Cambridge Handbook Of Strategy As Practice:

Cambridge Handbook of Strategy as Practice Damon Golsorkhi, Linda Rouleau, David Seidl, Eero Vaara, 2010-08-26
The Cambridge Handbook of Strategy as Practice provides a comprehensive overview of an emerging and growing stream of research in strategic management. An international team of scholars has been assembled to produce a systematic introduction to the various epistemological, methodological, and theoretical aspects of the strategy as practice approach. This perspective explores and explains the contribution that strategizing makes to daily operations at all levels of an organization. Moving away from a disembodied and asocial study of firm assets, technologies, and practices, the strategy as practice approach breaks down many of the traditional paradigmatic boundaries in strategy to investigate who the strategists are, what strategists do, how they do it, and what the consequences or outcomes of their actions are. Including a number of detailed empirical studies, the handbook will be an essential guide for future research in this vibrant field. **Cambridge**

Cambridge Handbook of Strategy as Practice Damon Golsorkhi, Linda Rouleau, David Seidl, Eero Vaara, 2024-08-31
Now in its third edition, this Handbook is essential for students and researchers in Strategic Management and Organizational Theory and Behaviour. The Strategy as Practice approach moves away from the disembodied and asocial study of firm assets, technologies, and practices towards the study of strategizing as an activity. Strategy is understood as something people do rather than something a firm has. This perspective explores how strategizing contributes to an organization's daily operations at all levels. Through detailed empirical studies of the everyday activities and practice of people engaged in strategizing, the Handbook investigates who strategists are, what strategists do, how they do it, and what the consequences of their actions are. Featuring new authors and additional or fundamentally updated and revised chapters, this edition provides a state-of-the-art overview of recent reflections and works in this rapidly growing stream of strategic management whilst also presenting a research agenda for the next decade. Leadership-as-Practice Joseph A. Raelin, 2016-01-29 This book develops a new paradigm in the field of leadership studies referred to as the leadership as practice L A P movement Its essence is its conception of leadership as occurring as a practice rather than residing in the traits or behaviours of particular individuals A practice is a coordinative effort among participants who choose through their own rules to achieve a distinctive outcome It also tends to encompass routines as well as problem solving or coping skills often tacit that are shared by a community Accordingly leadership as practice is less about what one person thinks or does and more about what people may accomplish together It is thus concerned with how leadership emerges and unfolds through day to day experience The social and material contingencies impacting the leadership constellation the people who are effecting leadership at any given time do not reside outside of leadership but are very much embedded within it To find leadership then we must look to the practice within which it is occurring The leadership as practice approach resonates with a number of closely related traditions such as collective shared distributed and relational leadership that converge on leadership processes These approaches share a line of inquiry that acknowledges leadership as a social phenomenon The new focus opens up a plethora of research opportunities encouraging the study of social processes beyond influence such as intersubjective agency shared sense making dialogue and co construction of responsibilities

Strategic communication encompasses all communication that is substantial for the survival and sustained success of entities like corporations, governments, non-profits, social movements, and celebrities. A major aspect of the field is the purposeful use of communication by an organization to engage in conversations of strategic significance to its goals. The contributions in this book provide unique insights, make compelling arguments, and highlight promising areas of scholarship in strategic communication.
