Constipation Nation Carmen Fong, MD, 2024-11-05 A definitive guide to the science and history of constipation across the nation. Most Americans have had constipation symptoms at some point in their lives. Statistics show up to 30% of Americans are affected with chronic constipation. This number reaches 60% as we age. At any given time up to 100 million people in the United States experience constipation. During the pandemic, constipation and its related anorectal issues worsened because everyone was sitting at home. Constipation has affected humans throughout history. Some called it civilization's curse. Dr. John Harvey Kellogg, yes of Kellogg's cereal fame, promoted cold cereal as a constipation cure. Today we have more probiotics and diets than you can shake your tushy at, and social media has popularized the Blue Poop Challenge to diagnose gut health. But what does it all mean? After seeing thousands of patients in her practice as a colorectal surgeon, Dr. Fong realized that she was repeating the same information sometimes twenty times a day. Yet this information was not common knowledge. What was found on the Internet was confusing and conflicting, leaving people who Googled their symptoms with more questions than answers. As an academic clinician who has written peer-reviewed publications, Dr. Fong sought information beyond even what the medical textbooks taught her. *Constipation Nation* helps readers who would rather research information themselves before seeing a healthcare professional to troubleshoot their poop chute. Drawing from 200 evidence-based sources as well as historical texts, Dr. Fong addresses all aspects of constipation, combining medicine, physiology, anatomy, microbiology, nutrition, history, and social sciences to get to the bottom of it all to explain why we doo and why we don't.

Now I Can Die in Peace Bill Simmons, 2009-03-24 NEW YORK TIMES BESTSELLER Bill Simmons replays the years leading up to the Boston Red Sox historic championship season and says goodbye to a lifetime of suffering. At least for now. The Red Sox won the World Series. To Citizen No. 1 of Red Sox Nation, those seven words meant: No more 1918 chants. No more smug glances from Yankee fans. No more worrying about living an entire life that's 80 years followed by death without seeing the Red Sox win a Series. But once he was able to type those life-changing words, Bill Simmons decided to look back at his *Sports Guy* columns for the last five years to find out how the miracle came to pass. And that's where the trouble began. Why didn't he see it coming? Why didn't it happen sooner? What was the key deal, the lucky move, the funny bounce, the sign from above that he failed to spot? Pretty soon, *The Sports Guy* was second-guessing himself, rewriting history, sniping at his own past predictions, pounding the table that's what sports guys do.

right And doing so he let himself get sidetracked by the suffering of the Boston Bruins frustrated by the false promise of the Celtics and driven into a state of ecstasy by the dynastic New England Patriots The result is *Now I Can Die in Peace* a hilarious and fresh new look at some of the best sportswriting in America with sharp critical commentary and fresh insights from the guy who wrote it in the first place *Quirk* Hannah Holmes,2011-02-22 Who are you It s the most fundamental of human questions Are you the type of person who tilts at windmills or the one who prefers to view them from the comfort of an air conditioned motorcoach Our personalities are endlessly fascinating not just to ourselves but also to our spouses our parents our children our co workers our neighbors As a highly social species humans have to navigate among an astonishing variety of personalities But how did all these different permutations come about And what purpose do they serve With her trademark wit and sly humor Hannah Holmes takes readers into the amazing world of personality and modern brain science Using the Five Factor Model which slices temperaments into the major factors Extraversion Neuroticism Agreeableness Conscientiousness and Openness and minor facets such as impulsive artistic or cautious Holmes demonstrates how our genes and brains dictate which factors and facets each of us displays Are you a Nervous Nelly Your amygdala is probably calling the shots Hyperactive Hal It s all about the dopamine Each facet took root deep in the evolution of life on Earth with Nature allowing enough personal variation to see a species through good times and bad Just as there are introverted and extroverted people there are introverted and extroverted mice and even starfish In fact the personality genes we share with mice make them invaluable models for the study of disorders like depression schizophrenia and anxiety Thus it is deep and ancient biases that guide your dealings with a very modern world Your personality helps to determine the political party you support the car you drive the way you eat M Ms and the likelihood that you ll cheat on your spouse Drawing on data from top research laboratories the lives of her eccentric friends the conflicts that plague her own household and even the habits of her two pet mice Hannah Holmes summarizes the factors that shape you And what she proves is that it does take all kinds Even the most irksome and trying personality you ve ever encountered contributes to the diversity of our species And diversity is the key to our survival *From the Moon, I Come in Peace* Paul Nelson,2023-03-03 Marcus is a young autistic man living with his father He faces many challenges as he begins his adult life in a world of non acceptance bigotry friendship love loss and great challenges in trying to fit into the workplace His adventures are full of laughter sadness and a touch of romance Marcus and his father share a rare bond It is the bond known by many disabled people and their caregivers This bond is also a key character in the story It is a balance of great strength and fragility wrapped in love Few people ever experience this type of bond Come and experience it with Marcus in *From the Moon I Come in Peace* *Homer in the Clutch* Brad Bauer,2007-04 It is a dark time for Jack Clutch Thompson After the release of his first book *Hitting in the Clutch* his cool and trusted friends have abandoned him Although cheered by the fans and media for his brutal honest writings about baseball he has angered his former friends and teammates for giving away too much information about what happens behind closed
