Globalization And Islamism Beyond Fundamentalism:

Globalization and Islamism Nevzat Soguk, 2010-10-16 Tensions between the West and the Islamic world have reached an all time high fueled by caricatures and misunderstandings on both sides In contrast as Nevzat Soguk shows actual histories reveal profound connections across Islamic and Western civilizations Moving beyond the usual focus on Wahhabi fundamentalism Soguk highlights the often overlooked non Arab forms of Islam in Turkey and in Indonesia which holds the world s largest population of Muslims He argues that Westerners tend to see only an extremist form of Islam which obscures the political and cultural pluralism supported within majority Islamic countries around the world This book taps into the nexus of tension born of the fear and terror engendered by Wahabi movements on one hand and the promise of a tolerant pluralist Islamic religiosity in Turkey and Indonesia on the other It examines the multiple historical political and religious legacies in Turkey and Indonesia in light of the rapid globalization they are experiencing By focusing on these two countries the author fills a significant void on the diverse role Islam is poised to play in shaping regional and global political futures Original timely and humane this book will be essential reading for all those concerned about repairing Western Islamic relations

Rethinking Islamism beyond jihadi violence Elisa

Orofino,2023-05-23 For several years now Islamism has been associated with jihadism and violent extremism both in academia and in contemporary political debates However this association can be misleading Islamism has much deeper roots than jihadi terrorism and it stands as a powerful and complex ideology inspiring thoughts actions and groups all over the world Emerging as a protest for justice ideology claiming freedom against Western colonisation of the Muslim world Islamism has triggered both individuals and groups worldwide since the early 1900s Almost as a sacred ideology based on the need to revive Islam as the only saving grace for Muslims around the world Islamism started to be widely associated with jihadism after 9 11 Before then Islamism was not automatically related to terrorism but to resistance Given that terrorists are only a small and definite portion of Islamists this volume aims to re focus research on Islamism beyond jihadism by collecting relevant contributions on Islamist but non violent organisations More precisely this volume innovatively contributes to current academic debates by exploring the origins of Islamism and the differences between jihadism the evolution of Islamism over time and places and the role played by the most influential non jihadist Islamist organisations active today as powerful non state actors

Islam in the Age of Globalization Asif Mohiuddin,2024-11-29 Globalization has been a central theme in political economic cultural and religious debates since the turn of the century While some see it as a solution others consider it the root of our problems The intensification of cultural and military warfare and the West v the Rest mentality fuels a deep seated ethnocentrism Religion meanwhile faces scrutiny from various fundamentalisms and grand narratives Many modern Muslim thinkers are skeptical of globalization perceiving it as a homogenizing force that spreads Western culture and concentrates power among a few nations They argue that Islam promotes human oneness and provides an intellectual and spiritual framework for a more civilized and universal approach to globalization opposing the Western centric hegemonic tendencies The goal of this book is to demonstrate that Islam favors globalization in its original voluntary form as opposed to the violent imposition of the West on the East It will examine Muslim responses to globalization and their attempts to find global answers to local problems in their own local regional national and global contexts Several academic works have explored various aspects of globalization focusing on tensions and conflicts such as power politics religious authority and legislative issues However there is a notable absence of attention given to the Islamic perspective on globalization including both appreciation and critique This book addresses this gap by offering not only a Muslim critique of globalization but also a broader framework for understanding Islam s unique perspective on globalization Does globalization support the inclusivity that Islam advocates How does Islam fit into the globalization era What impact and influence may Muslims have on the future of globalization What unique prospects does globalization provide Muslims and the Islamic faith Is Islamic revivalism a reaction to globalization Alternatives to globalization could exist What kind of structure will the Islamic globalization paradigm have In addition to addressing these questions the book attempts to provide a theoretical framework for Islamic globalization which incorporates the shuratic practice and the vision of an international community

extending beyond the Arabs and non Arabs This underscores the importance of historical contexts for contemporary actions and beliefs In the process the book attempts to extend the debate on Islam and globalization by mapping out the effects of globalization on various aspects of Muslim culture Islamism, Arab Spring, and the Future of Democracy Leonid

Grinin, Andrey Korotayev, Arno Tausch, 2018-09-26 This book provides an in depth analysis of public opinion patterns among Muslims particularly in the Arab world On the basis of data from the World Values Survey the Arab Barometer Project and the Arab Opinion Index it compares the dynamics of Muslim opinion structures with global publics and arrives at social scientific predictions of value changes in the region Using country factor scores from a variety of surveys it also develops composite indices of support for democracy and a liberal society on a global level and in the Muslim world and analyzes a multivariate model of opinion structures in the Arab world based on over 40 variables from 12 countries in the Arab League and covering 67% of the total population of the Arab countries While being optimistic about the general long term trend towards democracy and the resilience of Arab and Muslim civil society to Islamism the book also highlights anti Semitic trends in the region and discusses them in the larger context of xenophobia in traditional societies In light of the current global confrontation with radical Islamism this book provides vital material for policy planners academics and think tanks alike

Muslim Democracy Edward Schneier, 2015-10-23 Muslim Democracy explores the relationship between politics and religion in forty seven Muslim majority countries focusing especially on those with democratic experience such as Indonesia and Turkey and drawing comparisons with their regional non Islamic counterparts Unlike most studies of political Islam this is a politically focused book more concerned with governing realities than ideology By changing the terms of the debate from theology to politics and including the full complement of Islamic countries Schneier shows that the boundaries between church and state in the Islamic world are more variable and diverse than is commonly assumed Through case studies and statistical comparisons between Muslim majority countries and their regional counterparts Muslim Democracy shows that countries with different religions but similar histories are not markedly different in their levels of democratization What many Islamists and western observers call Islamic law moreover is more a political than a religious construct with religion more the tool than the engine of politics Women who drive in Saudi Arabia as the author says are not warned they will go to hell but that they will go to jail With the political salience of religion rising in many countries this book is essential reading for students of comparative politics religion and democratization interested in exploring the shifting boundaries between faith and politics

