Globalization And The National Security State:

Globalization and the National Security State Norrin M. Ripsman, T.V. Paul, 2010-03-18 In the past two decades many have posited a correlation between the spread of globalization and the decline of the nation state In the realm of national security advocates of the globalization thesis have argued that states power has diminished relative to transnational governmental institutions NGOs and transnational capitalism Initially they pointed to declines in both global military spending which has risen dramatically in recent years and interstate war But are these trends really indicative of the decline of nation state s role as a guarantor of national security In *Globalization and the National Security State* T V Paul and Norrin M Ripsman test the proposition against the available evidence and find that the globalization school has largely gotten it wrong The decline in interstate warfare can largely be attributed to the end of the Cold War not globalization Moreover great powers the US China and Russia continue to pursue traditional nation state strategies Regional security arrangements like the EU and ASEAN have not achieved much and weak states the ones most impacted by the turmoil generated by globalization are far more traditional in their approaches to national security preferring to rely on their own resources rather than those of regional and transnational institutions This is a bold argument and Paul and Ripsman amass a considerable amount of evidence for their claims It cuts against a major movement in international relations scholarship and is sure to generate controversy

National Security Drivers of Ukraine Oleksandr

Radchenko, Valeriia Kovach, Inna Semenets-Orlova, Artur Zaporozhets, 2023-09-07 This volume presents the key informational communication and socio political drivers of the Ukrainian state's national security. Since the beginning of the third millennium there has been an aggravation of global inter civilizational confrontations which in 2022 has already resulted in an open military aggression against Ukraine. The hybrid wars against the world of democracy have put ensuring the national security of states on the front pages of world and national agendas. Using the example of Ukraine the book demonstrates how in order to achieve their geopolitical interests authoritarian regimes incite information wars as a prerequisite for the transition to an armed hot war. It further shows how these processes actualize the formation of a fundamentally new state policy to ensure information and more broadly national security. The book identifies the main threats to national security in modern states and identifies ways of protecting Ukraine's national interests. The book will appeal to scholars, students and researchers of political science, international relations, social sciences and neighboring disciplines as well as practitioners and policy makers interested in a better understanding of national security drivers and protecting national interests.

Pakistan's National Security Approach and Post-Cold War Security Arshad Ali, 2021-03-30

This book analyzes the paradox that despite being a national security state Pakistan has become even more insecure in the post Cold War era. It provides an in depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security proxy wars and the hyper military industrial complex the author illustrates how the vanguard role of the military created considerable structural sociopolitical, economic and security problems in Pakistan. Furthermore the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security and Cold War Studies.
