Sul s history of the international ginseng trade reveals the cultural aspects of international capitalism and the impact of this single commodity on relations between the East and the West Ginseng emerged as a major international commodity in the seventeenth century when the East India Company began trading it westward Europeans were drawn to the plant s efficacy as a medicine but their attempts to transplant it for mass production were unsuccessful Also due to a failure of extracting its active ingredients Western pharmacology disparaged ginseng in the process of modernization In the meantime ginseng was discovered on the American continent and became one of the United States key exports to Asia and particularly China but never cultivated a significant domestic market As such historicizing the ginseng trade provides a unique perspective on the impact of both culture and economics on international trade A compelling interdisciplinary history of over five centuries of East West trade and cultural exchange this book will be invaluable to students and scholars of transnational history and a fascinating read for anyone interested in the history of international trade Circuits, Packets, and Protocols James L.

Pelkey,Andrew L. Russell,Loring G. Robbins,2022-04-19 As recently as 1968 computer scientists were uncertain how best to interconnect even two computers The notion that within a few decades the challenge would be how to interconnect millions of computers around the globe was too far fetched to contemplate Yet by 1988 that is precisely what was happening The products and devices developed in the intervening years such as modems multiplexers local area networks and routers became the linchpins of the global digital society How did such revolutionary innovation occur This book tells the story of the entrepreneurs who were able to harness and join two factors the energy of computer science researchers supported by governments and universities and the tremendous commercial demand for Internetworking computers The centerpiece of this history comes from unpublished interviews from the late 1980s with over 80 computing industry pioneers including Paul Baran J C R Licklider Vint Cerf Robert Kahn Larry Roberts and Robert Metcalfe These individuals give us unique insights into the creation of multi billion dollar markets for computer communications equipment and they reveal how entrepreneurs struggled with failure uncertainty and the limits of knowledge *AP U.S. History Prep Plus 2018-2019* Kaplan Test
