand the policy movement phenomena providing a useful guide on global studies in education as well as insights into the future of this dynamic area of work **Grading Goal Four** Antonia Wulff, 2020-04-14 For the third time in three decades world leaders reaffirmed their promise of Education For All when adopting Sustainable Development Goal 4 in 2015 It is the most far reaching commitment to quality and equity in education so far yet there is no consensus on what the agenda means in practice With a decade left until the 2030 deadline Grading Goal Four calls upon the education community to engage more thoughtfully and critically with SDG 4 and related efforts As an ever growing number of actors and initiatives claim to contribute to its achievement it is becoming clear that the ambitious but broad priorities within the goal are vulnerable to cherry picking and misrepresentation placing it at the heart of tensions between instrumentalist and rights based approaches to education This text a critical analysis of SDG 4 provides a framework for examining trends and developments in education globally As the first volume that examines early implementation efforts under SDG 4 Grading Goal Four formulates a critique

along with strategies for moving forward By scrutinising the challenges tensions and power dynamics shaping SDG 4 it advances rights based perspectives and strategies for effective implementation and builds capacity for strengthened monitoring and analysis of the goal

Politics of Education in Latin America Carlos Ornelas, 2019-09-02 Politics of Education in Latin America Reforms Resistance and Persistence portrays complex situations of education change policies in Latin America from Argentina and Chile the southernmost part of the continent to Mexico the northernmost The analyses tour through Brazil Peru Colombia Ecuador El Salvador and Cuba to conclude with a chapter that scrutinizes why the big teacher unions reject most attempts at education reforms In these teachers are the target of criticism and at the same time the focus of the expectations for progress and better educational quality Readers will find a variety of contentious issues such as inclusion equity privatization uses of power and dialectics between the indications of intergovernmental organizations and the rejection of their recommendations by local political actors They will also find narratives to raise public education participation improve the quality of life of teachers and put local education systems to dialogue with the global world The politics of education in Latin America is a territory that groups and institutions continue to dispute since the establishment of their education systems

*User Perception and Influencing Factors of Technology in Everyday Life* Mesquita, Anabela, 2012-08-31 An increasing amount of research is being developed in the area where technology and humans meet The success or failure of technologies and the question whether technology helps humans to fulfill their goals or whether it hinders them is in most cases not a technical one User Perception and Influencing Factors of Technology in Everyday Life addresses issues of human and technology interaction The research in this work is interdisciplinary ranging from more technical subjects such as computer science engineering and information systems to non technical descriptions of technology and human interaction from the point of view of sociology or philosophy This book is perfect for academics researchers and professionals alike as it presents a set of theories that allow us to understand the interaction of technology and humans and to put it to practical use

**Critical Analyses of Educational Reforms in an Era of Transnational Governance** Elisabeth Hultqvist, Sverker Lindblad, Thomas S. Popkewitz, 2017-10-20 This book represents a set of critical analyses of educational reforms where issues of transnational governance are of vital concern It focuses on different aspects of and practices in educational reform making and in particular on governing techniques and the working of new agencies such as supranational and multinational organizations In addition the book examines contemporary issues of immigration immigrants in the politics of schooling by reflecting on matters of migration and problematizing how concepts such as exclusion and abjection make the migrants appear failed insufficient and even dangerous The book provides theoretical insights into critical relations between knowledge and power governance and governmentality and notions concerning educational systems as well as how these are compared The central themes of the book are models for organizing and reflecting on transnationalization and educational reforms In its discussion of those themes the focus lies on changing conceptions of

education and the educational system on how school or teacher education is adapting to discourses of effectiveness and efficiency and on their transformation according to standardized templates Such changing conceptions define the meanings of education and educational progress they are important for the identification and analysis of educational knowledge and for critical discourses on education in society