The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the

works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

Islam and Good Governance M. A. Muqtedar Khan, 2019-04-08 This book advances an Islamic political philosophy based on the concept of Ihsan which means to do beautiful things The author moves beyond the dominant model of Islamic governance advanced by modern day Islamists The political philosophy of Ihsan privileges process over structure deeds over identity love over law and mercy and forgiveness over retribution The work invites Muslims to move away from thinking about the form of Islamic government and to strive to create a self critical society that defends national virtue and generates institutions and practices that provide good governance

Global Insurrectional Politics Nevzat Soguk, 2018-03-08 The recent Arab uprisings across North Africa and the Middle East have attracted scholarly attention as popular movements with novel transnational and religious dimensions What became known as the Arab Spring can be read as part of a broader politics of normative defiance of predominant political and economic orders From religious militations to Indigenous sovereign claims to mobilizations of refugees and migrants in camps and urban settings it may be possible to speak more generally of contemporary insurrectional politics as social movements that emanate from normative positions that pose significant challenges to systemic orders as we know them The purpose of this book is a to identify the material shifts giving rise to insurrectional politics b to reflect on key arenas of insurrection c to map chart the impact of insurrectional movements on institutions and relations of political governance at national and global levels and d to explore analytics that will advance theorization of insurrectional politics The book aims to generate new knowledge on systemic institutional transformations spanning the national and global by bringing together scholars whose work combines theoretical inquiry with empirical analysis of contemporary insurrectional politics This title was previously published as a special issue of Globalizations

Globalisms Manfred B. Steger, 2019-09-27 Rather than reaching the end of ideology predicted only three decades ago we find ourselves

in the throes of an intensifying ideological struggle over the meaning and direction of globalization. Noted scholar Manfred B. Steger introduces readers to the clashing political belief systems of our time: market globalism, justice globalism, and religious globalism. He shows how these globalisms have developed and how their competing ideas articulate and legitimize particular political agendas. He focuses especially on the ways this battle of ideas has been extended through the unexpectedly powerful surge of antiglobalist populism, an ideological contender that stands in tension to pluralist values of liberal democracy.

Explaining the origins, impacts, and consequences of the recent populist challenge, Steger considers the future prospects for the established globalisms in what promises to be a tumultuous decade as global problems such as climate change, pandemics, transnational terrorism, financial crises, and cyber warfare threaten humanity's collective future. *Critical Muslim 1*

As Strong as the Mountains Robert L. Brenneman, 2016-01-20 The Kurds are the largest ethnic group in the world without their own homeland, numbering over 30 million people divided among Turkey, Iran, Iraq, and Syria. Originating as rural nomads living in the mountains, the Kurds have transformed into an urban entity within the Middle East. Brenneman, who has lived and conducted long-term fieldwork among the Kurds in Iraq and Turkey, presents a rich arc of their culture and experiences from ancient to modern times. The latest edition incorporates original and updated accounts of core and changing aspects of contemporary Kurdish culture, including human rights challenges, complicated ethnic identity, women's roles, and gender issues, family and community dynamics, diverse religious practices, transition from oral tradition to literacy, and struggles to defeat the Islamic State. Questions for discussion at the end of each chapter encourage readers to think deeply about what it means to be a proud ethnic group fighting for sovereignty and recognition. The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people's will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law

Theocracy, Secularism,

and Islam in Turkey Christopher Houston, 2021-08-12 In this novel and lucid work Christopher Houston clarifies a particular modern style and practice of politics that he calls anthropocracy In the name of popular sovereignty anthropocracies de legitimize the rule of God s even as they re deploy it to stabilize the rule of the representatives of the people all the while obfuscating their political conscription of the divine In distinguishing anthropocracy from varieties of other secular and laicist political arrangements as well as from theocracy this book also gives readers a brilliant solution to what it calls the Turkish puzzle the dilemma over how to best describe and analyze state religion and state society relations in the Turkish Republic This work convincingly undermines two orthodox presumptions about Turkish politics the claim that Turkish modernity should be considered an example of secularity and the accusation that the current AKP government should be interpreted as Islamic On the contrary it argues that both Kemalism and the AKP continue to institute an anthropocratic Republic

Precarity and International Relations Ritu Vij, Tahseen Kazi, Elisa Wynne-Hughes, 2020-10-05 This book addresses the implications of current thinking on precarity precariousness and the precariat for the study of International Relations and International Political Economy Drawing on a broad range of critical theoretical resources including literatures on aesthetics and psychoanalysis as well as feminist Foucauldian Marxian and postcolonial social theory it explores the implications of precarity thought for three concepts Sovereignty Solidarities and Work in International Relations Does precarity re inscribe or undermine the logic and practices of sovereignty As a common condition and point of mobilization does precarity represent a new labor activism or does it find ethical grounds for solidarities that destabilize identities How is precarity located practiced and occluded in work relations Running counter to the contemporary impulse to grasp precarity and processes of its proliferation in homogenized terms as either being ensconced in national imaginaries or as ushering in a condition of global precarity and a global precariat class the book also underscores the entanglements of the global national and local in the discursive and material production of precarity and precariousness in the present conjuncture
