How the World Allowed Hitler to Proceed with the Holocaust Tony Matthews,2021-11-24 In July 1938 the United States Great Britain and thirty other countries participated in a vital conference at vian les Bains France to discuss the persecution and possible emigration of the European Jews specifically those caught under the anvil of Nazi atrocities However most of those nations rejected the pleas then being made by the Jewish communities thus condemning them to the Holocaust There is no doubt that the vian conference was a critical turning point in world history The disastrous outcome of the conference set the stage for the murder of six million people Today we live in a world defined by turmoil with a disturbing rise of authoritarian governments and ultra right wing nationalism The plight of refugees is once more powerfully affecting public attitudes towards those most in need Now on the 76th anniversary of the liberation of Auschwitz and the end of the Second World War it s time to reflect on the past to ensure we never again make the same mistakes This book also shines a spotlight on some of the astonishing and courageous stories of heroic efforts of individuals and private organizations who despite the decisions made at vian worked under extremely dangerous conditions frequently giving their own lives to assist in the rescue of the Jewish people

Encyclopedia of the African Diaspora Carole Boyce Davies,2008-07-29 The authoritative source for information on the people places and events of the African Diaspora spanning five continents and five centuries The field

of African Diaspora studies is rapidly growing Until now there was no single authoritative source for information on this broad complex discipline Drawing on the work of over 300 scholars this encyclopedia fills that void Now the researcher from high school level up can go to a single reference for information on the historical political economic and cultural relations between people of African descent and the rest of the world community Five hundred years of relocation and dislocation of assimilation and separation have produced a rich tapestry of history and culture into which are woven people places and events This authoritative accessible work picks out the strands of the tapestry telling the story of diverse peoples separated by time and distance but retaining a commonality of origin and experience Organized in A Z sections covering global topics country of origin and destination country the work is designed for easy use by all *Nature* Sir Norman Lockyer,1923
