Ebook Oriental Interiors Design Identity Space:

Oriental Interiors John Potvin, 2015-12-17 Since the publication of Edward Said's groundbreaking work *Orientalism* 35 years ago numerous studies have explored the West's fraught and enduring fascination with the so-called Orient. Focusing their critical attention on the literary and pictorial arts, these studies have to date largely neglected the world of interior design. *Oriental Interiors* is the first book to fully explore the formation and perception of eastern-inspired interiors from an orientalist perspective. Orientalist spaces in the West have taken numerous forms since the 18th century to the present day and the fifteen chapters in this collection reflect that diversity, dealing with subjects as varied and engaging as harems, Turkish baths on the RMS Titanic, Parisian bachelor quarters, potted palms, and contemporary yoga studios. It explores how furnishings, surface treatments, ornament, and music, for example, are deployed to enhance the exoticism and pleasures of oriental spaces, looking across a range of international locations. Organized into three parts, each introduced by the editor, the essays are grouped by theme to highlight critical paths into the intersections between orientalist studies, spatial theory, design studies, visual culture, and gender studies, making this essential reading for students and researchers alike. *Arts & Humanities Citation Index*, 1997

Show Flat Design Express Page one, 2009 It wasn't till several years ago that the idea of returning to nature overwhelmed society. As the world progressed, the demand for better interior design increases. It is no more European or American splendour, nor is it traditional designs that take precedence in today's interior designs. Instead, there is a heightened demand to fuse these unique elements and to recreate spaces that emphasise togetherness. The interaction of space hence becomes an important aspect in conceptualisation. Showflats are artificially conceived spaces built to evoke inspiration for interior design. At the same time, it takes a confidential peep at others' perfect private room by looking at the showflat as the reference of their lives. This book is a collection of showflats around Asia, curated by renowned interior architects Flora Lau of Flora Lau Design Co. Ltd, Danfu Liu of Pinky Interior Design Consultancy Ltd, and Chen Wing of UCSGROUP Interior Design Architects Co. Ltd. Expect a showcase of professionally photographed spaces accompanied by detailed explanations of elements involved in the oriental designs of over 20 showflats. *In the Oriental Style* Michael Freeman, Sian Evans, Mimi Lipton, 1990-01-01 From the airy openness of Thai design to the efficient use of space in Japanese dwellings, the authors consider the elements of Oriental design both in their indigenous settings and in the ways they can be adapted for Western interiors. Over 300 photographs.

Educational and Cultural Spaces Weixin Chen, 2019-07 The book covers interior design for cultural, educational, and exhibition spaces in China, which can be seen as a reflection of the efforts and progress of Chinese interior designers in recent years. China, like an old country with a history of thousands of years, is now presenting a trend of internationalisation in design styles, but you can often identify clues indicating influences from the oriental world. The book, as a collection of 25 projects including kindergartens, bookstores, libraries, museums, and galleries, tells stories about the design process as well as about the current trends in interior design in the cultural field in China.

Design Express, 2012 This book presents a fine collection of more than 30 projects which are examples of the Oriental style of home interior design Commercial Display Spaces Weixin Chen, 2019-07 A collection of 25 interior design projects focusing on commercial display space in contemporary China divided into four categories furniture furnishings real estate sales centres fashion shops and culture and art Here you will find the aesthetic of Zen art inspiration from nature subtle treatments on tonality and materiality and use of avant garde technologies that help realise the integration of traditional Chinese design and Western styles and establish a new cultural identity Chinese traditional elements are used to create poetic or romantic spaces required in each project Colour schemes and plays of light and shadow are particularly explored in the proposals included here *In the Oriental Style* Michael Freeman, Sian Evans, Mimi Lipton, 2001-01-01 **Exotic Taste** Emmanuelle Gaillard, 2011-10-01 Exuberant Chinese inspired drawing rooms Persian style boudoirs bulbous Mogul domes and Turkish smoking rooms were once the rage in avant garde circles and are undergoing a resurgence in popularity today as the global economy brings attention to the styles of the Far East India and the Islamic world Emmanuelle Gaillard and Marc Walter's lavish new book traces the Asian sources of this fashion and its transformation in late 19th and early 20th century Western settings Illustrated with extraordinary vintage and contemporary interior photography fabrics wallpapers patterns decorative objects and costumes this volume tours the houses of writers thinkers business tycoons princesses and even the Russian empress Catherine the Great Exotic Taste is a rich treat for anyone drawn to the fantastic elaborate style of Orientalism Praise for Exotic Taste Beginning in the 18th century European tastemakers chafing under the constraints of classicism turned to the exotic East swooning over the intricate patterns and scenes and lush sensual colors found in the arts of China Japan India and the Arabic world Exotic Taste Orientalist Interiors examines the craze for all things Eastern that resulted in such anomalies as English country houses with onion domes and the tiled fantasia complete with trickling fountain and pool that the Victorian painter Lord Leighton built in his London home Elle Decor The lengths that collectors will go to the money and legwork they will sink into exotic antiques completely unrelated to their daily lives can make for transporting reading One of the year's five best books in the genre Exotic Taste makes particularly good holiday reading because of Ms Gaillard's descriptions of jolly multicultural parties and intense shopping sprees The New York Times From Chinese inspired drawing rooms and Persian style boudoirs to graceful Mogul domes and Turkish smoking rooms stylistic influences from the Far East India and the Islamic world have inspired Western architects artists and designers for nearly 400 years Dripping with exotic colors and tiles this sumptuous tome is a history lesson and design book packed into one Detroit News In Exotic Taste Emmanuelle Gaillard and Marc Walter appeal to those interested in collecting design architecture and art history and take readers on an artistically historical journey by illustrating through more than 200 images the development of Orientalism through the 19th and 20th centuries Newsday Exotic Taste Orientalist Interiors is a sumptuous look at how decorative styles from the Far East India and the Islamic world found their way to the west Houston
