Economic Growth Poverty And Household Welfare In Vietnam Regional And Sectoral Studies:

Economic Growth, Poverty, and Household Welfare in Vietnam Paul Glewwe, Nisha Agrawal, David Dollar, 2004-01-01 With the adoption of new market oriented policies Vietnam has transformed itself from one of the world's poorest countries during the 1980s into an economy with one of the highest growth rates during the 1990s Using macroeconomic and household survey data this publication examines a range of issues including the causes of Vietnam's economic growth and future prospects the impact on household welfare and poverty levels school enrolment child health and other socioeconomic outcomes and the nature of poverty in Vietnam and the effectiveness of government policies for poverty reduction drawing lessons for Vietnam and for other low income developing countries

Economic Growth and Poverty Reduction in Viet Nam Arsenio M. Balisacan, 2011-04 Viet Nam's dramatic transition and growth in the 1990s have been attributed to a series of reforms known as doi moi which began in the late 1980s Economic growth of nearly 8% yearly benefited the poor and reduced poverty from 61% in 1993 to 37% in 1998 The proportionate increases in the incomes of the poorest quintile were appreciably larger than those of the top 20 or 40% of the population This result is at variance with typical findings for other countries which indicate that welfare gains from growth are smallest for the lowest quintile and rise with income group The results for Viet Nam suggest that the faster the growth rate the lesser becomes the role of distributive factors that directly influence the poor's well being A print on demand report

Why Poverty Persists Bob Baulch, 2011 Why Poverty Persists significantly advances our understanding of the temporal dimensions of poverty Its judicious mix of new evidence and improved methods offers new insights into why some people remain mired in poverty and the forces that keep them there All those interested in combating poverty academics donors and those working in the non governmental organizations will learn from the carefully constructed African and Asian case studies presented John Hoddinott International Food Policy Research Institute Washington DC US Ten years ago Bob Baulch and John Hoddinott drew our attention to the phenomenon of poverty dynamics an insight into the unpredictability of poor peoples livelihoods that had profound implications for poverty thinking and policy forcing a rethink of static conceptualisations and measurement and raising challenges for targeting anti poverty programmes In this new volume Baulch and colleagues enrich this understanding with rigorous analysis of panel datasets from six countries in Africa and Asia Most impressively this illuminating collection by technical microeconomometricians is equally accessible to non technical readers which effectively communicates its important messages to development policy makers and practitioners Stephen Devereux University of Sussex UK This volume on poverty dynamics in developing countries whose authors include the leaders in this field is a must for analysts and research students It advances the literature by addressing three important issues measurement error attrition and tracking For each of these questions the volume leads by example showing how they can be handled in specific cases The results show that escape from poverty is a diverse phenomenon and establish the importance of country and context specificity The volume provide an analytical

platform for careful policy assessment of policy alternatives Ravi Kanbur Cornell University US At the beginning of the 2000 2010 decade Bob Baulch with John Hoddinott was setting the micro econometric agenda on poverty dynamics and chronic poverty and producing work that non economists had to read if they wanted to conduct serious research on these issues In this volume though his analytical excellence the pursuit and methodological rigour extraordinary energy and his ability to lead such a distinguished network of colleagues Bob Baulch has set the research agenda on poverty dynamics and chronic poverty for the next ten years From the foreword by David Hulme University of Manchester UK

Household Welfare and Vietnam's Transition David Dollar, Paul Glewwe, Jennie Ilene Litvack, 1998-01-01 Vietnam's rapid growth has transformed the country reducing poverty from about 75 percent of the population to about 50 percent At the same time its transition from a planned to a market economy has created new challenges for public policy in a wide range of areas This volume explores issues such as which macroeconomic and structural reforms led to growth what effect reform has had on the household economy and how the transition has affected education health fertility and child nutrition It provides an analysis of economic and social policies and shows how micro level data can be used to analyze the likely effect of different government expenditures and activities It also focuses on the effect different policies have on the poor and challenges stereotypes about poverty focused expenditures

A Micro- Decomposition Analysis of the Macroeconomic Determinants of Human Development Dominique Van de Walle, Poverty, Growth and Institutions in Developing Asia E. Pernia, A. Deolalikar, 2003-10-07 The theme of this book is that economic growth is key but institutions and other national and subnational attributes matter as well They are critical to explaining differences in social development and poverty reduction across countries and subnational areas that cannot be accounted for by growth alone The book concludes that a more complete strategy needs to consider various institutional factors at the national and subnational levels to achieve rapid and sustained poverty reduction Indeed paying attention to these factors will benefit both growth and poverty reduction

The Asian 'Poverty Miracle' Jacques Silber, Guanghua Wan, 2016-09-30 Following rapid economic growth in recent decades Asia and the Pacific experienced an impressive reduction in extreme poverty but this drop was not uniform and achievements are still incomplete Vulnerability to natural disasters the increasing impact of climate change and economic crises should all be taken into account There is also a need to consider the multidimensional nature of poverty and the non uniformity of the decrease across different ethnic groups This book explores the Asian poverty miracle and argues for the development and use of an Asia specific poverty line

The World Bank Research Program 2004 World Bank, 2005 The World Bank's research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it

today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of The World Bank Research Program Abstracts from Current Studies This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications

The World Bank Research Program 2001 World Bank, World Bank Staff, 2001-01-01 This publication is a compilation of reports on research projects initiated under way or completed in fiscal year 2001 July 1 2000 through June 30 2001 The abstracts cover 150 research projects from the World Bank and grouped under 11 major headings including poverty and social development health and population education labor and employment environment infrastructure and urban development and agriculture and rural development The abstracts detail the questions addressed the analytical methods used the findings to date and their policy implications Each abstract identifies the expected completion date of each project the research team and reports or publications produced

Labor Markets in Asia Jesus Felipe, Rana Hasan, 2006-07-03 This volume argues that while labour market reforms may be necessary in some specific cases by no means are labour market policies the main explanation for the widespread increase in unemployment and underemployment across Asia and country specific studies undermine the case for across the board labour market reforms

Asian and Pacific Cities Ian Shirley, Carol Neill, 2013-03-12 The cities of Asia and the Pacific are at the epicentre of development in what is arguably the most populous culturally distinctive and economically powerful region in the world 16 major cities such as Tokyo Shanghai Manila Jakarta Bangkok Singapore Auckland Kuala Lumpur and Santiago located in countries as diverse as Mexico and Vietnam Samoa and India China and Australia exemplify the changing patterns of development across this vast region of the world By tracking economic and social trends the contributors to this collection reveal how a wide range of political and cultural factors have interacted over time to provide a powerful explanation for the shape and characteristics of the city today Based on a collaborative research programme and drawing on the work of local researchers this book examines the realities of city development characterised by domestic migration spatial and social fragmentation squatter settlements and gated communities economic experiments and the emergence of the Asian Tigers The collection as a whole records the way in which countries in this region have moved from underdevelopment to become global economic and political powers This book provides a fascinating journey through Asia and the Pacific by generating an insiders view of each city and an insight into national development As such it will be of great interest to students and scholars interested in the Asian and Pacific region in disciplines such as economics politics geography and sociology and in policy domains such as
